SURFACE TRANSPORTATION BOARD

[Docket No. FD 36418]

Alabama & Gulf Coast Railway LLC—Temporary Trackage Rights Exemption—The Kansas City Southern Railway Company

Alabama & Gulf Coast Railway LLC (AGR), a Class III railroad, has filed a verified notice of exemption under 49 CFR 1180.2(d)(8) for the acquisition of

temporary trackage rights, for overhead operations, by AGR over a 100-mile rail line (the Line) of The Kansas City Southern Railway Company (KCS) between KCS milepost 15.1 in Columbus, Miss., and KCS milepost 135.2 in Meridian, Miss., including yard trackage at KCS Meridian Yard at KCS milepost 135 as necessary to connect with the Meridian & Bigbee Railroad, L.L.C., pursuant to the terms of a temporary trackage rights agreement dated July 1, 2020 (Agreement).¹

AGR states that an AGR train derailed and damaged a bridge two miles north of Aliceville, Ala., rendering the bridge inoperable. The purpose of the temporary trackage rights is to accommodate AGR's emergency detour operations over the Line while AGR's main line is repaired and the bridge is replaced. AGR states that it will cease use of the Line upon completion of the repairs and that the temporary trackage rights will expire no later than August 31, 2020.

AGR concurrently filed a petition for waiver of the 30-day period under 49 CFR 1180.4(g)(1) to allow the proposed temporary trackage rights to become effective immediately. By decision served July 2, 2020, the Board granted AGR's request. As a result, this exemption is now effective.

As a condition to this exemption, any employees affected by the acquisition of the temporary trackage rights will be protected by the conditions imposed in *Norfolk & Western Railway—Trackage Rights—Burlington Northern, Inc.*, 354 I.C.C. 605 (1978), as modified in *Mendocino Coast Railway—Lease & Operate—California Western Railroad*, 360 I.C.C. 653 (1980), and any employees affected by the discontinuance of those trackage rights will be protected by the conditions set out in *Oregon Short Line Railroad—Abandonment Portion Goshen Branch Between Firth & Ammon, in Bingham & Bonneville Counties, Idaho*, 360 I.C.C. 91 (1979).

If the verified notice contains false or misleading information, the exemption is void ab initio. Petitions to revoke the exemption under 49 U.S.C. 10502(d) may be filed at any time. The filing of a petition to revoke will not automatically stay the effectiveness of the exemption.

All pleadings, referring to Docket No. FD 36418, must be filed with the Surface Transportation Board either via e-filing or in writing addressed to 395 E

Street SW, Washington, DC 20423–0001. In addition, a copy of each pleading must be served on ARG's representative, Eric M. Hocky, Esq., Clark Hill, PLC, Two Commerce Square, 2001 Market St., Suite 2620, Philadelphia, PA 19103.

According to AGR, this action is categorically excluded from environmental review under 49 CFR 1105.6(c) and historic reporting under 49 CFR 1105.8(b)(3).

Board decisions and notices are available at www.stb.gov.

Decided: July 2, 2020.

By the Board, Allison C. Davis, Director, Office of Proceedings.

Tammy Lowery,
Clearance Clerk.

TENNESSEE VALLEY AUTHORITY

Natural Resource Plan in Alabama, Georgia, Kentucky, Mississippi, North Carolina, Tennessee, and Virginia

AGENCY: Tennessee Valley Authority.

ACTION: Issuance of record of decision.

SUMMARY: The Tennessee Valley Authority (TVA) has decided to adopt the preferred alternative in its final supplemental environmental impact statement (SEIS) for the Natural Resource Plan (NRP). The TVA Board of Directors (Board) accepted the NRP and authorized TVA's Chief Executive Officer to implement the preferred alternative at its May 7, 2020, meeting. This alternative updates the NRP and will guide TVA's natural resource management over the next 20 years.

FOR FURTHER INFORMATION CONTACT: Matthew Higdon, NEPA Specialist, Tennessee Valley Authority, 400 West Summit Hill Drive, WT 11B–K, Knoxville, Tennessee 37902–1499. Telephone 865–632–8051. Email: mshigdon@tva.gov. Ben Bean, NRP Project Manager, Tennessee Valley Authority, 3941 Brashers Chapel Road, Guntersville, Alabama 35976. Telephone: 256–891–6611. Email: bjbean@tva.gov.

SUPPLEMENTARY INFORMATION: This notice is provided in accordance with the Council on Environmental Quality's regulations (40 CFR parts 1500 to 1508) and TVA's procedures for implementing the National Environmental Policy Act (NEPA; 18 CFR part 1318).

TVA is an agency and instrumentality of the United States, established by an act of Congress in 1933, to foster the social and economic welfare of the people of the Tennessee Valley region

and to promote the proper use and conservation of the region's natural resources. TVA's threefold mission is to provide affordable and reliable power, promote sustainable economic development, and act as a steward of the Valley's natural resources. The lands managed by TVA in the name of the United States of America are some of the most important resources of the region. These lands include approximately 293,000 acres associated with the TVA reservoir system that are managed for the benefit of the public. Most of these lands remain undeveloped and are managed by TVA to provide natural resource conservation, recreation, and the protection of cultural resources.

In 2011, TVA completed its first NRP to guide its natural resource stewardship efforts. After considering alternative approaches to resource management, the Board adopted a Blended Management alternative as the NRP because it aligned best with TVA's Environmental Policy, focused on key programs that establish a baseline for future enhanced implementation efforts, and provided flexibility to use partnerships and other sources of funding to leverage programs to their full potential while working within resource and staff constraints (75 FR 57100, September 15, 2011). The 2011 NRP addressed TVA's management of programs and activities for six resource areas: Biological, cultural, and water resources; recreation; reservoir lands planning; and public engagement.

In the 2011 NRP, TVA committed to reviewing the NRP every five years and updating the plan as needed to ensure it remains relevant and current. In 2016, as part of the NRP review process, TVA staff reviewed the NRP and determined that a Blended Management approach continues to be the most appropriate and effective plan for managing the waters and public lands of the Tennessee River Valley. However, TVA determined that because the 2011 NRP did not encompass all of the resource stewardship programs managed by TVA, the NRP was not fully serving as the comprehensive strategic guide as was first envisioned. Based on this assessment, TVA determined that updating the NRP was the best path forward to address identified concerns. After developing the initial scope of changes needed, TVA initiated a NEPA review to supplement the 2011 Environmental Impact Statement.

Alternatives Considered

Consistent with the requirements of NEPA, TVA analyzed two alternatives in the NRP SEIS. Under the No Action

¹ A redacted copy of the Agreement is attached to the verified notice. An unredacted copy has been filed under seal along with a motion for protective order pursuant to 49 CFR 1104.14. That motion is addressed in a separate decision.
