

**ASLOWL  
PRESENTS:**

**0.3 ps CEUS**

**"CREATING CLASSIFIERS"**

**PRESENTER:**

**CROM  
SAUNDERS**

**October 23,  
2021 | 12:00PM -  
3:00PM EST**

**\$30/\$20  
Student**

**Description:**

How can one create new classifiers for new images? The use and variety of classifiers go beyond the standard ones taught in ASL classes. True fluency in ASL includes the ability to create and incorporate new classifiers that are syntactically correct, and the meaning of such classifiers clearly conveyed. Attendees will learn models for classifier creation opportunities and a great understanding of classifier use, through group discussion and development.
