

The Monthly Employment Report

Washington 3.7% United States 3.5%

Seasonally adjusted

September 2022

 **Employment Security Department**
WASHINGTON STATE

For workers and businesses affected by COVID-19, Employment Security has updated information on the website at esd.wa.gov. For labor market information questions, please send your emails to data@esd.wa.gov.

Employment estimates in this report are generated by the U.S. Bureau of Labor Statistics (BLS). Monthly employment estimates are subject to revision in subsequent months when more sample data become available. BLS data in this report are rounded to the nearest 100.

On a seasonally adjusted basis, preliminary estimates from the federal Bureau of Labor Statistics (BLS) indicate nonfarm employment in Washington rose by 1,500 in September 2022.¹ BLS estimates the private sector gained 9,200 jobs during the month and the public sector lost 7,700 jobs.

On a not seasonally adjusted basis, estimates for September 2021 through September 2022 indicate an increase in employment of 149,100 for the state. The private sector gained 151,100 jobs while the public sector lost an estimated 2,000 jobs over the year.

Washington's preliminary seasonally adjusted unemployment rate for September 2022 is 3.7 percent. The revised estimated August 2022 unemployment rate is at 3.7 percent. The September 2021 unemployment rate was 4.8 percent.

BLS estimates of monthly job gains and losses are based on a survey of businesses. Preliminary estimates are subject to revision. The August 2022 preliminary estimated gain of 16,100 jobs was revised to a gain of 21,700 jobs.

For more information, call Paul Turek at 360-706-3044.

Resident civilian labor force and unemployment, seasonally adjusted

The **resident civilian labor force** is the total number of people in the workforce, employed and unemployed, ages 16 and up.

The number of **unemployed** is the estimated number of people who currently do not have a job, are available for work and have actively looked for work in the last four weeks.

The **unemployment rate** is the ratio of the estimated number of unemployed divided by the civilian labor force.

and Analytics Division
October 2022

¹Most of the employment numbers discussed in this report refers to jobs, not people. For example, if a person holds two positions, these positions are counted as two jobs in the employment series. In the section titled "Unemployment," these positions refer to individuals, not jobs. In this case, a person holding two jobs is counted only once.

Unemployment, seasonally adjusted

The BLS estimates Washington's preliminary seasonally adjusted unemployment rate for September 2022 is 3.7 percent. The revised estimated August 2022 unemployment rate is 3.7 percent.

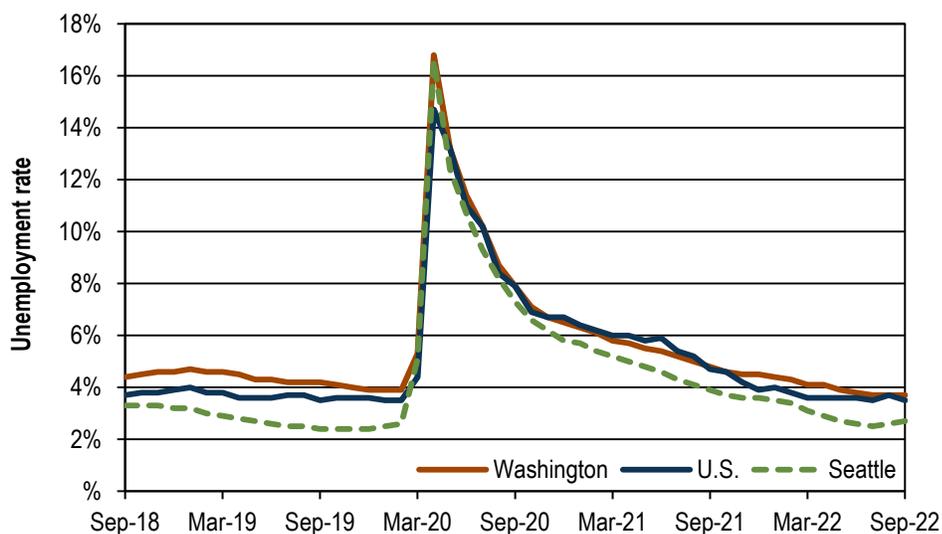

According to BLS estimates, the number of unemployed people rose by 1,000 in September 2022 compared to August 2022. At the same time, the number of employed people fell by an estimated 9,100. Overall, this amounted to a decrease of 8,100 people in the labor force.

The preliminary September 2022 unemployment rate is 1.1 percentage points lower than the September 2021 rate of 4.8 percent.

U-6 unemployment rate

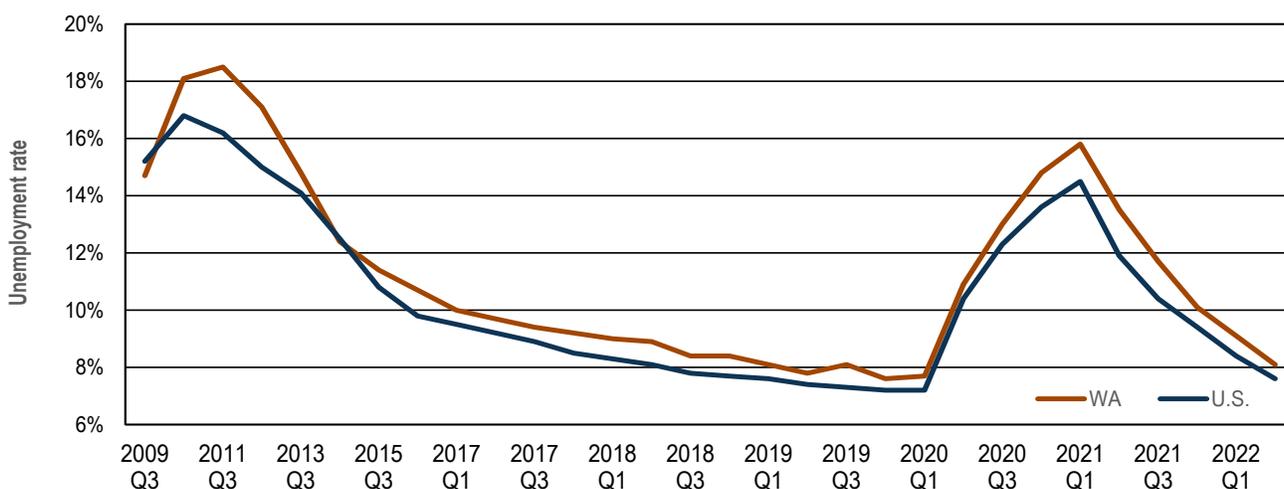

U-6: Broader unemployment measure decreased in the four-quarter period from third quarter 2021 through second quarter 2022

The U.S. Bureau of Labor Statistics (BLS) recently updated its “alternative measures of labor underutilization” for states to include four-quarter rates for third quarter 2021 through second quarter 2022. One such alternative measure is the U-6 rate, which considers not only the

unemployed population in the official “U-3” unemployment rate, but also marginally attached workers and those employed part time for economic reasons. The U-6 rate is defined by BLS as the “total unemployed, plus all marginally attached workers, plus total employed part time for economic reasons, as a percent of the civilian labor force plus all marginally attached workers.” This U-6 measure measures the “unemployed, underemployed, and those who are not looking but who want a job.”

The U-6 unemployment rate for the four-quarter period from third quarter 2021 through second quarter 2022 for Washington state was 8.1 percent. This was lower compared to the 9.1 percent U-6 unemployment rate for second quarter 2021 through the first quarter period. The U.S. U-6 unemployment rate for the four-quarter period from third quarter 2021 through second quarter 2022 was 7.6 percent

**Alternate measures of labor underutilization, four-quarter moving average

Seasonally adjusted employment

Seasonally adjusted numbers account for normal seasonal patterns that occur year after year, such as strong seasonal hiring in retail trade around the holidays. Taking into account normal seasonal variations makes it possible to see unusual changes in employment levels.

Normal seasonal change is the expected monthly change in employment based on history.

Estimated change is the employment change over the month based on BLS survey data.

Seasonally adjusted change is change in employment accounting for normal seasonal patterns.

Normal seasonal change, estimated change and seasonally adjusted change
Washington state, September 2022

Source: Employment Security Department/DATA Division; U.S. Bureau of Labor Statistics, Current Employment Statistics

	Normal seasonal change	Estimated change	Seasonally adjusted change
Total nonfarm	-3,600	-2,100	1,500
Government	10,700	3,000	-7,700
Education and health services	4,100	4,700	600
Wholesale trade	500	1,700	1,200
Information	200	2,600	2,400
Mining and logging	0	100	100
Manufacturing	-300	-600	-300
Transportation, warehousing and utilities	-500	2,200	2,700
Financial activities	-1,200	100	1,300
Other services	-1,700	-1,800	-100
Construction	-2,300	-3,600	-1,300
Retail trade	-3,300	-2,800	500
Professional and business services	-4,000	-2,200	1,800
Leisure and hospitality	-5,800	-5,500	300

Based on historical patterns, Washington employment typically decreases by 3,600 from August to September. This year the state lost an estimated 2,100 jobs, amounting to a seasonally adjusted increase of 1,500 jobs.

- Typically, manufacturing employment decreases by 300 in September. On a seasonally adjusted basis, manufacturing employment decreased by 300 as the estimated decrease was 600.
- The estimated employment decrease in construction was 3,600. The normal seasonal decrease is 2,300, so on a seasonally adjusted basis, construction employment decreased by 1,300.
- Employment in retail trade normally decreases by 3,300. It is estimated to have decreased by 2,800 this September so it increased by 500 on a seasonally adjusted basis.
- The employment increase on a seasonally adjusted basis was 1,800 in professional and business services in September. The normal seasonal decrease is 4,000. It is estimated to have decreased this September by 2,200.
- The normal seasonal loss in leisure and hospitality employment is 5,800 in September. The estimated loss was 5,500, so employment increased by 300 on a seasonally adjusted basis.
