Power Sector Opportunities in South Africa

U.S. Embassy South Africa, Power Africa and the U.S. Commercial Service will host a three-part webinar series for U.S. companies to showcase a variety of tender and procurement opportunities in the South African power sector. The webinar discussion will also include an overview of U.S. government tools and resources available to U.S. companies during the project development stage.

Part I: Renewable Energy & Energy Storage

WEBINAR

Please join us for Power Sector Opportunities in South Africa Part, I: Renewable Energy & Energy Storage which will focus on the upcoming Renewable Energy Independent Power Producers Procurement Program (REIPPPP), Bid Window 5, as well as the Eskom/World Bank Battery Energy Storage Systems (BESS) program. Both programs have indicated that RFPs will be issued within the next three months.
