

## THIS WEEK'S PROGRESS

- As of Jan. 15, Kentucky had administered 190,547 COVID-19 vaccine doses – 179,897 of the first dose and 10,650 of the second – of which 159,389 doses have been administered through the state program and 31,158 administered through the long-term care facilities (LTCFs) program.
- To date, the state program has received 226,175 vaccine doses; the LTCF program has received 99,450 doses.
- More than 67,000 doses were administered from Jan. 3 to 9, about 30,000 more doses than were administered the week prior. So far this week, from Jan. 10 to date, more than 63,000 doses have been administered.
- We are on track as we ramp up to meet our goal of administering 90% of all vaccine received within seven days of arrival. In fact, last week we administered more doses of vaccine than we received.

## NEXT WEEK'S GOALS

- Known upcoming vaccine allocations:
  - Week of Jan. 18: Pfizer 28,275
  - Week of Jan. 18: Moderna 56,175
- Vaccinations have already begun for K-12 school personnel through individual school districts and will continue to ramp up over the next few weeks. The state expects to finish administering initial vaccination doses for K-12 educators and support staff the week of Feb. 1.
- The goal is for every vaccine administration site to administer 90% or more of all doses within seven days of arrival. To learn more, see the [Jan. 4 release](#).

## THINGS TO KNOW

- Governor Andy Beshear announced the first Kroger regional, drive-through vaccination sites will open the week of Feb. 1 for Kentuckians in Phase 1A, 1B and 1C. For more details on who is included in each phase, click [here](#). On Jan. 28, the Governor said more details would be announced on site locations and how to sign up.
- The Governor also announced that Transportation Secretary Jim Gray has also been named Director of the Vaccine Distribution Project. Watch the introduction [here](#).
- During the week of Jan. 4 to 10, Walgreens completed vaccinations at 72 long-term care facilities, with 3,512 residents and 2,059 staff receiving doses. That week, CVS completed vaccinations at 75 long-term care facilities, with 2,973 residents and 2,432 staff receiving doses.
- Continue to social distance, wear a face mask in public and wash your hands, *even if you have received the vaccine*.

***A SHOT OF RELIEF. A SHOT OF HOPE. A SHOT OF CERTAINTY.***

- *The COVID-19 vaccine does more than keep you from getting sick. It will get folks all across Kentucky back to work. Get kids back to school. Get our economy back on track. As the FDA-authorized vaccines arrive, all you have to do is keep doing your part. We can't all get the vaccine at once, but we'll all get a turn. You can get all the facts at [kycovid19.ky.gov](https://kycovid19.ky.gov).*

**THANK YOU**
