

## Notice of Preproposal Statement of Inquiry WSR 22-11-032

The Washington State Liquor and Cannabis Board (WSLCB) is considering creating new, amending, or repealing existing rule sections as necessary to identify and further define terms including, but not limited to, additives, solvents, ingredients, compounds, or concentrates used in the production or processing of cannabis products. Additional revisions may be considered where appropriate.

The production and processing of cannabis products may involve the use of potentially harmful additives, solvents, ingredients, compounds, or concentrates. Rules are needed to further define these additives, solvents, ingredients, compounds, or concentrates used in the production or processing of cannabis products that pose or may pose a risk to public health or youth access.

The WSLCB encourages your input on the subject of this rulemaking. Following the CR 101 comment period, the agency will distribute and publish a CR 102 with proposed rules, establish a formal comment period consistent with chapter 34.05 RCW on the proposed rules, and hold a public hearing before the final rules are adopted.

### Public Comment

Please send your comments on the CR 101 to the WSLCB through mail, e-mail, or fax by **July 1, 2022**. The CR 102 with proposed rules is anticipated to be filed on or after September 14, 2022, following collaborative rule development.
