

Student Attendance & Indiana's New Early Warning Dashboard

October 4, 2023

 @EducateIN

TODAY'S **AGENDA**

- **Attendance Level-Set**
- **Elevating Student Attendance**
- **We All Have a Role to Play**

Attendance Level-Set

 @EducateIN

KEY DEFINITIONS

SCHOOL-FOCUSED

Attendance rate -

The number of days a student attended school, divided by the total number of school days.

STUDENT-FOCUSED

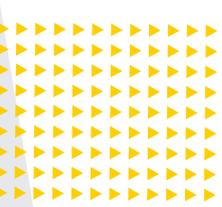

Student attendance (Indiana GPS) -

Percentage of students with at least a 94% attendance rate (*days attended*)

Chronic absenteeism -

Missing at least 10% of school days (*days missed*)

According to a recent New York Times Study, on an average day last school year, **nearly 10 percent of K-12 students nationwide** were not there, preliminary data suggests.

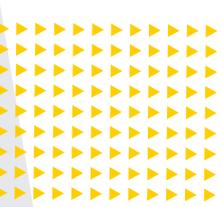

About **one quarter of U.S. students** qualified as chronically absent.

This number has been **rising since the pandemic.**

Note: Chronically absent means missing at least 10 percent of school days or about three and a half weeks.

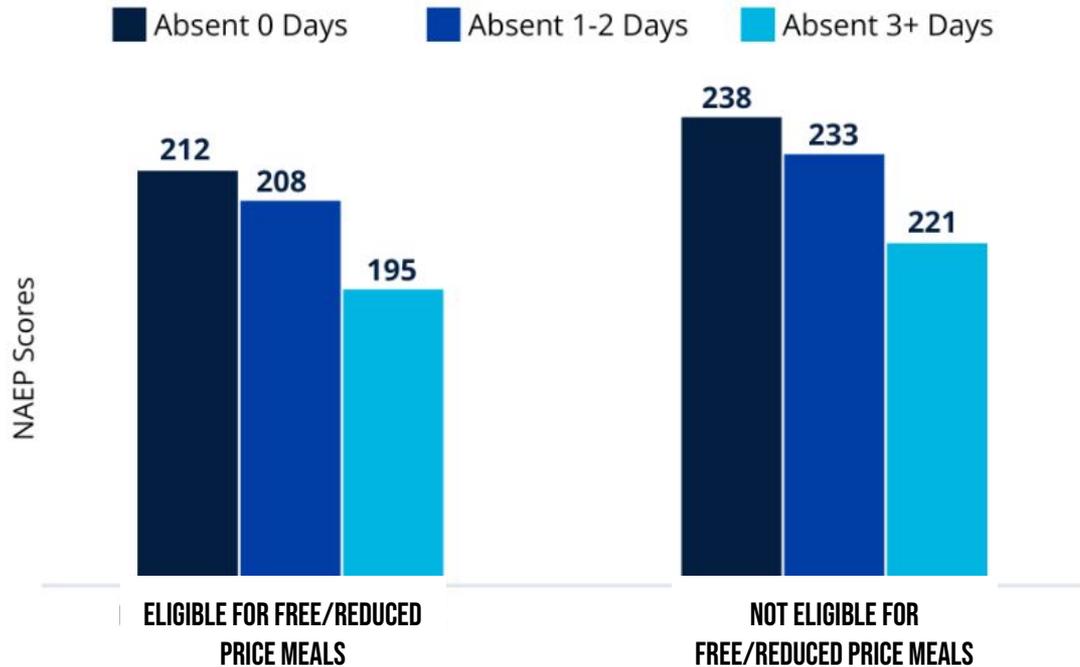

Source: [Where Are the Students?](#) image: Flaticon.com

Data show that even after adjusting for socioeconomic status and race, U.S. children who skip more school get **significantly worse grades.**

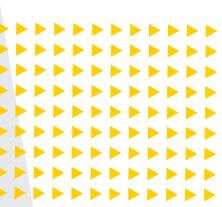

NAEP 4th Grade Reading Scores by Test-takers' Days Absent in the Prior Month, 2022

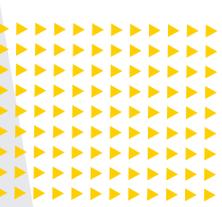

Source: NAEP Data Explorer via Alan Ginsburg
NAEP is reported on a scale of 0-500. Researchers consider 10-12 points equal to a year of learning.

FutureEd

How many *school buses* could be filled with students if all of our chronically absent students came to school on the same day?

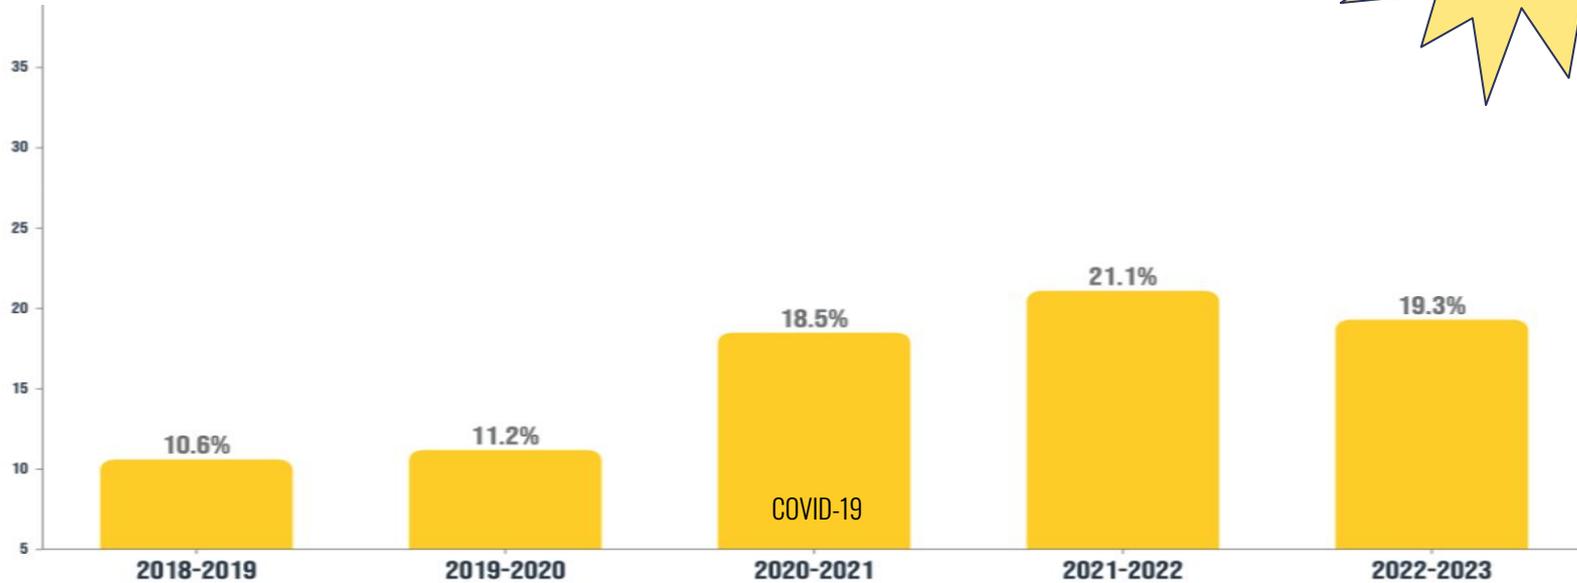

3,086

**Based on a bus capacity of 72 students*

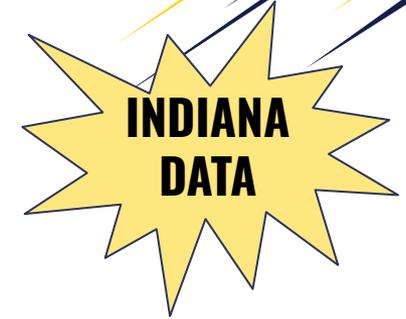

CHRONIC ABSENTEEISM: COMPARISON YEAR-TO-YEAR

**INDIANA
DATA**

CHRONIC ABSENTEEISM: **BY SCHOOL** (2022-2023)

1,651 schools.....have *1 in 10 students* who are chronically absent

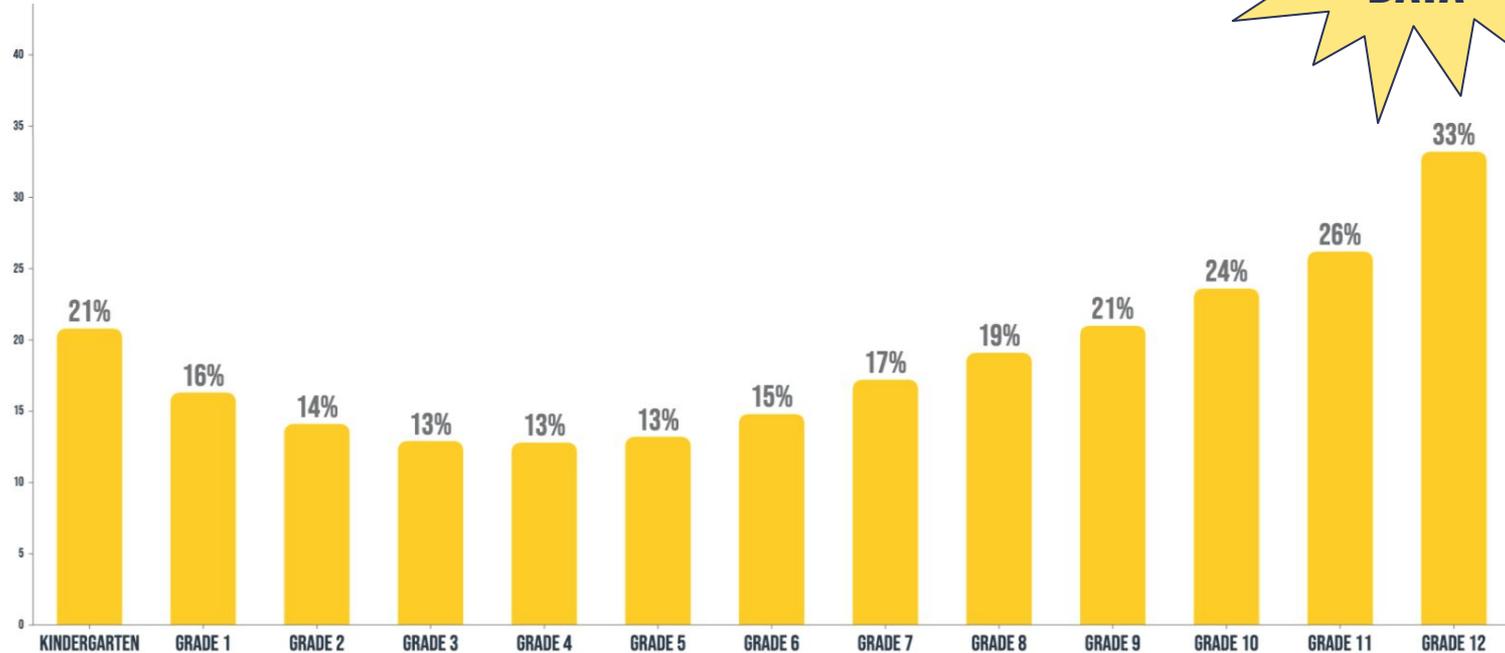

547 schools.....have *1 in 4 students* who are chronically absent

270 schools.....have *1 in 3 students* who are chronically absent

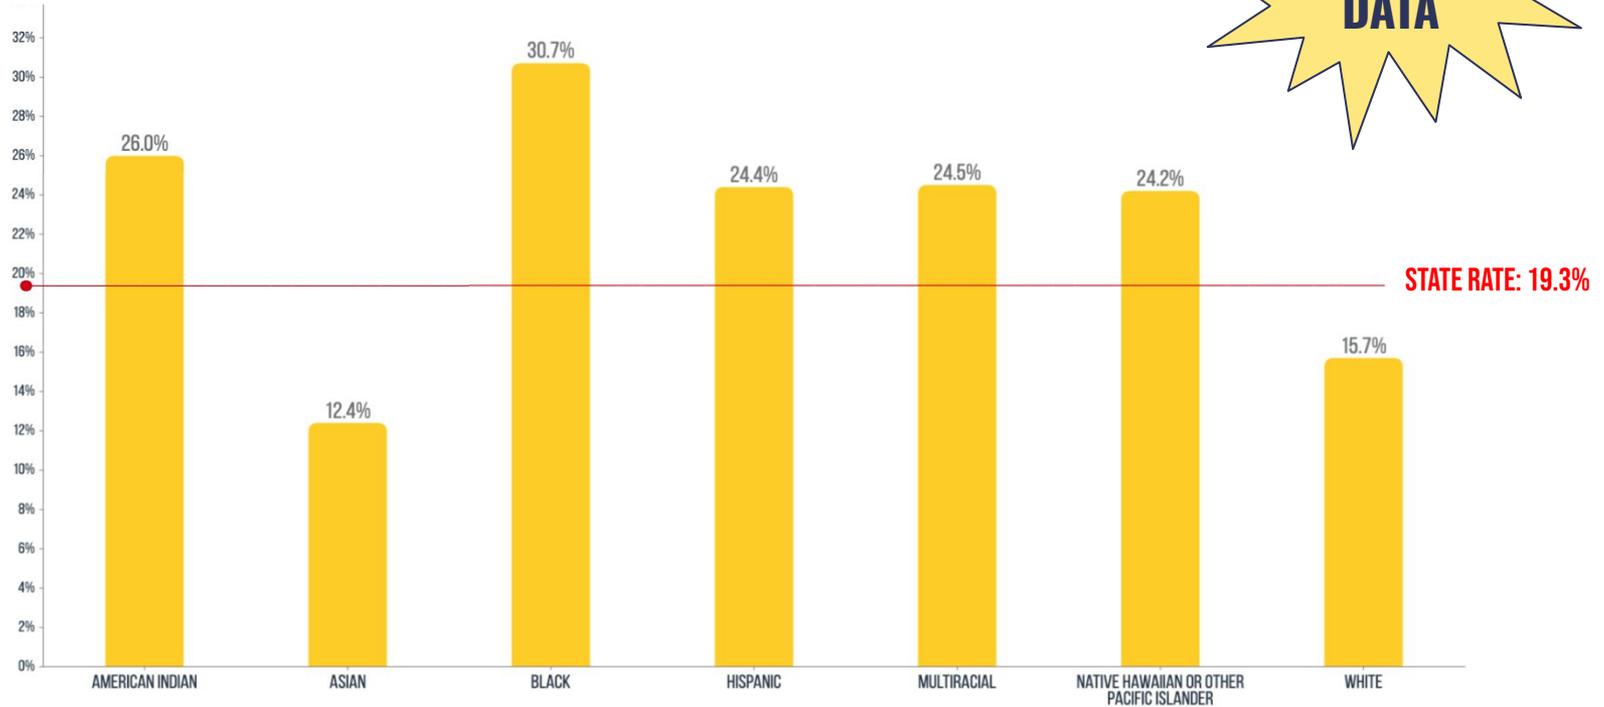

84 schools.....have *1 in 2 students* who are chronically absent

CHRONIC ABSENTEEISM: BY GRADE LEVEL (2022-2023)

**INDIANA
DATA**

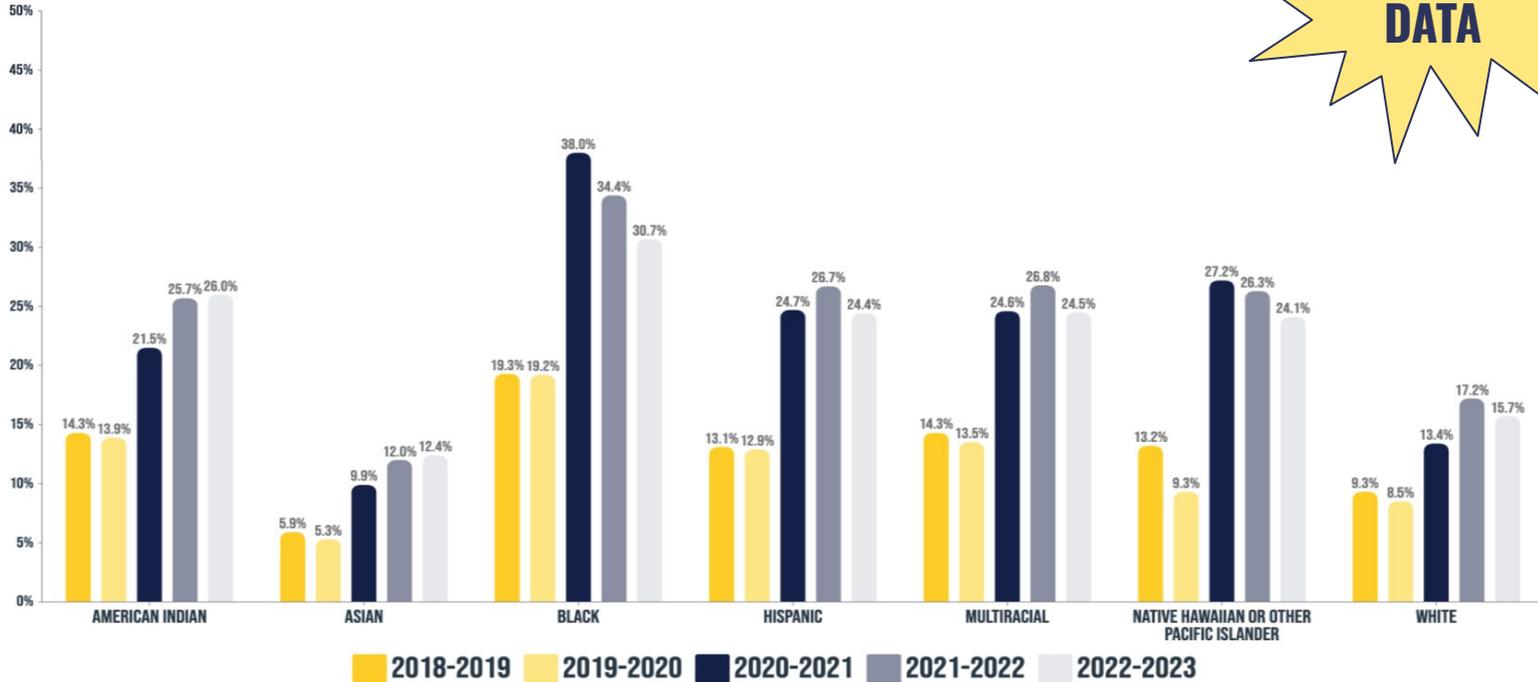

CHRONIC ABSENTEEISM: ETHNICITY (2022-2023)

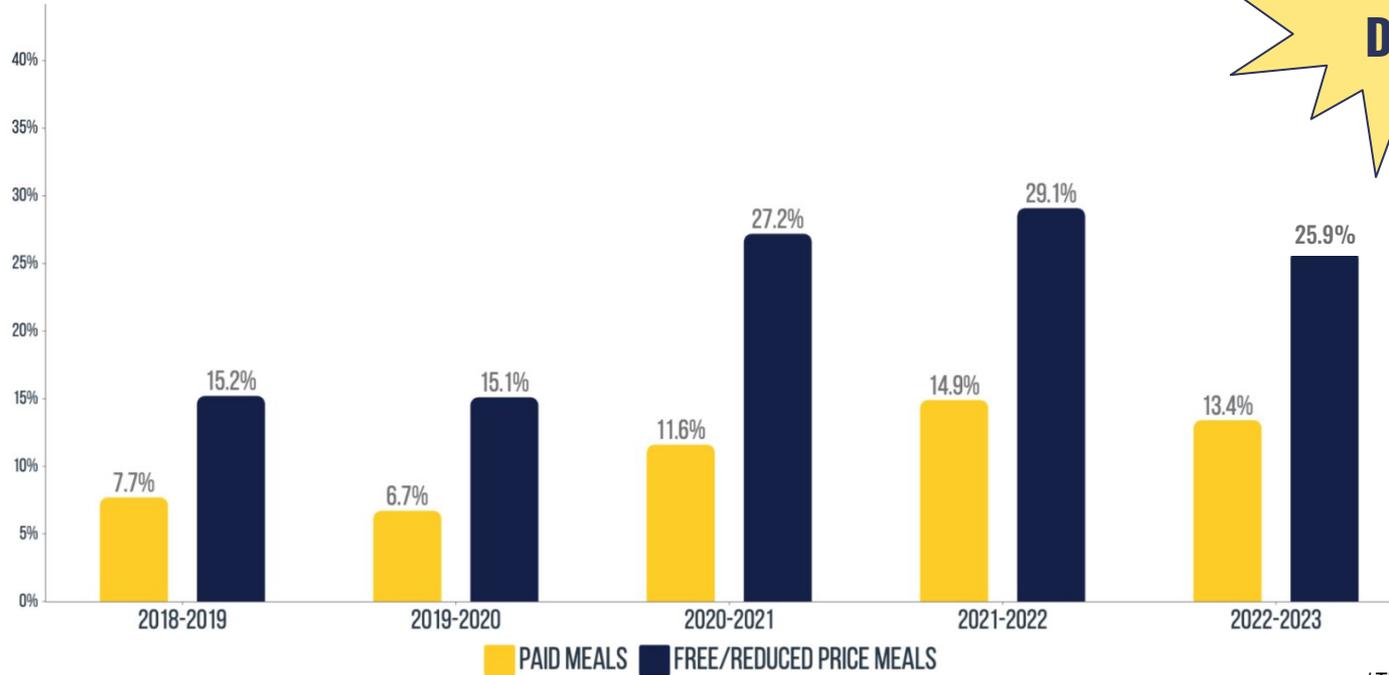

CHRONIC ABSENTEEISM: ETHNICITY YEAR-TO-YEAR

INDIANA
DATA

CHRONIC ABSENTEEISM: SOCIOECONOMIC STATUS

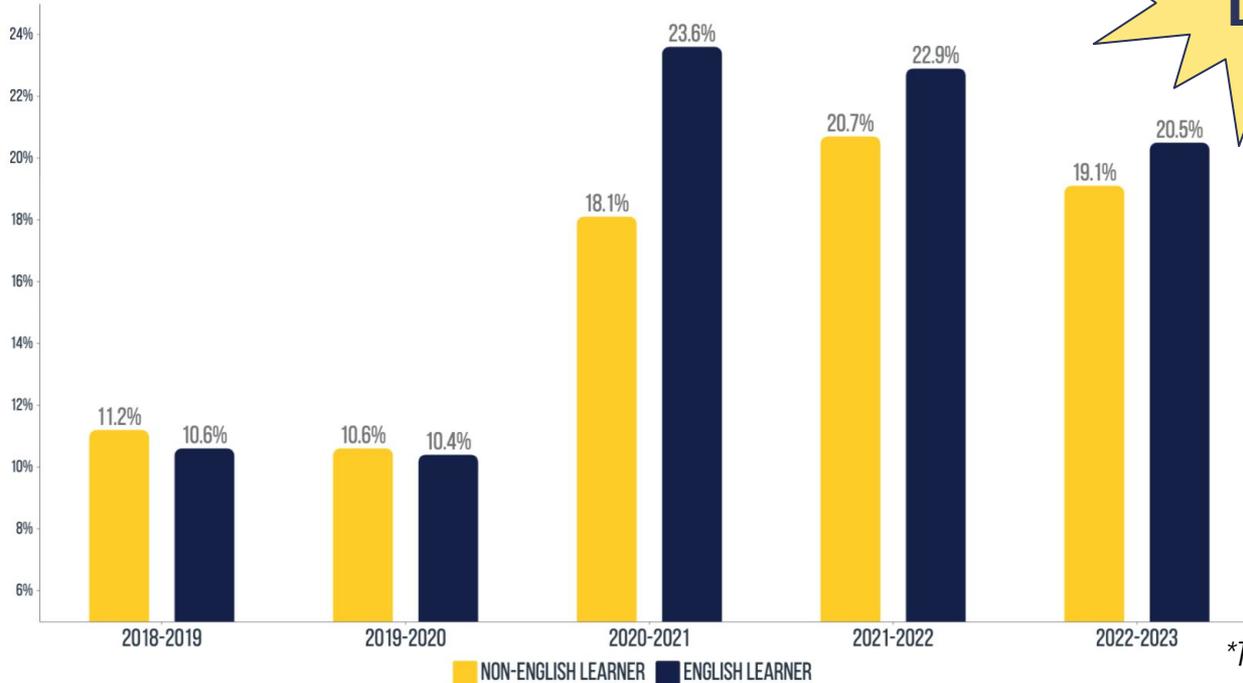

**INDIANA
DATA**

**This calculation does not include students identified in the data with a FRL status of "unknown."*

CHRONIC ABSENTEEISM: ENGLISH LEARNER STATUS

**INDIANA
DATA**

**This calculation does not include students identified in the data with an EL status of "unknown."*

KEY TAKEAWAYS

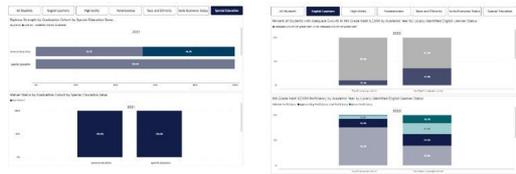

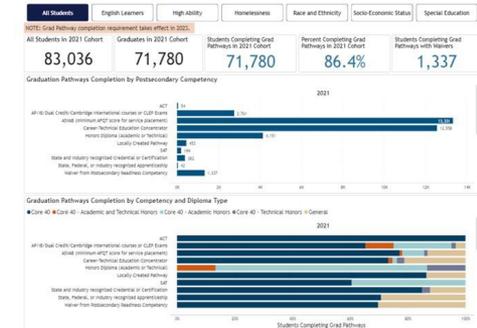

- While the state's chronic absenteeism rate *decreased* from the 2021-2022 school year to the 2022-2023 school year, it remains **over 8% higher** than it was before the pandemic (19.3%).
- *84 schools* have **1 in 2 students** who are chronically absent.
- Rates of chronic absenteeism are *highest* amongst students in **grades nine through 12**, ranging from 21% in grade nine to over 33% in grade 12.
- Student populations who experienced the *greatest academic impacts* in ELA and math following the pandemic also have **greater rates of chronic absenteeism**.
 - Black students (30.7%), Hispanic students (24.4%), English learners (20.5%), and students eligible for free and reduced lunch (25.9%).

Elevating Student Attendance

INDIANA GPS PERFORMANCE DASHBOARD

- Re-envisioning how we **strategically measure school and student performance**...focusing on knowledge and *skills* necessary for lifelong success
- Allows the public to view **student population data, longitudinally**...and be able to interact with the data sets for the *first time ever!*
- *Constantly evolving*...designed to **empower continuous improvement** of student learning across the pre-K-12 continuum

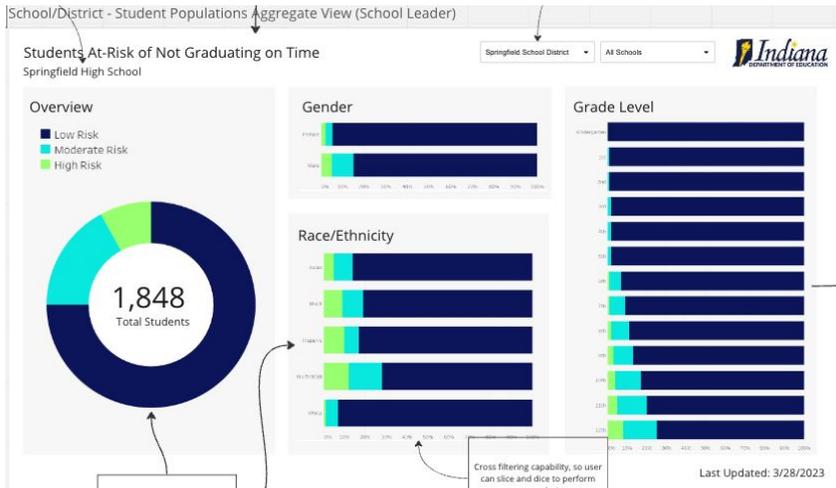

HOW WE MEASURE THESE CHARACTERISTICS

- Indiana GPS currently elevates **20 headline indicators**
 - Additional **aspirational indicators** are currently being developed
 - For K-8 indicators, students are assigned to the school where they attended the majority of the school year.
- One of these indicators is **attendance**.
- *Indiana-specific research* shows that students who attend school less than 94% of the time **experience negative academic impacts** as a result.

Statewide, **only 60% of students** have an attendance rate of 94% or higher.
(2021-2022)

EARLY WARNING DASHBOARD - UNDER DEVELOPMENT

**Currently
in the RFP
process!**

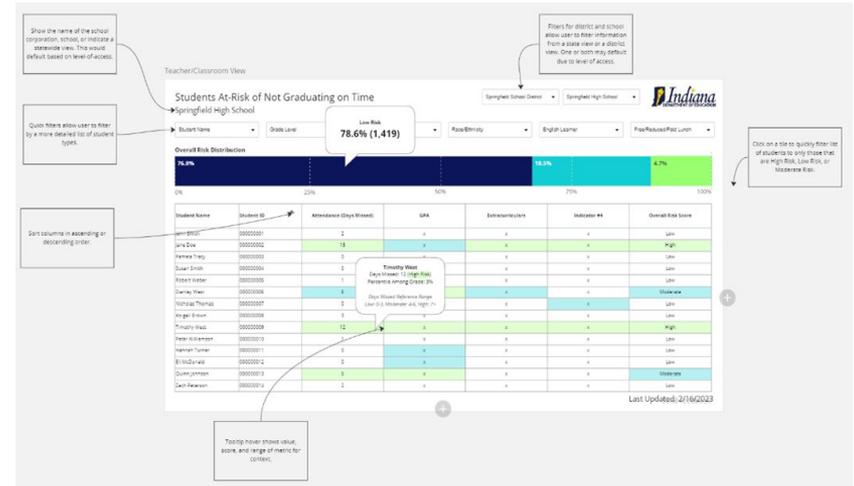

TARGET LAUNCH: 2024-2025 SY

Purpose: To develop an Early Warning Dashboard for Indiana schools to use in directing attention and resources to students most at-risk of not graduating.

Note: At-risk is defined as having less than an 80% chance of graduating on time using historical data.

EARLY WARNING INDICATOR - USES

- Educators will *clearly see* which students are at risk and *why*.
- Data will reveal areas of difficulty for students to guide **additional, timely instruction and support**.
- Exportable indicators and profiles will help educators **increase engagement with parents**.

INDICATORS OF HIGH IMPORTANCE - EXAMPLES

● Attendance

- Advanced coursework (AP and/or dual credit classes)
- Grades
- Disciplinary actions
- High school credits earned (before and during high school)
- Performance on state assessments

Other indicators may be added as additional analyses are completed.

**We Each Have
a Role to Play**

 **@EducateIN**

WE **EACH** HAVE A ROLE TO PLAY

- **Parents, Families, Schools** - It has *never been more important* for parents, educators, and community leaders to *work together* to ensure students are **attending school**, thus providing them the *best possible chance for long-term success*.
- **IDOE/SBOE** - Ensure increased **data transparency**; Work with IASP and IAPSS to better understand **root causes**; Encourage **collaborative solutions** (DCS, Indiana Children's Commission, local prosecutors)

THANK YOU!
