ORDER

March 31, 2020

On March 6, 2020, Governor Andy Beshear signed Executive Order 2020-215, declaring a State of Emergency in the Commonwealth due to the outbreak of novel coronavirus (COVID-19), a public health emergency. Pursuant to the State of Emergency, the Governor issued multiple Orders to exercise all powers necessary to promote and secure the safety and protection of the civilian population, including the power to suspend state statutes and regulations, and to command individuals to disperse from the scene of an emergency, including, but not limited to, Executive Orders 2020-243 and 2020-257.

On March 24, 2020, the Secretary of the United States Department of Health and Human Services directed that States may be able to modify scope of practice requirements through the Governor's emergency powers or in accordance with the state emergency management laws to temporarily suspend certain scope of practice requirements, including any requirements for written supervision or collaboration agreements.

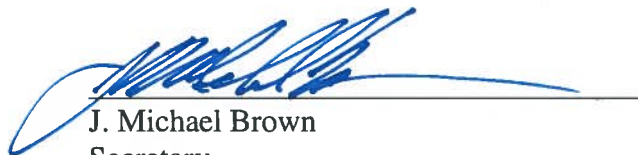

Therefore, pursuant to the authority granted me under Executive Orders 2020-243 and 2020-257, as the Secretary of the Governor's Executive Cabinet under KRS to 11.065, to prevent the spread of COVID-19 in the Commonwealth and to ensure the necessary healthcare professionals are available to treat Kentuckians, including by telehealth, I order as follows:

1. During the State of Emergency under Executive Order 2020-215, KRS 314.042(8), KRS 314.042(10), and 201 KAR 20:057, Section 7 are suspended. These statutes and the regulation require that Advanced Practice Registered Nurses (APRNs) have collaborative agreements with physicians as a prerequisite for the prescribing of legend drugs and controlled substances within the Commonwealth. KRS 314.101(1)(a, e) and the Good Samaritan Act of 2007, KRS 39A.350-366, authorize APRNs licensed to practice in other states to provide medical care to patients in Kentucky during the current state of emergency.
2. The suspension of KRS 314.042(8), KRS 314.042(10), and 201 KAR 20:057, Section 7 removes significant barriers to practice for Kentucky APRNs and APRNs licensed in other states who are among the at least 912 nurses who have applied to be listed on a registry of out-of-state licensees approved to practice nursing at healthcare facilities

[Type text]

licensed by the Kentucky Cabinet for Health and Family Services or which are otherwise approved by the Cabinet to provide patient care within the Commonwealth during the current State of Emergency.

This Order shall be in effect for the duration of the State of Emergency under Executive Order 2020-215, or until this Order is rescinded by further operation of law.

MEMORANDUM

TO: All Licensees and Applicants for Licensure
FROM: Kentucky Board of Nursing
RE: Suspension of Regulatory Provisions Affecting Clinical Education of Nursing Students, Provisional Licensure for NCLEX Exam Applicants, and Temporary Work Permits for Endorsement Applicants Pursuant to Executive Order 2020-243
DATE: March 27, 2020

The Governor signed Executive Order 2020-243 on March 18, 2020, and Executive Order 2020-257 on March 25, 2020, in regard to the COVID19 State of Emergency. Among other things, these Executive Orders authorize state boards and commissions to issue orders or other memoranda necessary to clarify the suspension of any statutory or regulatory provisions where appropriate to ensure the continuation of such agencies' support of Life-Sustaining Businesses, while simultaneously implementing social distancing requirements to maximum extent possible. Consistent with this authority, the Kentucky Board of Nursing has temporarily suspended specific requirements contained within three specific regulatory subsections: 201 KAR 20:320 (curriculum for prelicensure nursing programs), 201 KAR 20:070 (provisional licensure for NCLEX exam applicants), and 201 KAR 20:110 (temporary work permits for endorsement applicants).

I. CLINICAL EDUCATION REQUIREMENTS

During the state of emergency regarding COVID19, the Board has directed relaxed enforcement of two (2) clinical education requirements set forth at 201 KAR 20:320, Section 2(9) and Section 3(1)(b), as follows:

Section 2(9) of 201 KAR 20:320 states: "(9) Integrated practicum. (a) The curriculum shall include an integrated practicum. The integrated practicum shall consist of a minimum of 120 clock hours of concentrated clinical experience of direct patient care in a health care facility or health care organization. (b) The integrated practicum shall be completed within a period not to exceed seven (7) consecutive weeks while the governing institution is in session and within seven (7) months of graduation."

During the period of emergency, the following highlighted words shall be regarded as omitted from Section 2(9) of 201 KAR 20:320: "(9) Integrated practicum. (a) The curriculum shall include an integrated practicum. The integrated practicum shall consist of a minimum of 120 clock hours of concentrated clinical experience of direct patient care in a health care facility or health care organization. (b) The integrated practicum shall be completed within a period not to exceed seven (7) consecutive weeks while the governing institution is in session and within seven (7) months of graduation."

Section 3(1) of 201 KAR 20:320 states: "Section 3. Simulation Standards. (1)(a) A program of nursing that uses simulation shall adhere to the standards set in this section. (b) A program of nursing shall not use simulation for more than fifty (50) percent of its total clinical hours required for graduation."

During the period of emergency, the following highlighted words shall be regarded as omitted from Section 3(1) of 201 KAR 20:320: "Section 3. Simulation Standards. (1)(a) A program of nursing that uses simulation shall adhere to the standards set in this section. (b) A program of nursing shall not use simulation for more than fifty (50) percent of its total clinical hours required for graduation."

This relaxed enforcement of 201 KAR 20:320, Section 2(9) and Section 3(1)(b) means, that during the state of emergency, Board staff will not enforce the 120 hour integrated practicum requirement in a manner that requires direct patient care, or the completion of the integrated practicum within seven (7) consecutive weeks. Also, Board staff will not enforce the fifty (50) percent threshold for simulation with regard to the one hundred twenty (120) clock hours of integrated practicum, or with regard to the overall clinical requirement set forth in the Program curriculum. This means that, during the emergency, the integrated practicum requirement and overall clinical education requirement of a Program of Nursing may be met through simulation, up to one hundred (100) percent, provided the simulation comports with 201 KAR 20:320 Section 3.

II. PROVISIONAL LICENSES ISSUED TO EXAM APPLICANTS, AND TEMPORARY LICENSES ISSUED TO ENDORSEMENT APPLICANTS

For a two (2) week period following the implementation of social distancing requirements, Pearson VUE test centers were closed. While the NCLEX test has now resumed, the capacity reductions resulting from social distancing requirements may delay testing for some applicants. For this reason, and in anticipation of the possibility that NCLEX testing will not reach full capacity during the state of emergency regarding COVID19, the Board has directed that, upon the expiration of a provisional Licensed Practical Nurse ("LPN") license pursuant to 314.051(5), or the expiration of a provisional Registered Nurse ("RN") license pursuant to KRS 314.041(3), the Board will issue a new provisional license, thus extending the period of permissible provisional licensure by up to six (6) months.

Also, the Kentucky Board of Nursing has received notification from the Kentucky State Police that all fingerprinting locations have been closed, and that the processing of fingerprint-driven criminal background checks have been suspended temporarily, due to the state of emergency regarding COVID19. During the state of emergency, the Board has directed relaxed enforcement of two (2) regulations that pertain to provisional and temporary licensure, as follows.

201 KAR 20:070 Section 4(2)(a) states: "The board shall issue the provisional license to the applicant after Section 1(1)(a) and (3) of this administrative regulation are met, but not until the report is received from the FBI and any conviction is addressed by the board."

During the period of emergency, for enforcement purposes, the following highlighted words shall be regarded as omitted from 201 KAR 20:070 Section 4(2)(a): "The board shall issue the provisional license to the applicant after Section 1(1)(a) and (3) of this administrative regulation are met, ~~but not until the report is received from the FBI~~ and any conviction is addressed by the board." Further, the reference in 201 KAR 20:070 Section 4(2)(a) to Section 1(1)(a) shall not be regarded as incorporating one subsection of Section 1(1)(a), namely, Section 1(1)(a)(1)(3), which, by its incorporation, would otherwise preclude the issuance of a provisional license in the absence of "a criminal record check completed within six (6) months of the date of the application by the Department of Kentucky State Police (KSP) and the Federal Bureau of Investigation (FBI) using the FBI Applicant Fingerprint Card, and including payment of any required fee to the KSP and the FBI." This relaxation of this requirement in 201 KAR 20:070 for

submission of a fingerprint card/scan and an FBI criminal background report is applicable to provisional licensure only.

201 KAR 20:110 Section 3 states, in pertinent part: "Section 3. Temporary Work Permit. (1) An applicant for licensure by endorsement who meets all of the requirements of Section 1(1)(a) through (i), except for paragraph (g) of this administrative regulation shall be issued a temporary work permit, but not until the report is received from the FBI and any conviction is addressed by the board. (2) A temporary work permit shall be valid for a period not to exceed six (6) months."

During the period of emergency, for enforcement purposes, the following highlighted words shall be regarded as omitted from 201 KAR 20:110 Section 3: "Temporary Work Permit. (1) An applicant for licensure by endorsement who meets all of the requirements of Section 1(1)(a) through (i), except for paragraph (g) of this administrative regulation shall be issued a temporary work permit, but not until the report is received from the FBI and any conviction is addressed by the board. (2) A temporary work permit shall be valid for a period not to exceed six (6) months." Further, the reference in 201 KAR 20:110 Section 3 to Section 1(1)(a) through (i) shall not be regarded as incorporating Section 1(1)(h), which, by its incorporation, would otherwise preclude the issuance of a temporary license in the absence of "a criminal record check completed within six (6) months of the date of the application by the Department of Kentucky State Police (KSP) and the Federal Bureau of Investigation (FBI) using the FBI Applicant Fingerprint Card, and including payment of any required fee to the KSP and the FBI." This relaxation of the requirement in 201 KAR 20:110 for submission of a fingerprint card/scan and an FBI criminal background report is applicable to temporary licensure only.

A fingerprint card/scan and an FBI report still will be required as a condition of full licensure pursuant to: 201 KAR 20:470 (Dialysis Technician); 201 KAR 20:056 (Advanced Practice Registered Nurse); 201 KAR 20:070 (LPN & RN License by Examination); 201 KAR 20:110 (License by endorsement); 201 KAR 20:225 (Reinstatement of License); and 201 KAR 20:411 (Sexual Assault Nurse Examiner).

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Administrative Regulation No. 201 KAR 20:225E. Reinstatement of license.

Agency Contact Person: Morgan Ransdell, Morgan.Ransdell@ky.gov, (502) 429-3339

(1) Provide a brief summary of:

(a) What this administrative regulation does: This emergency administrative regulation creates a temporary work permit for nurses applying for reinstatement. At this time, applicants cannot obtain a criminal record check from the State Police or the FBI. This will allow them to work as a nurse during the State of Emergency without the criminal record check, which they would obtain before getting a full license. It also eliminates the competency validation mechanism which would present a delay in obtaining a temporary work permit. The elimination of the competency validation mechanism would only be for the duration of the State of Emergency.

(b) The necessity of this administrative regulation: This emergency administrative regulation is necessary because of the State of Emergency declared by the Governor and the need for nurses.

(c) How this administrative regulation conforms to the content of the authorizing statutes: This administrative regulation conforms to the content of the authorizing statutes by providing for the ability of a nurse applying for reinstatement to work as a nurse.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation assists in the effective administration of the statutes by providing for the ability of a nurse applying for reinstatement to work as a nurse.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation:

(b) The necessity of the amendment to this administrative regulation:

(c) How the amendment conforms to the content of the authorizing statutes:

(d) How the amendment will assist in the effective administration of the statutes:

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: Nurses applying for reinstatement of a license, number unknown.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: They will have to apply for reinstatement.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): The reinstatement fee is \$135.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): They will be able to work as a nurse.

(5) Provide an estimate of how much it will cost the administrative body to implement this administrative regulation:

(a) Initially: There is no additional cost.

(b) On a continuing basis: There is no additional cost.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: Agency funds.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: No increase is needed.

(8) State whether or not this administrative regulation established any fees or directly or indirectly increased any fees: It does not.

(9) TIERING: Is tiering applied? (Explain why or why not) Tiering was not applied as the changes apply to all equally.
