RECOVERY PREREQUISITES	<p>4 key benchmarks to achieve before restrictions can be lifted:</p> <ol style="list-style-type: none"> 1. Capacity in the Healthcare System – in hospitals and for routine health care, we need staffing, ventilators, testing and medical supplies 2. Protections for those at risk – the elderly, those with underlying health conditions, live in institutional settings, are homeless, or don't have access to services 3. Increased capability to test, isolate and, quarantine – for anyone who has symptoms and ensure they receive timely results 4. Maintain physical distancing and infection control - education, supplies, and guidance for businesses and public places

PERSONS EXPERIENCING HOMELESSNESS (PEH)	<p>The Office of Emergency Management has designated LAHSA as the lead agency for work relating to people experiencing homelessness. OEM did this to ensure that LAHSA’s expertise is captured in the day-to-day work and allows LAHSA to play the central coordinating role across City and County agencies. Visit our website for more information on Homelessness & Housing.</p> <p>Medical Sheltering:</p>																											

The County, with LAHSA's support seeks to provide 2,000 shelter beds where persons exhibiting COVID-19 symptoms can isolate safely. Medical sheltering sites will serve multiple populations, including persons experiencing homelessness. These sites include RVs provided by the state and hotels provided by the County. Physical Distancing in shelters continues to be a priority. LAHSA has requested resources that include food, personnel, test kits, and a warehouse to store acquired items. This request is currently being addressed by both the State and the County.

Project Roomkey:

Los Angeles County, LAHSA and the City of Los Angeles have collectively allocated \$39.3 million in state emergency homeless funding for Project Roomkey. Project Roomkey expands the County's interim shelter system in a massive public health effort that aims to bring as many people as possible inside to protect their health and prevent the spread of COVID-19. Hotels and motels will provide interim housing for vulnerable persons experiencing homelessness including those over 65 years of age and those with compromised immunity or chronic disease. LAHSA is currently standing up staffing and operations for Project Roomkey. The safety of clients and the staff at each hotel site is a priority. In accordance with physical distancing guidelines, arrivals to the hotels are staggered to avoid long lines and large gatherings at the point of entry for each of the hotels. Most sites will take 2-4 days to reach capacity under this model.
