SUPPLEMENTARY INFORMATION:

Title: Imported Seeds and Screenings.

OMB Control Number: 0579–0124.

Type of Request: Reinstatement of an information collection.

Abstract: Under the authority of the Federal Seed Act (FSA) of 1939, as amended (7 U.S.C. 1551 *et seq.*), the U.S. Department of Agriculture (USDA) regulates the importation and interstate movement of certain agricultural and vegetable seeds and screenings. Title III of the FSA, “Foreign Commerce,” requires shipments of imported agricultural and vegetable seeds to be labeled correctly and to be tested for the presence of the seeds of certain noxious weeds as a condition of entry into the United States. The Animal and Plant Health Inspection Service's (APHIS) regulations implementing the provisions of Title III of the FSA are found in 7 CFR part 361.

The regulations in 7 CFR part 361, “Importation of Seed and Screenings under the Federal Seed Act” (§§ 361.1 to 361.10, referred to below as the regulations), prohibit or restrict the importation of agricultural seed, vegetable seed, and screenings into the United States. Section 361.7 provides the regulations for special provisions for Canadian-origin seed and screenings, and § 361.8 provides the regulations for the cleaning of imported seed and processing of certain Canadian-origin screenings.

APHIS' Plant Protection and Quarantine (PPQ) program operates a seed analysis program with Canada that allows U.S. companies that import seed for cleaning or processing to enter into compliance agreements with APHIS. This program eliminates the need for sampling shipments of Canadian-origin seed at the U.S.-Canadian border and allows certain seed importers to clean the seed without direct supervision of an APHIS inspector. The program provides a safe and expedited process

for the importation of seed and screenings into the United States without posing a plant pest or noxious weed risk.

The seed analysis program involves the use of information collection activities, including a compliance agreement, seed analysis certificate, declaration for importation, container labeling, notification of seed location, a seed return request, seed identity maintenance, documentation for U.S. origin exported seed returned to the United States, written appeal for cancellation of a compliance agreement and request for a hearing, and associated recordkeeping.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities, as described, for 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; *e.g.*, permitting electronic submission of responses.

Estimate of burden: The public burden for this collection of information is estimated to average 0.35 hours per response.

Respondents: Government food inspection agency officials; and commercial importers, seed cleaning/processing facility personnel, and seed laboratory personnel.

Estimated annual number of respondents: 1,163.

Estimated annual number of responses per respondent: 23.

Estimated annual number of responses: 27,038.

Estimated total annual burden on respondents: 9,629 hours. (Due to

averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 11th day of May 2020.

Michael Watson,

Acting Administrator, Animal and Plant Health Inspection Service.

Agency Information Collection Activities: Proposed Collection; Comment Request—User Access Request Form FNS–674

AGENCY: Food and Nutrition Service (FNS), USDA.

ACTION: Notice.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, this notice invites the general public and other public agencies to comment on the proposed information collection. This is a revision of a currently approved collection. The purpose of this information collection request is to continue the use of the electronic form FNS–674, titled “User Access Request Form.” This form will continue to allow access to current FNS systems, modified access or to remove user access.

DATES: Written comments must be received on or before July 14, 2020.

ADDRESSES: Comments may be sent to: Joseph Binns, Food and Nutrition Service, U.S. Department of Agriculture, 1320 Braddock Place, Room 232, Alexandria, VA 22314. Comments may also be submitted via email to Joseph.Binns@usda.gov. Comments will also be accepted through the Federal eRulemaking Portal. Go to <http://www.regulations.gov>, and follow the online instructions for submitting comments electronically.

All responses to this notice will be summarized and included in the request for Office of Management and Budget approval. All comments will be a matter of public record.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of this information collection should be directed to Joseph Binns at 703–605–1181.

SUPPLEMENTARY INFORMATION: Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including

whether the information shall have practical utility; (b) the accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions that were used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, including use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Title: User Access Request Form.

Form Number: FNS–674.

OMB Number: 0584–0532.

Expiration Date: 6/30/2021.

Type of Request: Revision of a currently approved collection.

Abstract: Form FNS–674 is designed to collect user information required to gain access to FNS Information Systems.

Affected Public: Contractors, State Agencies.

Estimated Number of Respondents: 2,700.

The respondents are State agencies, who are located in the 50 states and Trust Territories, staff contractors and Federal employees. Respondents who require access to the FNS systems are estimated at 3,600 annually (includes Federal, State and private) however, only 2,700 will account for the total public burden, excluding Federal employees. FNS estimates that it will receive an average of 300 requests per month (15 per day). Of the 300, 70 percent (or 210) of the responses are State Agency users, 5 percent (or 15) are staff contractors and 25 percent (or 75) are Federal employees which is not included in the total number of responses. Annually, that results in 2,700 respondents (210 State Agency users per month + 15 staff contractors per month × 12 months).

Estimated Number of Responses per Respondent: 1.9.

Estimated Total Annual Responses: 5,220.

Estimated Time per Response: 0.167 of an hour. Each respondent takes approximately 0.167 of an hour, or 10 minutes, to complete the required information on the online form.

Estimated Total Annual Burden on Respondents: 870 hours. See the table below for estimated total annual burden for each type of respondent.
