

HOW TO GET TESTED FOR MONKEYPOX

Contact a doctor right away if you have a new unexplained rash or lesions on any part of your body.

This is especially important if you were exposed to someone with or suspected to have monkeypox. The doctor will assess you and may take swabs of the rash for testing.

1 Contact your healthcare provider

If you don't have a provider or health insurance:

2 Call the Public Health Call Center at 1-833-540-0473 (7 days a week 8:00am - 8:30pm)

or

3 Visit a Public Health Sexual Health Clinic

Scan QR code to find a [sexual health clinic](#) or visit ph.lacounty.gov/monkeypox

If it is suspected that you have monkeypox, until a doctor has ruled monkeypox out, take steps to protect others. This includes covering your rash and avoiding close contact with others.

See ph.lacounty.gov/monkeypoxisolation for more information.
