IMMEDIATE FINAL ORDER

The State of Florida, Office of Financial Regulation ("Office"), being authorized and directed to administer and enforce chapters 517 and 655, Florida Statutes, governing securities and financial institutions regulation in the state of Florida, pursuant to sections 20.121(3)(a)2., 120.569(2)(n), 517.03, 655.001, and 655.012(1), Florida Statutes, hereby finds that the unlawful activities of GSB Gold Standard Bank LTD d/b/a GS Partners ("GSB Bank LTD" or "GS Partners"), GSB Gold Standard Corporation AG ("GSB AG"), GSB Standard Corporation USA ("GSB USA") (the GSB Respondents collectively known as the "GSB Group"), Swiss Valorem Bank LTD. ("Swiss Valorem Bank"), Wealthbuilders Worldwide ("Wealthbuilders"), Josip Heit ("Heit"), Brian Cromley ("Cromley"), and Ruel Milson ("Milson") (collectively "Respondents") constitute an immediate danger to the public health, safety, or welfare. Therefore, the Office hereby issues and serves this Immediate Final Order pursuant to sections 120.569(2)(n), 517.221(2), and 655.922(5), Florida Statutes. The Respondents and all persons acting in concert or cooperation with Respondents shall immediately CEASE AND DESIST all continuing violations of chapters 517 and 655, Florida Statutes. This Order is based on the findings of fact and conclusions of law

set forth below which are made on behalf of the Office by Russell C. Weigel, III, Commissioner of the Office of Financial Regulation, as agency head within the meaning of sections 20.121(3)(a)2, and 120.569(2)(n), Florida Statutes.

FINDINGS OF FACT

- 1. The Office is the State of Florida's agency responsible for the administration and enforcement of chapters 517 and 655, Florida Statutes.
- 2. The Office received information prompting an investigation into whether Respondents were complying with chapter 517, Florida Statutes, in the offer or sale to Florida residents of unregistered securities called "MetaCertificates" and whether Respondents were obtaining money by making misstatements of fact or omissions of fact in connection with the offer or sale of these unregistered securities. Additionally, the Office investigated whether Respondents Swiss Valorem Bank and GSB Gold Standard Bank LTD were complying with chapter 655, Florida Statutes, regarding the unauthorized use of the term "bank," the offer of traditional banking services, and otherwise holding themselves out as a financial institution to Florida residents.
- 3. The findings of fact independently made herein are based, in part, upon the verified declaration of Financial Investigator Economic Crimes, John Lamolli, of the Bureau of Financial Investigations, Office of Financial Regulation. John Lamolli's declaration is attached hereto as Attachment "A."
- 4. The findings of fact independently made herein are based, in part, upon the affidavit of Financial Examiner / Analyst Supervisor, Kris Ignatowicz, also of the Bureau of Financial Investigations, Office of Financial Regulation. Kris Ignatowicz possesses extensive education, training, and experience in the fields of cybercrime and forensic computer analysis as

detailed in her affidavit, which includes exhibits 1-51. Kris Ignatowicz's affidavit, along with its exhibits, are attached hereto as Attachment "B."

Summary of Respondents

- 5. Respondent GSB Bank LTD is an unknown business entity which operates under the tradename of "GS Partners." GSB Bank LTD claims to be registered and licensed as a Bank in the Union of the Comoros Autonomous Island of Moheli.² GSB Bank LTD is currently issuing MetaCertificates to members of the public, which promise rates of return up to 17,500 percent over eighteen (18) months.
- 6. Respondent GSB AG is a German corporation that is part of a group of companies known as the GSB Group. GSB AG also operates under the trade name of GS Partners.
- 7. Respondent GSB USA is a Florida corporation located in Miami, FL, which is the local subsidiary of the GSB Group.
- 8. Respondent Swiss Valorem Bank is an unknown business entity which claims to be involved in digital banking, corporate finance, and investment solutions. Swiss Valorem Bank maintains a website which permits users to create accounts and purchase investments issued by GS Partners.
- 9. Respondent Heit serves as the founder and Chairman of the Board of GS Partners. Heit controls Respondents GSB Bank LTD, GSB AG, and GSB USA, and Swiss Valorem Bank.
- 10. Respondent Cromley is a Florida resident and a "crown ambassador" for GS Partners.
 - 11. Respondent Milson is a Florida resident who is associated with Wealthbuilders and

¹ Due to their voluminous nature, only excerpts from Exhibits 29 and 30 are included herein. Full copies of exhibits 29 and 30 are included in the record of this matter and are available upon request.

² The registration number provided does not appear to be from an official government website of the Union of the Comoros – Autonomous Island of Moheli.

is a promoter of GS Partners.

- 12. Respondent Wealthbuilders is an unknown business entity by which Milson and other individuals market and sell MetaCertificates in Florida and throughout the US. Wealthbuilders is affiliated with GS Partners.
- 13. Respondents are not presently, and have never been, registered with the Office as investment advisers, dealers, or associated persons pursuant to chapter 517, Florida Statutes. See Attachment B.
- 14. The MetaCertificates offered or sold by Respondents are not presently, and have never been, registered as securities with the Office pursuant to section 517.07, Florida Statutes. Additionally, the MetaCertificates are not otherwise exempt from registration as an exempt security pursuant to chapter 517, Florida Statutes, nor do the offer or sale of MetaCertificates qualify as exempt transactions pursuant to chapter 517, Florida Statutes, and MetaCertificates are not federal covered securities.
- 15. No Respondent has ever been a chartered or licensed as a financial institution according to the Federal Financial Institution Examination Counsel's National Information Center, which is a repository of financial data and institution characteristics collected by the Federal Reserve System on financial institutions worldwide.
- 16. Respondents GSB Bank LTD and Swiss Valorem Bank have never been chartered or licensed by the Office to do business in the state of Florida as a financial institution, as defined in section 655.005(1)(i), Florida Statutes.
- 17. Respondents have never been members of the Federal Deposit Insurance Corporation ("FDIC"), and any funds deposited with Respondents are not insured by the FDIC.

Jurisdictional Facts

18. Respondents conduct business operations, in part, by publishing and maintaining

websites, social media accounts and media viewable, available, and directed to members of the general public, including the citizens of the state of Florida.

- 19. Respondents conduct business operations, in part, by organizing, publishing, and holding in-person seminar sessions at multiple locations within the state of Florida.
- 20. On October 28, 2023, Investigator Lamolli attended a Wealthbuilders presentation organized by Respondent Milson in Belleview, FL. The purpose of the presentation was to introduce attendees to the GS Partners' MetaCertificates available through the GS Partners' websites and the GS Partners' mobile applications.
- 21. From 2021 through 2023, Respondent Cromley has organized several in-person presentations throughout Florida and at various locations throughout the United States. The purpose of these presentations was to advise attendees on how to promote GS Partners' MetaCertificates and on how to acquire more investors.
- 22. Respondent Heit is listed with the Florida Secretary of State, Division of Corporations ("Sunbiz"), as the Director and President of GSB USA. Sunbiz lists 2980 NE 207TH Street, Suite 300, Miami, FL 33180 as the street and mailing addresses for both Heit and GSB USA. Respondent Heit is the CEO, Chairman of the Board, and control person of the GSB Group of companies.

Respondents' Websites

- 23. Respondents GSB Bank LTD and Swiss Valorem Bank published, operated, and continue to operate internet websites with the Uniform Resource Locators³ (URLs) of https://swissvalorembank.com and https://gspartners.global, that:
 - a) offers banking services to individuals located within the state of Florida,

³ Both URLs route the user to the same website for Swiss Valorem Bank, which at times reference also GSB Bank LTD.

including "payment, transfer, and card services for the traditional and digital industry with convenient transaction banking integrated into all Swiss Valorem Bank services;"

- b) describes Swiss Valorem Bank as a cutting-edge banking platform to individuals located within the state of Florida, for people "looking to invest in stocks, manage your portfolio, simply open a chequeing account or do all three, Swiss Valorem Bank has the tools and resources you need to achieve your aims;"
- c) utilize a name or title that included the word "bank," to wit: Swiss Valorem Bank and GSB Gold Standard Bank which indicates or reasonably implies that the business being solicited, conducted, or advertised is that of a financial institution or which is likely to lead members of the public to believe that such business is that of a financial institution;
- d) offers members of the public, including individuals in Florida, to communicate with Respondents by email at support@swissvalorembank.com;
- e) solicits members of the public, including individuals in Florida, to establish online accounts with Respondents;
- f) offers various banking services which includes digital bank accounts described as "Traditional Banking for the Digital Economy."
- 24. Respondents GS Partners and Swiss Valorem Bank advertise, represent, and hold themselves out to the general public, including Florida citizens, as financial institutions on their websites and other forms of media.
- 25. Respondents' GS Partners and Swiss Valorem Bank websites reasonably imply that the business being solicited, conducted, or advertised is the kind or character of business transacted or conducted by a financial institution.

MetaCertificates

- 26. Respondents promote investments in various instruments known as MetaCertificates through websites, mobile applications, social media, video sharing platforms, inperson seminars, and a complex scheme of multi-level marketing agents.
 - 27. These promotional materials indicate MetaCertificates are issued by GS Partners.
- 28. To purchase MetaCertificates, investors are required to create accounts through the GS Partners website or mobile applications. Investors then trade their US dollars for crypto currency USDT (Tether) to purchase MetaCertificates. The USDT must be transferred to a wallet on the GS Partners platform where the investors can select the MetaCerticates to purchase.
- 29. Upon purchasing a MetaCertificate, investors must then "load" (i.e., pay additional money) their MetaCertificates with more funds to satisfy certain thresholds for higher returns.
- 30. When an investor funds an account and purchases a MetaCertificate, they then select a sector to invest in, such as Blockfolio, Real Estate, Supplements, Fintech, Renewables, or Online Gaming, each of which has different rates of return and bonuses, which are earned from the efforts of purported experts and professionals with ten to fifteen years of experience who will allegedly grow investors' capital.
- 31. GS Partners represent that its MetaCertificates pay investors fixed weekly returns ranging from 2.5% to 5% in addition to monthly returns of 1.5%. GS Partners represent that investors can withdraw the weekly and monthly returns at any time or can choose to compound the returns. The weekly and monthly returns are determined by the combination of MetaCertificates and Blockfolios that the investors choose. The MetaCertificates are publicly available to investors in Florida via the GS Partners website.
- 32. In October 2023, GS Partners announced the implementation of a "market protection system" or "MPS" which limits the value of withdrawals of customers' investments.

The MPS places investor funds in a 13-month lock-up vehicle and charges "Administration fees" and "Gas fees" for certificates exchanged before the certificate contract period is concluded. The MPS effectively makes those funds inaccessible to investors by design.

- 33. MetaCertificates promise investors astronomical and unrealistic rates of return (e.g., up to 17,500 percent for eighteen months) and have not been registered as securities pursuant to section 517.07, Florida Statutes.
- 34. Investors' tiered profits from the investment in MetaCertificates are determined by the entrepreneurial efforts of the Respondents. Investors are not required to engage in entrepreneurial efforts to obtain profit but may further increase their return by participating in a related multi-level marketing program.
- 35. Respondents failed to disclose and continue to fail to disclose facts material to the investments being offered. Specifically, the following information relating to GSB Group was not disclosed: the identity of all officers, directors, and control persons; the business repute, qualifications and experience of officers, directors, and other control persons; the physical location and branch offices; the assets, liabilities, revenue, and other financial information; the legal relationship, including the existence and material terms of any contracts or affiliations between related parties.
- 36. Additionally, Respondents failed to disclose and continue to fail to disclose all material facts associated with the use or intended use of investors' funds to generate promised investment returns.
- 37. The Office has reason to believe, and does believe, that Respondents are violating, have violated, or are about to violate one or more provisions of chapter 517, Florida Statutes.

Ongoing Immediate Danger

38. Money invested in MetaCertificates may result in substantial losses for Florida

residents.

- 39. Money held at Swiss Valorem Bank and GSB Bank LTD may result in substantial losses for Florida residents.
- 40. Given Respondents' multinational ties, Respondents may divert investor funds outside of the U.S. and thereby evade the jurisdictional reach of the U.S. courts and legal efforts to return investor funds to their rightful owners.
- 41. Entities and individuals that falsely hold themselves out to the public as authorized and qualified to operate as a financial institution pose an immediate danger to the public health, safety, or welfare, and particularly to those depositors or creditors who rely upon those false representations.
- 42. Respondents' websites, social media accounts, online video sharing accounts, mobile applications and other media are currently active and accessible by members of the general public, including Florida citizens, and thus constitute an immediate danger to public health, safety or welfare.
- 43. Respondents' actions, including internet website publications, social media and online video postings and mobile application offerings, are unlawful and the current circumstances constitute an ongoing and immediate danger to the public health, safety, or welfare.
- 44. Respondents' actions are likely to continue for the foreseeable future, and an immediate final order is necessary and fair under the circumstances to stop the ongoing violation.

CONCLUSIONS OF LAW

- 45. The Office is responsible for the administration and enforcement of chapters 517 and 655, Florida Statutes, pursuant to sections 517.03 and 655.012, Florida Statutes.
- 46. The undersigned, Russell C. Weigel, III, as Commissioner of the Office, and as its agency head within the meaning of sections 20.121(3)(a)2., and 120.569(2)(n), Florida Statutes, is

authorized to make the findings of fact and conclusions of law set forth herein.

47. The Office has jurisdiction over the Respondents because they have been found to have engaged in certain activities within the state of Florida which are regulated pursuant to chapters 517 and 655, Florida Statutes.

Offer or Sale of Unregistered Securities

- 48. Pursuant to Section 517.021(23), Florida Statutes, a "security" includes any of the following: notes, stocks, bonds, debentures, evidence of indebtedness, certificates of deposit, certificates of deposit for a security, certificates of interest or participation, certificates of interest in a profit-sharing agreement or the right to participate therein, certificates of interest in an oil, gas, petroleum, mineral, or mining title or lease or the right to participate therein, collateral trust certificates, reorganization certificates, preorganization subscriptions, transferable shares, investment contracts, beneficial interests in title to property, profits, or earnings, interests in or under a profit-sharing or participation agreement or scheme, instruments commonly known as a security, including an interim or temporary bond, debenture, note, or certificate, and receipts for a security, or for subscription to a security, or a right to subscribe to or purchase any security.
- 49. Respondents' MetaCertificates constitute, at a minimum, investment contracts, notes, or evidences of indebtedness and, as such, are securities pursuant to section 517.021(23), Florida Statutes.
- 50. Section 517.07, Florida Statutes, provides that it is unlawful for a person to sell or offer to sell a security in Florida unless the security is either exempt pursuant to section 517.051, Florida Statutes, sold in an exempt transaction pursuant to section 517.061, Florida Statutes, a federal covered security, or registered pursuant to chapter 517, Florida Statutes.
- 51. Section 517.07, Florida Statutes, is designed to protect the public health, safety, or welfare by prohibiting the offer or sale of unregistered, non-exempt securities in this state. None

of these protections of the public health, safety, or welfare are provided when an individual or an entity sells, or offers to sell, unregistered and non-exempt securities in this state.

52. By offering or selling non-exempt, unregistered securities to the public, including Florida residents, Respondents are in violation of section 517.07(1), Florida Statutes.

Material Omissions & Misleading Investors

- 53. Section 517.301(1)(a)2., Florida Statutes, provides that it is unlawful for a person to obtain money or property by means of any untrue statement of a material fact or any omission of a material fact necessary in order to make the statements made, in the light of the circumstances under which they were made, not misleading. This section applies to those rendering any investment advice and selling, or offering to sell, any investment or security.
- 54. Section 517.301(1)(a)3., Florida Statutes, provides that it is unlawful for a person to engage in any transaction, practice, or course of business which operates or would operate as a fraud or deceit upon a person. This section applies to those rendering any investment advice and selling, or offering to sell, any investment or security.
- 55. Section 517.301, Florida Statutes, is designed to protect the public health, safety, or welfare by prohibiting the falsification or concealment of facts during the offer and sale of any investment or security. In addition to being a regulatory violation, a violation of this statute constitutes a criminal offense.
- 56. By offering impossible rates of return and by failing to disclose material facts as set forth above regarding entity disclosures and use of funds, Respondents are in violation of section 517.301(1)(a)2. and 3., Florida Statutes.

Unauthorized Banking Activities

57. Section 655.922(1), Florida Statutes, provides that only a financial institution authorized to do business in this state may engage in the business of soliciting or receiving funds

for deposit, issuing certificates of deposit, paying checks, or establishing or maintaining a place of business in this state for any of the functions, transactions, or purposes identified in the subsection.

- 58. Section 655.922(1), Florida Statutes, is designed to protect the public health, safety, or welfare by prohibiting unauthorized persons or entities from engaging in banking activities. In addition to being a regulatory violation, a violation of this statute constitutes a criminal offense. Chapter 655, Florida Statutes, is designed to protect the public welfare by requiring that each entity engaged in offering banking services to the public or holding itself out to the public as being a financial institution is authorized to do business as such. None of these protections of the public health, safety, or welfare are provided when an individual or an entity engages in the business of a financial institution in this state without in fact being authorized to do business as a financial institution pursuant to state or federal law.
- 59. By soliciting or receiving funds from the public through its internet website and mobile applications and offering to establish bank accounts and to perform other related banking services while not being authorized to do business in this state, Respondents are in violation of section 655.922(1), Florida Statutes.

Unauthorized Claims of Being a Bank & Financial Institution

- 60. Section 655.922(2)(a), Florida Statutes, provides that only a financial institution authorized to do business in this state may transact or solicit business under any name or title that contains the word "bank" or any words of similar import in any context or in any manner.
- 61. By soliciting business through use or publication of the name Swiss Valorem Bank while lacking the authorization to do so, Respondents are in violation of section 655.922(2)(a), Florida Statutes.
- 62. Additionally, section 655.922(2)(c), Florida Statutes, provides that only a financial institution authorized to do business in Florida may "circulate or use any . . . electronic media,

internet website, posting, or writing of any kind or otherwise advertise or represent in any manner which indicates or reasonably implies that the business being solicited, conducted, or advertised is the kind or character of business transacted or conducted by a financial institution or which is likely to lead any person to believe that such business is that of a financial institution."

63. By using electronic media or internet websites that indicate or reasonably imply that the business being solicited, conducted, or advertised is that of a financial institution, or which is likely to lead a person to believe that the business is a financial institution, Respondents are in violation of section 655.922(2)(c), Florida Statutes.

Summary Administrative Action

- 64. Section 517.221(2), Florida Statutes, provides that the Office may issue an emergency cease and desist order, without first issuing an administrative complaint, against any person who violates any provision of chapter 517, Florida Statutes.
- 65. Section 655.922(5), Florida Statutes, provides that the Office may issue an emergency cease and desist order, without first issuing an administrative complaint, against any person who violates any provision of section 655.922, Florida Statutes.
- 66. Section 120.569(2)(n), Florida Statutes, provides that an immediate final order may be issued when an agency head finds the existence of an immediate danger to the public health, safety, or welfare and when that danger requires an immediate final order.
- 67. The activities of Respondents, including possible statutory violations as outlined above, constitute an ongoing, continuing, and immediate danger to the public health, safety, or welfare.
- 68. It is necessary for the Office to immediately prevent the Respondents from continuing to violate Florida law and continuing to pose an immediate danger to the public health, safety, or welfare, to wit:

- a) It is necessary to have Respondents immediately cease from selling or offering to sell non-exempt, unregistered securities through their websites, social media and online video sharing accounts and mobile applications, in-person meetings and multi-level marketing schemes;
- b) It is necessary to have Respondents immediately cease from misleading investors by failing to disclose material facts in light of claims of astronomical returns on investment.
- c) It is necessary to have Respondents immediately cease from using the name "bank" and otherwise holding themselves out as a financial institution;
- d) It is necessary to have Respondents immediately cease from offering and soliciting deposit accounts, and other financial transactions from individuals, including Florida citizens, through the use of their websites, social media and online video sharing accounts and mobile applications.
- 69. After careful consideration of the facts of this case and due process procedural safeguards as reflected in the Florida Statutes, and as outlined in the attached Notice of Rights page, the need for summary administrative action in the form of this Immediate Final Order is concluded to be fair, just, and necessary under the totality of circumstances herein.
- 70. The Office of Financial Regulation is entering this Immediate Final Order to prevent Respondents from posing a continuing and immediate danger to the public health, safety, or welfare.

Accordingly, IT IS HEREBY ORDERED:

- A. Respondents and all persons acting in concert or cooperation with Respondents shall immediately **CEASE AND DESIST** from:
 - i. advertising, soliciting, offering for sale, selling, or performing, directly or

indirectly, any and all unregistered securities offerings or sales, including but not limited to the offer or sale of MetaCertificates;

ii. accepting money or property in connection with the offer or sale of unregistered securities, including but not limited to the offer or sale of MetaCertificates;

iii. rendering of any investment advice or in connection with the offer, sale, or purchase of any investment or security, directly or indirectly:

1. To employ any device, scheme, or artifice to defraud;

2. To obtain money or property by means of any untrue statement of a material fact or any omission to state a material fact necessary in order to make the statements made, in the light of the circumstances under which they were made, not misleading; or

3. To engage in any transaction, practice, or course of business which operates or would operate as a fraud or deceit upon a person;

iv. representing or holding themselves out as a financial institution and using the term "bank" or words of similar import; and

advertising, soliciting or performing, directly or indirectly, any and all banking V. activity, including but not limited to the solicitation or receipt of funds for deposit, opening business or personal bank accounts, and issuing MetaCertificates, certificates of deposit, or other evidences of indebtedness.

DONE and ORDERED this 17th day of November, 2023, in Tallahassee, Leon County, Florida.

Russell C. Weigel, III

Commissioner

NOTICE OF RIGHTS

NOTICE IS HEREBY given that the foregoing Immediate Final Order is entered pursuant to section 120.569(2)(n), Florida Statutes, which provides that the Order is appealable or enjoinable from the date rendered.

Section 120.68, Florida Statutes, further provides that any party to these proceedings who is adversely affected by this final agency action is entitled to judicial review. Section 120.68, Florida Statutes, and Rule 9.110, Florida Rules of Appellate Procedure, provide that judicial review must be instituted by filing a petition or notice of appeal with the Agency Clerk, Office of Financial Regulation, Office of General Counsel, Suite 504, Fletcher Building, 200 E. Gaines Street, Tallahassee, Florida 32399-0379, and a copy accompanied by filing fees prescribed by section 35.22, Florida Statutes, with the District Court of Appeal, First District, 2000 Drayton Drive, Tallahassee, Florida, 32399-0950, or with the District Court of Appeal in the appellate district where the party resides. All review proceedings must be instituted within thirty (30) days after the rendition of this Order. Respondent may also apply to the District Court of Appeal or to the Office for a stay of this Order or request supersedeas, pursuant to section 120.68(3), Florida Statutes. Notice is provided, however, that the Office will oppose a stay and supersedeas.

Respondent is also advised that Respondent may request an expedited administrative hearing to be conducted in accordance with the provisions of sections 120.569 and 120.57, Florida Statutes. Requests for such a hearing must specifically state that the Respondent is seeking an expedited hearing and must comply with the provisions of Rules 28-107.005, 28-106.104(2), and either Rule 28-106.201 or Rule 28-106.301, Florida Administrative Code.

A request for hearing must be filed as follows:

By Mail or Email

OR

By Hand Delivery

Office of Financial Regulation P.O. Box 8050

Tallahassaa El 2021/

Tallahassee, FL 32314-8050

Phone: (850) 410-9889 Agency.Clerk@flofr.gov The Fletcher Building 101 East Gaines Street

General Counsel's Office

Office of Financial Regulation

Tallahassee, FL 32399

Phone: (850) 410-9889

TO PRESERVE THE RIGHT TO A HEARING, A WRITTEN RESPONSE MUST BE FILED WITH THE OFFICE OF FINANCIAL REGULATION WITHIN TWENTY-ONE (21) DAYS AFTER THE RECEIPT OF THE IMMEDIATE FINAL ORDER. SAID RESPONSE MUST BE RECEIVED BY THE OFFICE NO LATER THAN 5:00 P.M. ON THE TWENTY-FIRST DAY AFTER THE RECEIPT OF THE IMMEDIATE FINAL ORDER. A FAILURE TO TIMELY RESPOND IN WRITING WILL CONSTITUTE A WAIVER OF RESPONDENT'S RIGHT TO REQUEST A HEARING.

You may not make an oral request for an administrative hearing. With regard to a written request, if you fail to follow the outlined procedure, your request may be dismissed. Any request for an administrative proceeding received prior to the date of this notice is deemed abandoned and to be considered, must be timely renewed in compliance with the procedure set forth above.

Mediation of this matter pursuant to section 120.573, Florida Statutes, is not available.

NOTICE TO RESPONDENTS

In accordance with the Americans with Disabilities Act, persons with disabilities needing special accommodation to participate in this proceeding should contact the Agency Clerk no later than seven (7) days prior to the filing deadline or proceeding, at the Office of Financial Regulation, by Phone: (850) 410-9889, or by Email: Agency.Clerk@flofr.gov.

AFFIDAVIT

Before me personally appeared		John D. Lamolli
COUNTY OF ORANGE) s.s.)	
STATE OF FLORIDA)	

who, being first duly sworn, deposes and says:

- 1. I am John Lamolli (Lamolli), Financial Investigator Economic Crimes of the Bureau of Financial Investigations (BFI) for the Florida Office of Financial Regulation (OFR).
- 2. I have been employed as an Investigator with the BFI for the past nine years and ten months.
- 3. On October 26, 2023, OFR Bureau Chief Alex Toledo ("Toledo") made a request for a BFI Investigator who was available to volunteer (in an undercover capacity) to attend an investor pitch for a Wealth Builders (GS Partners) event on October 28, 2023, at 1300 hrs. at the Belleview Public Library.

Address: 13145 SE County Hwy 484, Belleview, FL 34420

- 4. According to the information provided, the case was being developed by the BFI's Emergent Financial Crimes Unit in reference to a possible Ponzi Scheme. I volunteered and decided I would attend the event with my wife.
- 5. On October 28, 2023, at 1230 hrs. we arrived at the Belleview Library. Upon entry into the library, we were immediately confronted with a dry-erase whiteboard that stated the following:

"Wealth Builders Global Event"
Today @ 1pm EST come join us.
"Get paid while you sleep every day can be a pay day."
This event is for educational purpose only.
Please join us!

- 6. Immediately to the right of the dry-erase board was the room for the event. A sign was posted at the entry door of the room stating "Notification of Filming & Photography". This sign notifies attendees that upon entry into the event they consent to audio and video recordings. Due to this posting, I decided to audio-record the presentation. At the time of this observation, the room was empty.
- 7. Soon after arriving, my wife and I were met by Ruel Milson ("Milson"). He appeared to be the presenter for the event. During Milson's introduction, he informed my wife and I that the presentation would last 15 minutes.
- 8. Upon entry, we were required to sign in: (Name, Phone number, and email address.) At 1300 hours, there were only 3-people present. This figure included my wife and myself. We were notified by Milson that the presentation would be delayed 15 minutes. No reason was provided for the delay.
- At approximately 1320 hours, a person entered the event purporting to be another attendee. This individual called himself "Jeff".
- 10. Prior to the start of the presentation, Milson spoke briefly about himself and his background. Milson had a very strong Haitian/Creole accent. During this time, he informed attendees that company leaders were live via video conference to assist with the Q&A after the presentation.
- 11. At the start of the video presentation, Milson was not the presenter. Rather, the video was narrated by an unidentified individual who was not present in person. The video quality of the presentation was poor.
- 12. The unidentified presenter discussed the following:
 - a. The company's disclaimers, which were difficult to understand.

AFFIDAVIT OF JOHN D. LAMOLLI

- b. No obligation to refer people in order to generate profits.
- c. Spoke highly about the future of digital currency and their marketing strategies to help you grow your capital.
- d. "Meta-Certificates", "Block folios" and monthly payback programs.
- e. Numerous rewards (weekly/monthly) and bonus programs.
- f. The use of USDT with examples of Certificate purchases.
- g. Referral rewards- (presumably Multi-Level Marketing), to build your business.
- h. Access to company associates and training seven days a week.
- 13. At the end of the presentation, Milson expressed positive remarks about the presentation and requested to know if anyone had questions. At which time, this investigator decided to ask several questions concerning the following.
 - a. Volatile nature of bitcoin when it comes to profits.
 - b. Pyramid Scheme?
 - c. Is this an investment opportunity or business opportunity?
- 14. The associate's responses to these questions seemed somewhat argumentative and unclear.
- 15. Following my questions, attendee "Jeff" decided to interject. He boasted about the presentation and his review of the company. Jeff claimed to be familiar with AMWAY, referencing my question regarding a pyramid scheme. According to Jeff, this company was different.
- 16. In response to my question about this being an investment opportunity, Jeff claimed that during his review, he noticed that the company and presentation do not mention the products as an investment. According to Jeff, this is done to prevent any issues with the SEC. In response, the associate agreed. Jeff went on to ask specific questions concerning bonuses and the payment process. The associate's response to his questions was again convoluted and unclear.
- 17. At the end of the presentation, Milson provided some additional information concerning training.
- 18. While exiting, I noticed that attendee Jeff met with Milson alone. It appeared from their interaction, together with his responses during the Q&A, that he was not an attendee but rather someone who was affiliated with the company.
- 19. In conclusion, I found the presentation to be very unprofessional, convoluted, and difficult to follow. It was difficult to determine what exactly was being offered. We were instructed by the presenter to visit their website to learn more about the opportunity at https://gspartners.global.
- 20. As far as Milson is concerned, he appeared to be someone who recently started with the company. It is my belief that this presentation was in an effort to assist him with obtaining members to build his referrals.

AFFIDAVIT OF JOHN D. LAMOLLI

AFFIDAVIT

Before me personally appeared		Kris Ignatowicz ,
COUNTY OF ORANGE) s.s.)	
STATE OF FLORIDA)	

who, being first duly sworn, deposes and says:

- 1. I am Kris Ignatowicz, Financial Examiner / Analyst Supervisor of the Bureau of Financial Investigations (BFI) for the Florida Office of Financial Regulation (OFR).
- 2. I have been employed in various roles with the BFI for the past seven years and five months.
- 3. On Thursday, October 12, 2023 at 4:34pm EST, I was alerted via email by OFR Forensic Accountant/Financial Investigator-Criminal Enforcement (FICE) Jenni Middlebrook-Case of a multi-state investigation involving Gold Standard Partners ("GSP"), an entity offering digital banking and a cryptocurrency trading platform. FICE Middlebrook-Case was alerted to the investigation through an announcement from members of the North American Securities Administrators Association (NASAA) Southeast Enforcement Zone. It was explained that the Alabama Securities Commission ("ASC") was leading an investigation into a suspected investment fraud scheme and requested other states to join the working group.
- 4. On October 13, 2023, after a conference call with the working group, I reviewed the entities and websites in question, Swiss Valorem Bank at www.gspartners.global, Gold Standard Corporation, d/b/a GSB Gold Standard Group at www.gsb.gold, Gold Standard Trade at www.gstrade.exchange, and GSB Gold Standard Pay at www.gs999main.net.
- 5. The website for the purported bank, Swiss Valorem Bank ("SVB"), does not provide a location address. The SVB website explains they are a bank that bridges the gap between the digital and traditional asset worlds. On the Terms and Conditions page, it shows GSPartners/GSP/Gold Standard Partners is a Trade name of GSB Gold Standard Bank LTD ("GS Bank"), with registration HY00520034 and license number B2020029, Union of the Comoros Autonomous Island of Moheli (Exhibit 1). However, this website does not appear to be an official government website of the Union of the Comoros Autonomous Island of Moheli. The website shows its partnerships with the Gold Standard Corporation and GSB Gold Standard Pay Ltd (Exhibit 2).
- 6. The website for Gold Standard Corporation ("GSC"), provides an address of Konigsallee 61, 40215, Dusseldorf, Germany with a phone number of +49 40 376 69 19 0 and an email of Office@gsb.gold. The company advertises itself as a software developer that provides platforms and signal/data streaming services to the financial industry. The website explains the software specializes in the trading of gold and other precious metals and caters to asset managers, fintech startups, brokerage companies, banks, and trust management companies. The website also introduces the Chairman of the Board as Josip Heit ("Heit") (Exhibit 3).
- 7. The website for Gold Standard Trade ("GSTrade"), does not provide a location address. However, the GSTrade website explains they are associated with GSB Gold Standard Pay Ltd and is a platform that provides a self-directed interface to deposit, trade, and withdraw in multiple cryptocurrencies and Altcoins (Exhibit 4). The Frequently Asked Questions explains the GSTrade platform consists of an e-wallet, a cryptocurrency, and a native token. Other features of the platform include market cap rankings, token listing and merchant tools, a merchant list, and a cryptocurrency marketplace. The website further highlights the G999 coin as its own cryptocurrency (Exhibit 5).
- 8. The website for GSB Gold Standard Pay Ltd ("GSB"), does not provide a location address but states it is registered with the Ministry of Economy under BIN Number 200740027325 in the Republic of Kazakhstan. The website also shows a Business Registration Number of 969793-3522, neither of which could be verified (Exhibit 6). The company advertises itself as a peer-to-peer electronic cash system that allows users to send cryptocurrency from one wallet to another. This company states its features can be used with anonymity through untraceable, encrypted transactions and can provide secure internet messaging through wallet-to-wallet email services. The company also provides private key custodial services, secure hold or wallet staking, and peer-to-peer trading (Exhibit 7).

- 9. On Monday, November 6, 2023, I registered to become a member of the GSP platform through the "Back Office" of the SVB website. After registration, I was taken to a dashboard that functions as an investment portal where I could invest in GSP by purchasing different company-issued MetaCertificates priced in Tether tokens (USDT) (Exhibit 8, Fig1-Fig2) of various denominations. According to the website, once a purchase of a MetaCertificate takes place, the purchaser must then fund the certificate with an additional "load" amount, also denominated in Tether, -before the certificate can generate returns. The load amounts vary but can be several multiples of the initial price of the certificates themselves. The MetaCertificates are issued in various company branded "series" and can generally be loaded by selecting from six (6) different "blockfolios," each suggestive of industries into which GSP presumably invests their investors' funds: Fintech, Real Estate, Renewables, Supplements, Gaming, and Trade, After the certificate is purchased and the first load is transacted, investors begin earning "rewards" such as a USDT bonus which is slated to be paid at the end of the investment term which typically consists of 18 to 30 months. Depending on the MetaCertificate and "blockfolio" purchased, the "bonus" payout can be several multiples of the USDT amount invested. The certificates also offer a separate weekly payout of approximately 3.5%-7% of the purchase price. The weekly payouts are said to be paid over 52 weeks. Additionally, certain MetaCertificates offer a 1.5% monthly return on the load amount for 18 months (Exhibit 9, Fig1-Fig7). These figures increase as additional loads are added to the original MetaCertificate (Exhibit 10). In all, an investor who purchases a "Success Series" MetaCertificate, for instance, and assumes all of the opportunities to achieve maximum returns offered by the program, can expect to see a 176,000% return on their investment over the term of the contract which can be as short as 18 months. The company offers nine different MetaCertificates varying in price between \$100 and \$100,000. Based on my experience while serving in the BFI, these returns are outrageous and indicative of a high-level fraud scheme.
- 10. On November 6, 2023, I was informed by Bureau Chief Alex Toledo, of a video that was posted on the YouTube Channel "Lonwabo Fololo" on June 22, 2023. The video is titled "GS Partners Presentation - Meta Certificates". The video introduction features the caption "GS Partners Presentation - Meta Certificates". The caption continues by welcoming potential investors to the gspartners global registration webpage and explaining viewers can contact Lonwabo Fololo through his email bukhosienterprise@gmail.com to be welcomed to the team (Exhibit 11). At the 3:55 mark, the narrator explains GS Partners recently launched its own bank, SVB, with an A-Class private International Banking License from Switzerland. At the 4:29 and 6:47 marks of the video, it is explained that a potential investor can earn passive income in the space of AI technology, fintech/forex markets, real estate, crypto market, renewable energy, nutraceuticals, and online gaming (Exhibit 12, Fig1-Fig2). Many GSPartners experts and influencers are named, one of which is GSP Trainer, Bruce Hughes ("Hughes") (Exhibit 13). At the 6:30 mark, MetaCertificates are described as a golden key that an investor purchases once to gain access into various sectors and, with participation, diversifies his crypto capital to gain weekly, monthly, or bonus rewards. The video welcomes the viewer to "Lydian World", a virtual world where the metaverse markets of NFTs, technology partners. developers, and celebrities come together to play games and sell NFTs. The video is a short overview described as being "powered by Swiss Valorem Bank". At the 18.20 mark of the video, it is explained that MetaCertificates are purchased in one or more of the available "blockfolios", which consist of six (6) different industries. It is mentioned GSPartners is bringing this product to the people to invest in those performing markets (Exhibit 14).
- 11. On November 6, 2023, I was informed by Bureau Chief Alex Toledo, of a video that was posted on the YouTube Channel GS Partners - TWE Team on September 6, 2023. The video, titled "GS Partners - Business Presentation, product, current promotions. - 20230906", is narrated by Hughes and outlines the payment structure of the MetaCertificates. Hughes explains the Back Office of the GSPartners. Global website. At the 10:00 mark of the video, Hughes explains that different industry leaders, experts, advisory members, and influencers who specialize in these different sectors and markets are part of the GSPartners community. A member can join the call and hear these special guests educate and update the GSP community. Hughes explains GSPartners is built around those sectors. Hughes further suggests the viewer type in "experts" within the platform and use the experts' experience and proven strategies to get results because that is the strength and platform of the product the viewer sees today (Exhibit 15). Hughes describes the blockfolio structure which includes Fintech, Renewables, Real Estate, Metaportfolio, Supplements, and Gaming. Hughes continues to describe how the MetaCertificates run in terms. or for a predetermined period of time. In the video, Hughes specifically outlines the Water MetaCertificate in the Fintech blockfolio. An investor can purchase the certificate for 1,000 USDT (equivalent to \$1,000 USD). After purchase, an investor can load 1,875 USDT to the certificate and can start earning 5% weekly returns on the price of the certificate itself, over the course of a 52-week term. The total returns would equate to 2,600 USDT (1000 USD x 5% x 52 weeks). Hughes explains an investor can withdraw or compound this payback program each week (Exhibit 16, Fig1). The second payback program has a 1.5% monthly payout on the first load (1,875 USDT) for a 24-month term. The total returns would equate to 675 USDT (1,875 x 1.5% x 24 months) (Exhibit 16, Fig2). The third payment program is the "Bonus Program" which entails the load and an extra bonus released by the end of the 24-month term. The total returns would equate to 8,437.50 USDT (6,562.5 +

- 1,875) (Exhibit 16, Fig3). Each of the six (6) blockfolios offers different return programs (Exhibit 16, Fig4). Hughes further explains promotional bonuses are rewarded during special offerings and when investors attend select events (Exhibit 16, Fig5). Hughes provides a step-by-step process starting with the certificate purchase explaining the certificate is "inactive" until loaded and an investor has 52 weeks to load the certificate to benefit from the returns. The certificate will expire after 52 weeks, whether in active or inactive status. At the 30:24 mark, Hughes briefly explains a "partner account". This account allows an investor to become a partner to unlock the marketing rewards program, which provides commissions for those who generate sales of the products.
- 12. On November 7, 2023, I viewed a video posted on the YouTube Channel GS Partners TWE Team on September 4, 2023. The video, titled "GS Partners Full Team Call 20230904", features team members such as Aline Lima ("Lima"), Hughes, Michael Dalcoe ("Dalcoe"), and Heit. Between the 1:11 and 1:32 mark, Heit appears on the call from the Luxury Homes Real Estate office in Dubai and explains GS Partners is about to turn three (3) years old. Heit introduces himself as the Chairman of the Board of GSB and states the company includes 7000 affiliated companies globally. Heit highlights GSP and GSB as being a network marketing company that is still standing when many others have fallen over the last three years. Heit outlines the future plans of the company, specifically starting in September of 2023. Heit suggests his viewers recommend the GS Partners products so the company will continue to grow. Heit further states that those individuals involved in GSP will not end up unemployed. Heit made claims that many individuals who promote the product are already multi-millionaires. In the video, Heit outlines the timeline of September 1, 2023, to October 15, 2023, stating that G999 holders and other consumers will see more loads available [for the certificates]. Heit states anyone who purchases a certificate between September 1, 2023, and October 15, 2023, will have an advantage for new meta trading, leading loads, treasury, and real estate brokerage. Heit concludes by promoting their next event to be held in Cape Town in nearly a month, based on the time of this recording (Exhibit 17).
- 13. On November 7, 2023, I was informed by Bureau Chief Alex Toledo, of a video that was posted on the YouTube Channel "The Gate Keeper" on November 3, 2023. The video is titled "GSPartners Tuesday Presentation and Q&A 10-31-23". The author provided a caption to show a Telegram contact as t.me/+37eIwfQlgNhjNzgx and the email of wbTheGateKeepera gmail.com (Exhibit 18). David Jennings ("Jennings") is the narrator of this video. At the 0:05 mark, a speaker explains GSPartners is a "safe haven, a safe place to put your funds and grow". Heit is also seen during the initial scene of the video (Exhibit 19, Fig1). At the 1:27 mark of the video, a member explains Jennings introduced her to the product (Exhibit 19, Fig2). At the 28:00 mark, Jennings explains the Prosper MetaCertificate for the Fintech blockfolio. He explains the certificate is available for purchase for 1,000 USDT with an initial load of 2,000 USDT and a secondary load of 4,000 USDT. The initial load provides a return of investment of 5% weekly on the price of the certificate for 52 weeks and a 1.5% monthly return on the load amount for 18 months. The secondary load of 4,000 USDT provides a return of investment of 7% weekly on the price of the certificate for 52 weeks with a 20,000 USDT bonus value. According to the slide, the Prosper MetaCertificate has a maximum potential payout of 176,120 USDT on a 1,000 USDT investment for 18 months, which would equate to a return of investment of over 17,500% (Exhibit 19, Fig3). Using only the price of the certificate as 1,000 USDT, plus the initial load amount of 2,000 USDT and the secondary load amount of 4,000 USDT, the implied percentage gain for the "Max Potential Payout" becomes 2,516%. At the 35:01 mark, Jennings explains he has been an investor for the last 10 months and has seen a reward return every month. He mentions a member can purchase three certificates to receive a fourth certificate for free. He also explained those who purchase a certificate have 12 months from the date of purchase to load the certificate, which gives plenty of time to cash out an indexed universal life account (IUL) or a 401k to provide the remainder of the loads. He explains although this is not a corporate slide in his presentation, he is using the exact information from GSPartners (Exhibit 19, Fig4). At the 36:22 mark, Jennings suggests what he explains on the slide: "Put your money to work in a digital blockchain system and allow the professionals to grow your crypto capital and return to you the rewards!" (Exhibit 19, Fig5). He further explains these professionals have 10-15 years of experience in crypto capital investments. Jennings then introduces Dap Dunbar ("Dunbar"), a 7-figure earner with 20 years of industry experience. At the 58:00 mark, Dunbar explains the GSPartners product is like a CD or an annuity "on steroids". Dunbar explains a member gets "predictable returns" through GSPartners' acquisitions of other companies and at the end of the certificate term, when these companies are maturing, certificate holders are getting paid. This is how GSPartners "assures" the reward. Jennings can then be heard at the 59:32 mark stating he is not SEC licensed to use the word "guarantee". However, after using a thesaurus, he decided to use the word "assure" to describe the returns (Exhibit 19, Fig6).
- 14. On November 7, 2023, I was informed by Bureau Chief Alex Toledo, of a video that was posted on the YouTube Channel "Lonwabo Fololo" on November 5, 2023. The video is titled "GSPartners New Success Series Certificates (Presentation)". The video is narrated by Hughes. It features Hughes touring the GSPartners office on a main road in downtown Dubai. Hughes explains more GSPartners offices will be opening over time. Hughes shows the Education and Training team which

features Heit as the Chairman of the Board and Hughes as the GSB Corporate Trainer (Exhibit 20, Fig1). At the 10:58 mark, Hughes explains there are nine (9) different Success Series MetaCertificates available starting as low as 100 USDT to 100,000 USDT. The slide shows a certificate price of 1000 USDT with a potential payment of 176,120 USDT. Hughes explains this payback payment is only possible if a certificate holder takes advantage of every single term program including weekly, monthly, and bonus programs (Exhibit 20, Fig2).

- 15. On October 31, 2023, I was informed by Financial Investigator Economic Crimes (FIEC) John Lamolli that he attended a "Wealth Builders Global Event" seminar on October 28, 2023, at 1:00pm EST in an undercover capacity. During my research of Wealth Builders ("WB"), I found a website https://wealthbuilderspartners.com, which provides free training webinars and a master class with host and GSPartners, Global Corporate Trainer, Hughes (Exhibit 21). The website features a testimonial video by users and promoters of the GSPartners virtual world, "Lydian World" in a conference with Heit. The website also features a training video with Hughes describing how a consumer can register an account and start investing in GS Partners today. The video is titled "GSP Presentation_Elemental Products-Promos_Bruce Hughes-05202023". Hughes explains there are seven (7) commissions, or rewards, a GSP promoter can participate in. These rewards are listed as Retail Commissions (direct commissions paid), 9 Level Pay Plan, Fast Start Bonus, Retail Commissions (ongoing bonus matching), Blockstar Pool Bonus, Mid-Month Accelerator Pool, and Infinity Pool Bonus (Exhibit 22, Fig1). For the purpose of the video, Hughes focuses on three (3) rewards. Hughes explains Direct Commissions is a program where a customer can upgrade their account to a "partner" for 33 USDT per month. With this membership, the partner can earn 15% on customer referrals and member purchases. Hughes explains these commissions are paid instantly in real-time digital currency (Exhibit 22. Fig2). The next reward Hughes covers is the Mid-Month Accelerator Pool which promotes a competitive structure to include a ranking system and mid-month bonus payout based on the amount of sales a team generates (Exhibit 22, Fig3). The last reward Hughes covers is the Infinity Pool Bonus. The Infinity reward is similar to the Mid-Month Accelerator Pool in that commissions are based on team sales. However, in the Infinity reward, the bonus is paid out at the end of the month (Exhibit 22, Fig4). This video, along with the website, directly explains the multi-level marketing space of GS Partners.
- 16. On November 7, 2023, using the Mwali International Services Authority, I found that GS Bank is listed as registered. However, using the Federal Financial Institution Examination Counsel's (NIC) website, the Swiss Financial Market Supervisory Authority (FINMA) website, and Zefix The Swiss Central Business Name Index, I verified SVB is not a licensed financial institution in the United States or Switzerland (Exhibit 23). Using the Federal Deposit Insurance Corporation's (FDIC) website, I further verified SVB is not FDIC insured (Exhibit 24).
- 17. On November 7, 2023, I reviewed the records of the Financial Industry Regulatory Authority (FINRA) (Exhibit 25), the Florida Department of Business and Professional Regulation (DBPR) (Exhibit 26), and the Florida Department of State, Division of Corporations (Sunbiz.org) (Exhibit 27). Gold Standard Corporation, GSB Gold Standard Group, and GSB Gold Standard Pay are not registered to conduct business or to sell securities in the State of Florida. However, GSB Standard Corporation USA ("GSB USA") was found to be incorporated on August 21, 2019. The company is currently in active status with a reinstatement date of March 10, 2023. The principal address is 1980 NE 207th Street, Suite 300, Miami, FL 33180 with the Director, President, and Treasurer listed as Josip Heit (Exhibit 28).
- 18. On November 7, 2023, I received the initial production from Subpoena BFI-EFC-2023-43 issued to Coinbase. I had requested all Know Your Customer ("KYC") data from 27,192 transactions between Party A, or Coinbase.com (wallet: 1Je3RohZT6mH1AofjcjMJXgbVgKrJNVohD) and Party B, or GSPartners.global (wallet: 13nCMaHDNRGM29UfMMkhUQjHkVYY1ZyrpU) as provided by the ASC (Exhibit 29). The production was provided by Coinbase in a master spreadsheet which shows 1,146 transactions to GSPartners.global occurred from Florida wallet owners (Exhibit 30).
- 19. On November 12, 2023, using Netcraft Site Report, I verified the domain, www.gspartners.global, has an IPv4 address of 104.21.72.34 and is currently hosted by Cloudflare, Inc. (Exhibit 31). After reviewing ViewDNS data, I verified the domain was purchased from the GoDaddy.com LLC registrar based in Arizona. The website was created under that registrar on April 9, 2020 (Exhibit 32). This tool, along with Netcraft Site Report confirms this domain is still active and can be accessible at any time by Florida consumers.
- 20. On November 12, 2023, using Netcraft Site Report, I verified the domain, www.gsb.gold, has an IPv4 address of 104.21.51.166 and is currently hosted by Cloudflare, Inc. (Exhibit 33). After reviewing ViewDNS data, I verified the domain was purchased from the NameCheap.com registrar based in Arizona. The website was created under that registrar on March

- 2, 2019 (Exhibit 34). This tool, along with Netcraft Site Report confirms this domain is still active and can be accessible at any time by Florida consumers.
- 21. On November 12, 2023, using Netcraft Site Report, I verified the domain, www.gstrade.exchange, has an IPv4 address of 172.67.141.99 and is currently hosted by Cloudflare, Inc. (Exhibit 35). After reviewing ViewDNS data, I verified the domain was purchased from the NameCheap.com registrar based in Arizona. The website was created under that registrar on October 14, 2020 (Exhibit 36). This tool, along with Netcraft Site Report confirms this domain is still active and can be accessible at any time by Florida consumers.
- 22. On November 12, 2023, using Netcraft Site Report, I verified the domain, www.g999main.net, has an IPv4 address of 104.21.40.122 and is currently hosted by Cloudflare, Inc. (Exhibit 37). After reviewing ViewDNS data, I verified the domain was purchased from the NameCheap.com registrar based in Arizona. The website was created under that registrar on September 21, 2020 (Exhibit 38). This tool, along with Netcraft Site Report confirms this domain is still active and can be accessible at any time by Florida consumers.
- 23. On November 12, 2023, using Netcraft Site Report, I verified the domain, www.wealthbuilders.com, has an IPv4 address of 103.224.182.246 and is currently hosted by Trellian Pty. Limited (Exhibit 39). After reviewing ViewDNS data, I verified the domain was purchased from the TLD Registrar Solutions Ltd. registrar based in the United Kingdom. The website was created under that registrar on October 14, 2001 (Exhibit 40). This tool, along with Netcraft Site Report confirms this domain is still active and can be accessible at any time by Florida consumers.
- 24. On November 14, 2023, using Netcraft Site Report, I verified the domain, https://swissvalorembank.com, has an IPv4 address of 104.21.83.202 and is currently hosted by Cloudflare, Inc. (Exhibit 41). After reviewing ViewDNS data, I verified the domain was purchased from the 101domain.com registrar based in Dublin, Ireland with offices in Vista, California. The website was created under that registrar on May 2, 2023 (Exhibit 42). This tool, along with Netcraft Site Report confirms this domain is still active and can be accessible at any time by Florida consumers.
- 25. On November 14, 2023, I was informed by Bureau Chief Alex Toledo, of a video that was posted on the YouTube Channel "Lydian World Master Channel —" on August 25, 2022. The video is titled "1 MILLION DOLLAR WINNER SPEECH Brian Cromley". This video features Cromley speaking of Heit's vision for GSP and explains Heit has created change for each and every one of its members. Cromley continues by announcing his team just exceeded 40,000 members globally that morning. At the 4:50 mark, Heit can be seen joining Cromley onstage congratulating him, and asking the audience for applause as one man [Cromley] has built his team to 40,000 members (Exhibit 43).
- 26. On November 14, 2023, I was informed by Bureau Chief Alex Toledo, of a video that was posted on the YouTube Channel "All World Crypto" on June 3, 2021. The video is titled "GS Partners 'Golden Rockstar' Brian Cromley". This video highlights Cromley speaking to his team regarding the numbers of various team milestones including one team that made over \$16M in sales. He continues to say his team made \$3.6M for this particular "legacy run". Cromley states companies paid out over \$22M in commissions during pre-launch in five and half months. At the 1:13 mark, Cromley introduces Steve Coates ("Coates") from New York and states he and Coates were racing to exceed the team in first place for the most sales. They did so by 68,000. At the 2:36 mark, Cromley states the Chairman of the Board will be starting the next launch with over \$10.5M in prizes. He concludes by stating he has achieved the level of global ambassador and stated this is the first global ambassador through the payroll (Exhibit 44).
- 27. On November 14, 2023, I reviewed a video that was posted on the YouTube Channel "Lydian World Master Channel" on October 25, 2022. The video is titled "SALT LAKE CITY OCT. 2022 BRIAN CROMLEY & JOHN JOHNSON". This video features John Johnson ("Johnson") speaking about his mentor, Cromley. At the 0:50 mark, during Johnson's introduction of Cromley, he states 4% of all revenue in this company, regardless of origin, goes into their pockets [referring to everyone at the presentation]. Johnson states when Cromley does better, Johnson's commissions are bigger. Johnson states if he does better, Cromley's commissions will be bigger. At the 1:45 mark, Cromley states he does not know anything about crypto, nor does he care about that or the technical stuff. Cromley explains he focuses on contacting, inviting, and teaching people how to come into this program (Exhibit 45, Fig.). Cromley provides an acronym that helps him succeed: DIGA. He states this industry is all about implication and if a partner is not duplicating his protocol, he will become stagnant. DIGA stands for the following: "D" for daily income generator activities. Cromley failed to elaborate on the remainder of the acronym. At the 5:35 mark, Cromley states he asks his prospect(s) three (3) questions. However, he only covers one question in the video: How much is your current financial institution, whether holding an IRA, mutual fund, CD, or 401, going to pay

you in seven (7) days (passive income)? (Exhibit 45, Fig2). Cromley will then ask how much a prospect's financial institution will pay them quarterly. At the 5:58 mark, Cromley specifically explains how he approaches prospects that are refusing to invest. He states he will ask if he could show them how they can get 4.15% weekly "guaranteed" passively (Exhibit, Fig3) and 18% or more quarterly (Exhibit 45, Fig4). At the 6:37 mark, Cromley explains he is not a financial advisor. However, he states he can take any amount the prospect chooses and increase that net worth (Exhibit 45, Fig5). At the 7:28 mark, Cromley explains he is in Tampa Bay (Exhibit 45, Fig6). At the 16:34 mark, Cromley coaches Johnson's team to leverage each expert in the group (Exhibit 45, Fig7).

- 28. On November 14, 2023, I was informed by Forensic Accountant and FICE Jenni Middlebrook-Case, of a video that was posted on the YouTube Channel "Wealth-Builders Global" on October 11, 2023. The video is titled "Tech Tuesday Training with Crypto Steve 10-10-2023". At the 8:13 mark, Coates explains Market Protection System (MPS) and how it can be found on the GSP dashboard (Exhibit 46, Fig1). He highlights the tab "Current Blockchain Gas", MPS, and MPS "View Reports" tabs (Exhibit 46, Fig2). At the 11:50 mark, Coates can be heard explaining the purpose of MPS is to achieve three (3) goals (Exhibit 46, Fig3). At the 14:46 mark, Coates begins to explain the first goal: MPS lockup, which places value in a 13-month lock-up vehicle, from the current month of exchange, increasing value of blockchain and securing value for later use for the user. This is said to occur to help the company ecosystem balance and function at its full capacity. The second goal is gas fees, which are fees that are released for the users to drive the transactions. The third goal is the Administration fees, These fees are charged for converting the value from internal tokens (i.e. geur, eveur) to external tokens (i.e. btc, usdt) (Exhibit 46. Fig4). Coates continues by describing the GSP internal tokens as being the Digital Euro, GEUR, Legacy Euro, and Convertible Euro (Exhibit 46, Fig5). Coates explains that "MPS only activates at the exchange of internal tokens to external tokens, on a weekly or monthly programs withdrawn and exchanged before the certificate contract period is concluded" (Exhibit 46, Fig6). At the 25:19 mark, Coates walks the viewer through the withdrawal process from his Terra Elemental Certificate (Exhibit 46, Fig7). At the 37:57 mark, Coates explains the MPS charges only an administration fee of 3.75% for GSP members (Exhibit 46, Fig8).
- 29. On November 15, 2023, using confidential sources and information provided by FICE Middlebrook-Case, I reviewed the backgrounds of the known GSP principals and promoters. GS Partners Chairman of the Board Heit is associated with GSB Standard Corporation USA with addresses of 20200 W. Dixie Hwy, Suite 1003, Miami, FL 33180 and 2980 NE 207th Street, Suite 300, Miami, FL 33180 and 2980 NE 207th Street, Suite 300, Miami, FL 33180 location that GSB Standard Corporation USA ever physically resided at the 2980 NE 207th Street, Suite 300, Miami, FL 33180 location. Promoter Milson was found to reside at 3630 SE 140th Lane, Summerfield, FL 34491. The home is currently in Ruel and Maria Milson's name (Exhibit 47). Promoter Cromley was found to reside at 7019 43rd Avenue East, Palmetto, FL 34221. Cromley's LinkedIn profile and resume, also show he resides in Palmetto, FL (Exhibit 48). According to Jennings' Facebook profile and confidential sources, he was found to reside at 8555 10th Street, Downey, CA 90241 (Exhibit 49). According to Promoter Coates personal website located at https://www.scoatesenterprises.com, it was found he resides in the Washington D.C. area (Exhibit 50). Corporate Trainer Hughes was not found to reside in Florida.
- 30. On November 15, 2023, using the Financial Industry Regulatory Authority (FINRA), I further reviewed the known GSP principals and promoters disclosed herein. It was found that Heit, Milson, Cromley, Jennings, Coates, and Hughes are not licensed to sell securities in the State of Florida.
- 31. On November 16, 2023, using the Apple App Store and the Google Play Store, I captured the URLs that feature the three (3) mobile applications offered by GSB Gold Standard Banking Corporation AG. Those applications are offered as: "GSTelecom by G999 Blockchain", "GSNotes by G999 Blockchain", and "Signature Wallet by G999 Block" (Exhibit 51). These applications can be accessed via both the Apple App Store and the Google Play Store with the following URLs:

"GSTelecom by G999 Blockchain"

FURTHER AFFIANT SAYETH NAUGHT

Notary Signature:

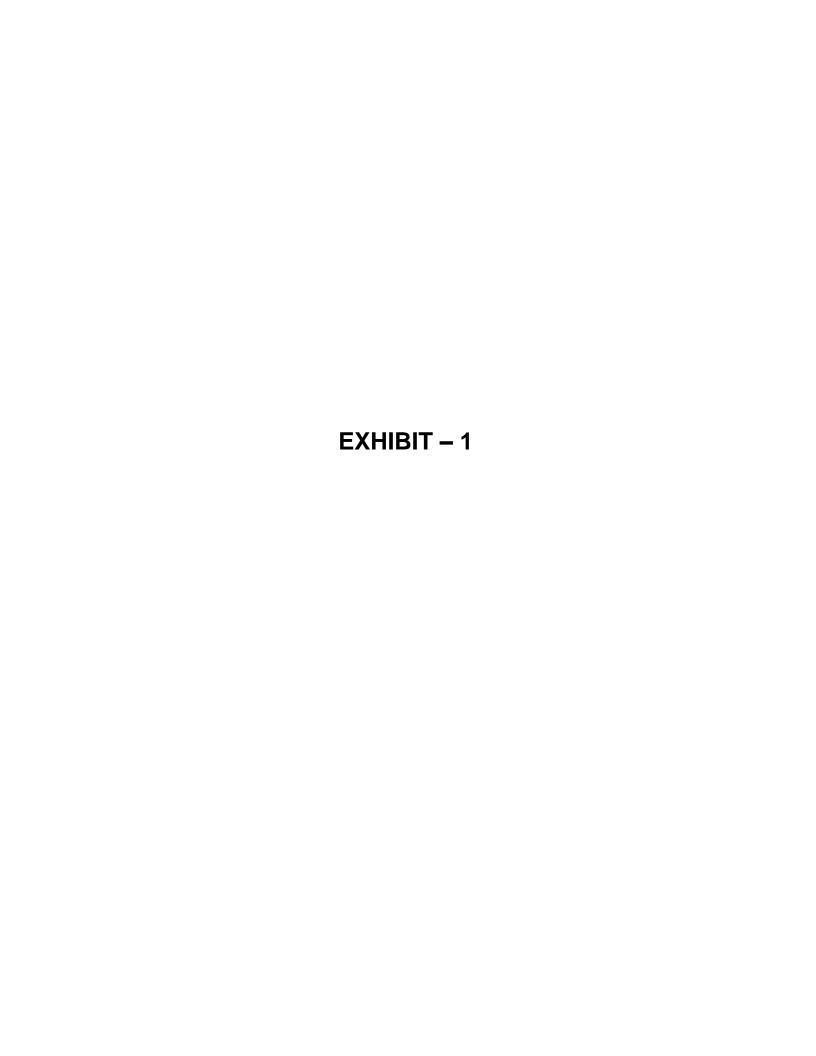

Notary Printed Name:

- 32. Upon review of the GS Partners' website, its "back office" content, and various company and promoter-generated videos in the public domain accessible to Florida residents and potential investors, it is apparent that the "MetaCertificates" and "Blockfolios" offered by GS Partners constitute an investment contract under the Howey Test (re SEC v. W.J. Howey Co., 1946) in that investors are making an investment of money (USDT) in a common enterprise (the GS Partners Wealth Builder's program and associated entities) with a reasonable expectation of profits (termed by GS Partners promoters as "assured" payouts) to be derived from the efforts of others (inferred from the suggestion to investors that their funds will be placed in and managed by professionals in various industries including FinTech, Nutritional Supplements, Real Estate, Commodities, and Gaming).
- 33. Based on my knowledge and experience as a Financial Crimes Investigator, I find that the wildly inflated returns being offered by GS Partners and its extreme emphasis on securing continued inflows of new investor monies as its principal business operation (rather than the sale of legitimate products or services), are each clear indications of an underlying investment fraud scheme. Given the magnitude and scale of this scheme, with GS Partners boasting that it has program participants in 170 countries worldwide, I recommend that an Immediate Order to Cease and Desist from further violations of chapter 517, Florida Statutes be issued against each of the persons and entities named in this affidavit.

Who We Are

The perfect combination of Technology, Blockchain and Banking - at Swiss Valorem Bank our mission is to redefine finance for today's economy by building a pioneering technological bridge between the digital and traditional asset worlds.

Open an Account

https://gspartners.global

Why you should choose Swiss Valorem Bank

Swiss Valorem Bank is able to close an important gap between the new digital economy and traditional banking.

We believe that the proliferation of Distributed Ledger Technology (DLT) is leading to the formation of new markets and innovative ways of creating value. Therefore, we combine technological advances with the proven elements of traditional banking.

Regulation is crucial for the protection of consumers - the idea of an integrated and regulated bank with focus on digital assets arose from the growing demand for investment alternatives and the increasing affinity for technology and process engineering.

11/8/23, 1:54 PM GSB Gold Standard

Gold Standard Corporation Platforms

GSB Gold Standard Corporation AG is the leading software, IT and Blockchain Powerhouse in Germany. GSB is delivering sophisticated, priceless software trading modules, platforms and signal / data streaming to the financial industry to enhance their services towards their very own clientele. Fully white labeled and customizable.

https://gsb.gold/about-us

11/8/23, 1:54 PM GSB Gold Standard

WHY GSB

Gold Standard Corporation AG (GSB) was founded in Germany in 2011 and was specialized in trading of minerals and precious metals worldwide. During the new era of Blockchain technology, GSB transformed itself in 2014 into a powerful software innovation center, enabling external and in precious metals and gold operating financial services providers to engage in this new technology and exploit the benefits to their fullest. Since GSB has expertise and know-how, not just in IT and Blockchain developments, but also in metals, their extraction and processing chains until it reaches the end customer, the GSB software solutions are more than just an account management or gold trading environment, they create transparency and can be used equally by clients (through GSB financial partners), refineries, gold bullion dealers and their shops and merchants engaging in gold and precious metal trading businesses.

OUR MISSION

From the starting process of exploration and exploitation to the ending process of manufacturing and retail – the GSB Software gives transparency unlike any other Software or Blockchain based solution. GSB's goal was to create an ecosystem that connects all possible market participants within one platform, regardless if it's a small investor or gold trader (needs to be a client of a financial institution with proper licenses from regulators and also a valid GSB Software License), a refinery or a gold bullion dealer or a Forex / CFD trading brokerage institution or a regulated Asset Manager. Both, the digital storage of gold and the physical delivery - everything can be controlled and managed using GSB software.

WHAT WE DO

GSB is the Powerhouse for the development of gold and precious metal trading software components. The implementation of Blockchain technology additionally enhances transparency, flexibility and speeds up transactions. GSB is a software and IT specialist for Asset Managers, Fintech startups, Brokerage companies, Banks, Trust Management companies. Retail clients can gain access to GSB's outstanding and unique platform solutions through connected financial services providers. Highest and most secure comfort for everyone to monitor, control and manage gold and precious metals related transactions in a unique environment. This is GSB. More than 40 software engineers, developers, freelancers, marketing experts and digital nomads are working for you and our partners almost 24/7 to make our software more safe and secure, comfortable and user-friendly.

WHY WE ARE DEDICATED TO GOLD

GSB wants to give everyone access to the world of gold and precious metals. We believe the success of any financial transaction stands and falls with the functionality and reliability of its IT software solution, the data delivered and the user comfort.

GSB.gold is a site operated by GSB Gold Standard Corporation AG, Hamburg, Germany, hereinafter called as GSB Hamburg. Through this website you cannot purchase any financial products or conduct investments. This website solely explains the nature of business of GSB Hamburg and portraits the entity as a leading IT and software provider for the Fintech and precious metal trading financial industry which have implemented GSB Hamburg's IT and Blockchain solutions to offer their very own customers a comprehensive and advanced experience in their daily trading transactions.

GSB Hamburg is not a financial services provider and/or bank, nor does the entity provide any account opening possibilities. Requests for account openings will be rejected and/or not responded to. GSB Hamburg classifies itself as a Software Powerhouse and not in any way as a financial services providing institution.

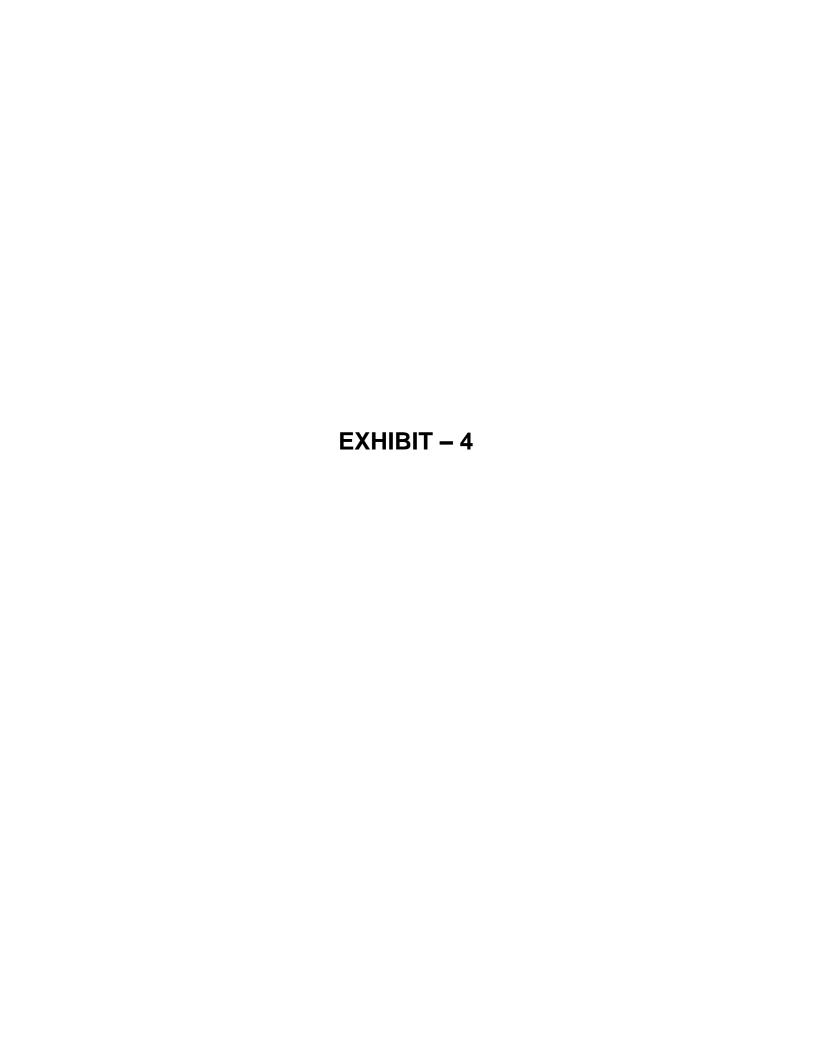

Therefore GSB Hamburg does not take any liability for trading losses, financial risks or in general any other investment risks that may occur by using the entity's software and blockchain solutions. The risk disclaimers of GSB partners who are duly licensed as financial services providers or banks do apply for every software user. Software users are in a contractual relationship with the respective financial institutions and at no time with GSB Hamburg. GSB Hamburg does not service individual or corporate clients with its software solutions. The software is solely accessible through Financial Services Providers or Banks who are in a contractual relationship with GSB Hamburg and have received approval in order to use the software and purchased the relevant licenses for a commercial use.

This website is not a public offer, nor does the webpage provides any incentive to purchase any financial product through a third party. This website has been created with the purpose to portrait the scope of IT and Blockchain Services by GSB Hamburg only.

What is GSTRADE?

GSTRADE represents a platform which encompasses all features of a digital economic system based on cryptocurrency. The GSTRADE platform consists of core elements such as an e-wallet, a cryptocurrency exchange, and a native token. Additionally, it provides related features and services such as market cap rankings, token listing and merchant tools (namely, a payment gateway or point of sale), a merchant list, and an early version of a cryptocurrency-friendly marketplace. All of the above aim to facilitate the mass adoption of cryptocurrency. GSTRADE is continuously adding new features and services.

What is G999 Coin?

It is our very own cryptocurrency.

How can I use GSTRADE?

On GSTRADE you can deposit, buy, sell, trade, exchange and withdraw cryptocurrencies, and participate in trading promotions and token

How can I register a new account on gstrade.exchange?

Registering a new account on gstrade.exchange is simple:

- Go to gstrade.exchange and click "Register" in the upper right part of the screen;
 Fill in the fields in the account registration form, including your email address, username, and password. You are required to create a username and password, so please make sure that the password is strong, and that you store your keys in a safe place (on your computer or a piece of paper);
- 3. Read, understand, and agree to the Terms & Conditions. Check the boxes that say "By clicking the checkbox you agree to the terms and conditions" and "I'm not a robot;" 4. Click "REGISTER ACCOUNT;"
- 5. Check your email. You will receive a confirmation email from GSTRADE in your mailbox. Open it and click on the confirmation link inside to finish your account registration; Note that you will be receiving a confirmation email for each login action on your account.
- 6. You're all set! Log in to your account with the username and password.

Your cryptocurrency wallets will be created automatically once the account is registered. To use the platform, you will be required to submit personal information and some documents for verification.

How can I enhance the security of my account?

Here are some ways to improve your security:

- 1. Always use two-factor authentication on your accounts (including e-mail).
- 2. Use a different password on air 3. Use an encrypted email service. Use a different password on all platforms.
- 4. Avoid using public Wi-Fi.
- 5. Store only the amount of coins that you are trading on the exchange and move long-term holdings to offline wallets.

Will I lose my cryptocurrency if I deposit less than the required minimum?

The minimum amount that you can deposit is 0.005 BTC or 0.1 ETH. If your deposit is lower than that, the amount will not be reflected in your wallet balance. To be able to see or use your funds, you will have to make a deposit that is equal or higher than the minimum amount. For example, if you attempt to deposit 0.003 BTC, you will need to make another deposit for at least 0.002 BTC before the total 0.005 BTC is reflected in your wallet balance.

How can I make a deposit?

https://gstrade.exchange/faq 1/3 To deposit to your wallet, please follow the steps below:

- 1. Log in to your account and click on "Wallet" in your account dashboard;
- 2. Choose the cryptocurrency you wish to deposit;
 3. Send the funds to a deposit address that will appear in the pop-up window by withdrawing them from an external wallet. Copy and paste this address into the receiver's field in the external wallet to deposit it to your Balance on gstrade exchange or scan the QR-code with your smartphone.

How can I make a withdrawal?

To make a withdrawal to your Wallet, please follow the steps below:

- 1. Log in to your account and click on 'Wallet' in your account dashboard;
- 2. Choose the cryptocurrency you wish to withdraw and click the withdraw icon;
- 3. Copy and paste the receiver's public withdrawal address;
- 4. Enter in your 2 Factor Authentication token from your Google Authenticator app;
- 5. Check your email linked to GSTRADE account to which we've sent a withdrawal confirmation link; 6.

You will receive another email from us confirming that your withdrawal is complete. You're done!

My 2FA is not working.

Please try the following:

- 1. Try clearing your cache or using a different web browser.
- 2. If you are entering the code and the time has finished on Google Authenticator, try to enter the old code again, even though the authenticator has given you a fresh new code. Sometimes helps to click the enter button again.
- 3. If you have lost or replaced the device which previously received your 2FA codes and are locked out of your account, our support team will need to manually reset it. Please allow 2-5 business days for support to process the request, as our staff receives a high volume of requests daily. In the future, please back up your 2FA key when you enable it.

How can I activate 2FA?

To activate 2FA please take the following steps:

- 1. Log in to your account on gstrade.exchange
- Click 'Security' on the left-side menu on your Dashboard.
- 3. Enter your password and click 'Submit'.
- Scroll down to the bottom of the Security page and click 'Activate 2FA'. NOTE: For extra security, you may consider a backup of your 2FA key by taking a screenshot of the QR code before scanning it and store the image in a secure location on your computer, or by writing down the seed/private key that is displayed with the QR code.
- 5. Install the Google Authenticator mobile app from GooglePlay or iTunes.
 6. Open the app and click '+', then choose 'Scan barcode'. Once you've scanned the barcode from your GSTRADE account, you'll be able to see the verification code in your Google Authenticator mobile app.
- 7. Make sure that the time on your smartphone and PC is synchronized. Check the date and time settings on your devices for that.
- 8. Enter the code from the mobile app in the Two-Factor Authentication field inside your account on gstrade exchange. Once you've succeeded, you'll see the following text under the Two-Factor Authentication field: "2-Factor Authentication is currently enabled on your
- 9. You can deactivate 2FA by following the steps below:
- 10. Select "Security" and go to "Two Factor Authentication." Press "Deactivate 2FA." Enter your previous 2FA code and click "Confirm." 4. You will
- see a barcode to scan. Below the barcode, click "First, show private key for back up" to receive the recovery code.

 11. Note: If you have lost or replaced the device which previously received your 2FA codes and is locked out of your account, our support team will need to manually reset it. Please allow 2-5 business days for support to process the request, as our staff receives a high volume of requests daily. In the future, please back up your 2FA key when you enable it.

How can I cancel an order?

To cancel an order, please follow these steps:

- 1. Select the trading pair with the open order from the exchange list; 2. Scroll down to "MY OPEN ORDERS;"
- 3. Select the order that you want to cancel;
- 4. Click on the "X" on the right.

Which verification documents should I provide?

For account verification purposes, we only accept passports, driving licenses, utility bills, internet bills, and bank statements.

How Does G999 Work?

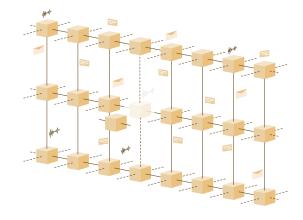

G999 blockchain is a technology that can allow individuals and companies to make instantaneous transactions on a network without any middlemen. Transactions made on the G999 blockchain are completely secure and fast.

Is G999 Blockchain Communication Secure?

By its decentralized nature and cryptographic algorithm, G999 is immune to attack. In fact, hacking a blockchain is close to impossible. In a world where cybersecurity has become a key issue for personal, corporate, and national security, Blockchain is one revolutionary technology, therefore we developed an encrypted communication system over G999 blockchain.

Each transaction is signed with a private key and then can be further verified with a public key. If transaction data changes, the signature becomes invalid. As a result, the block is ignored and won't make it to the chain, therefore no one can intercept our voice messages, text messages or e-mails.

Blockchain's greatest characteristic stems from the fact that its transactions are able to carry encrypted hex strings, making possible the encrypted communication services over the blockchain.

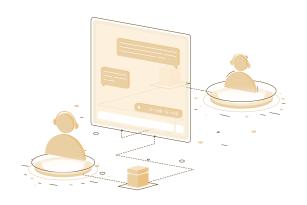

G999 Voice Chat & E-mail Over Blockchain

Putting voice, chat and email on a decentralized blockchain is a very big achievement, it means that no single party would have control over users' accounts and their messages. The blockchain voice, chat and email would let you keep your messages free from prying eyes.

The existing encrypted telecommunication services, but they are vulnerable to hacks due to its centralized nature. G999 uses asymmetric encryption, meaning only the receiver and sender can read the message with the private key, providing transcendent security and privacy.

G999 integrates with browsers and major mobile operating systems, to allow easy access to mass adoption in the private, secure and encrypted telecommunications.

Get Started With G999 Blockchain

You have 999 reasons to believe in the new era of blockchain, there is no better, safer way to transfer information and benefit from both a historical trail of 100% encrypted data, plus an instantly up-to-date record.

The Decentralised Ecosystem

The blockchain network is the underlying infrastructure that supports communication services operated in a decentralized ecosystem. G999 uses the PoS algorithm, which provides faster transactions and less energy consumption.

Communicate With Absolute Freedom

G999 creates privacy tools that enable untraceable, secure transactions, and anonymous communication. Using the decentralized nature of blockchain technology, we create new private and secure methods of interacting with the internet, as well as building privacy-centric applications, such as messaging services and wallet to wallet e-mail services.

Instant Transactions

G999 revolutionary fast payment solution for making secure, privacy-first transactions without compromising on speed.
Using the power of the G999 Service Node network, our blockchain lets you send and receive G999 in less than 60 seconds.

Master Nodes Infrastructure

Much of networking functionality and scalability is enabled by a set of incentivized nodes called Master Nodes. To operate a Master Node, an operator time-locks for 12 months a significant amount of G999 and provides a minimum level of bandwidth and storage to the network. In return for their services, operators receive a portion of the block reward from each block.

G999 Staking Wallet

The wallets are a gateway to private decentralized transactions and communications. They allow you to hold private keys, secure or stake G999, and trade peer-to-peer. To operate a Stacking Node, an operator must deposit a slight amount of G999 and provides a minimum level of bandwidth and storage to the network. In return for their services, operators receive a portion of the block reward from each block.

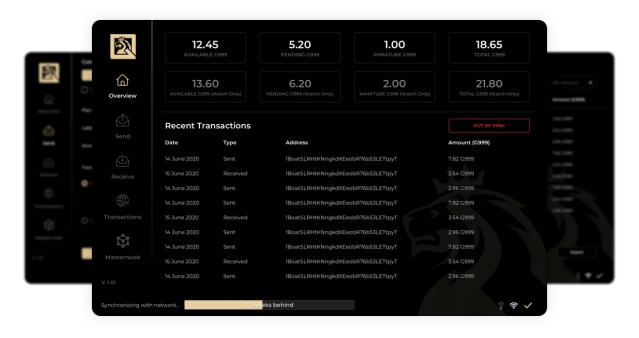

Reduced Environmental Impact

Proof of Work, by its nature, requires miners to compete against each other to solve computationally complex mathematical problems. Many people are concerned about the environmental impact of mining, as it uses a massive amount of electricity. Proof of Stake, as implemented in G999, does not require these energy-intensive calculations: instead, it relies on the cooperation of G999 Master Nodes — which uses comparatively small amounts of electricity.

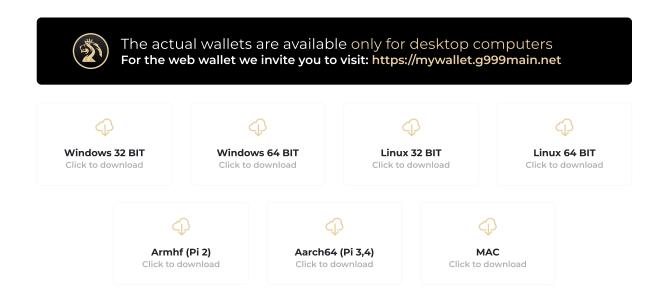

G999 Blockchain Wallets

The G999 wallets are a gateway into private decentralized transactions and communications. They allow you to hold private keys, secure or stake G999, and trade peer-to-peer.

Which wallet should I use?

G999 wallets are a gateway to private decentralized transactions and communications. They allow you to hold private keys and secure, stake, or trade. Each wallet is designed for specific groups of users, depending on their goal and level of expertise, we provide macOS, Windows, Linux, and web-based wallets.

How Masternodes Work

Much like proof of stake, masternodes rely on staking a certain amount of a given currency within the currency's network.

G999 Passive Income

Masternodes are powerful servers backed by collateral held in G999 and are designed to provide advanced services and governance on the blockchain. They host full copies of the blockchain and provide a unique second layer of services to the network, facilitating advanced functions such as InstantSend, PrivateSend, and usernames on the blockchain.

Masternodes must be backed-up by collateral denominated in G999, and in return, their operators receive regular payment for the services they provide to the network. The reward is calculated for every 12 months of collateral but is it paid directly after each block. The total reward for one masternode 7.5% of the deposited collateral per year.

G999 Blockchain Explorer

G999 Block Explorer is an online blockchain browser that displays the contents of individual blocks and transactions and the transaction histories and balances of addresses. From our explorer, you can follow up on all the live interactions with the blockchain, including the running number of masternodes, like, for example, to follow up on how many masternodes are

available from a total number of 4000.

Our block explorer is a search engine that allows you to search for a particular piece of information on the blockchain. The activities carried out on the G999 blockchain are known as transactions, which occur when cryptocurrencies and encrypted communication messages are sent to and from wallet addresses.

Deflationary Coin Model

We burn more coins than we issue every 60 seconds

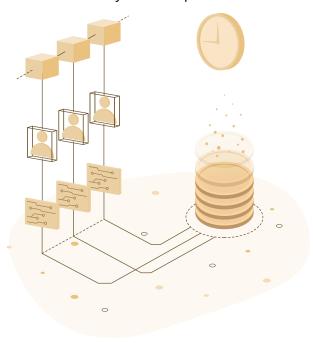

We follow a deflationary coin model, as the community may expect, the G999 coins are removed from the market over time through the usage of the network and the ecosystem services.

Coins will be removed from the market by increasing the coin usage both in coin transfers and various services such as the academy, e-mail over blockchain, encrypted chat over the blockchain as all the generated fees are directly burned. A G999 block is validated every 60 seconds with a less than 570 G999 coins as a reward for stakers and masternode owners.

Having an overview of our open-source blockchain transparent fees, we can find out that for every 999 bytes, the users, which are using the e-mail and chat services over blockchain, will be charged 15 coins. If we translate this into a clean deflationary coin model, we have less than 40 messages like chat, e-mail, voice needed in the network to cover the generated new coins.

While there may be a disagreement that decreasing the supply will decrease the actual availability of the coin, this is fortunately not the case with G999 taking into consideration the generated fees from all the coin transfers, crypto card transactions, academy, .etc, is obvious the deflationary coin model.

In conclusion, in the G999 network, we reward every block a smaller number of coins compared to the ones we aim to burn in all the ecosystem for our products and services.

Frequently Asked Questions

A Blockchain like G999 is a chain of blocks that contain information. The data which is stored inside a block depends on the type of blockchain. For Example, A Bitcoin Block contains information about the Sender, Receiver, number of coins to be transferred. The first block in the chain is called the Genesis block. Have more questions? Check our glossary below:

What is the primary purpose of copyright protection for software and code?

The copyright rights for these forks belong to their respective developer teams: Bitcoin Developers (2009-2015), Dash Developers (2014-2015), PIVX Developers (2015-2018), and G999 Developers (2018-2020). For further details on copyright information and complete access to the files associated with these forks, please click here.

When will the G999 cards be available?

The G999 Card release date will be soon announced.

How can we purchase G999 coins?

C999 Coin is not for sale but you can visit https://gstrade.exchange and exchange 69 USDT for 4999 G999 coins or you can take advantage of the promotional vouchers to redeem one of the Masternodes spots or take part to the revolutionary staking program. G999 coin will be listed starting with 15th December on multiple exchanges such as BitForex, CoinSuper, Bitexlive, GSTrade.exchange and many

others. We invite you to exchange to G999 and take advantage of our ecosystem products.

What is the G999 Coin?

G999 is our very own cryptocurrency, the engine of an entire ecosystem. G999 is a utility coin listed on multiple exchanges with the purpose to be traded in order to take advantage of: Blokchain Academy, E-mail over blockchain, G999 Voice&Chat App, Gold Merchant, G999 Ownership Certificates and many more. We invite you to download the G999 white paper from the following link: https://g999main.net /download-whitepaper and read more about the G999 coin.

What is GSTrade.exchange?

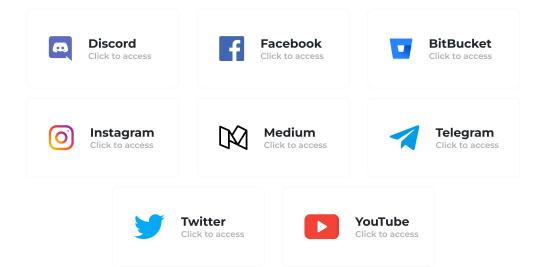

^

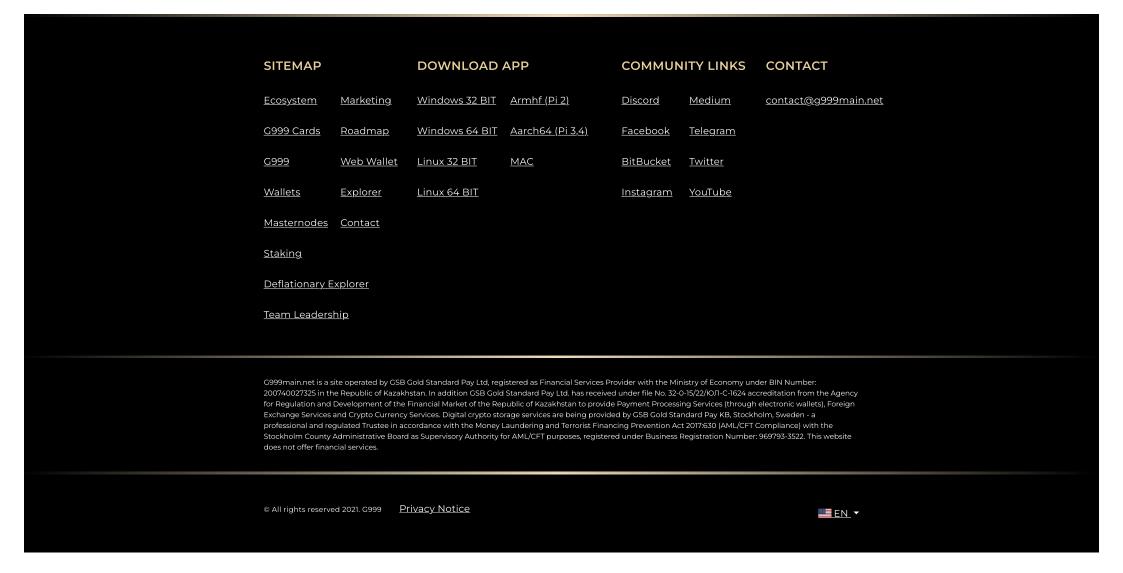

GSTrade represents a platform which encompasses all features of a digital economic system based on cryptocurrency. The GStrade platform consists of core elements such as an e-wallet and a cryptocurrency exchange. Additionally, it provides related features and services such as coin or token listing. All of the above aim to facilitate the mass adoption of cryptocurrency. GSTrade is continuously adding new coins, tokens, features and services.

This file contains a list of all transfers sent between two parties:

Party A is identified by:

BTC - 1Je3RohZT6mH1AofjcjMJXgbVgKrJNVohD

Party A is also known by the following name:

Coinbase.com

Party B is identified by:

BTC - 13nCMaHDNRGM29UfMMkhUQjHkVYY1ZyrpU

Party B is also known by the following name:

GSPartners.global

Each line represents a transfer which is either sent from party A to B or sent from party B to A.

Columns:

Asset: The asset in which the transfer occurred.

Transaction Hash: The hash of the transaction that contains the transfer.

Date: The date when the transaction was confirmed.

Receiving Address A: If the transfer is received by party A then this will be the address in party A that received p Receiving Address B: If the transfer is received by party B then this will be the address in party B that received p

A amount: If the transfer is received by party A then this is the amount received.

B amount: If the transfer is received by party B then this is the amount received.

A USD: If the transfer is received by party A then this is the approximated USD value converted by using daily av B USD: If the transfer is received by party B then this is the approximated USD value converted by using daily av

SSL/TLS

This is not a HTTPS site. If you're looking for SSL/TLS information try the **HTTPS site report**.

Hosting History

Netblock owner	IP address	OS	Web server	Last seen
Cloudflare, Inc. 101 Townsend Street San Francisco CA US 94107	172.67.174.105	Linux	cloudflare	12-Nov-2023

Sender Policy Framework

A host's Sender Policy Framework (SPF) describes who can send mail on its behalf. This is done by publishing an SPF record containing a series of **rules C**. Each rule consists of a qualifier followed by a specification of which domains to apply this qualifier to. For more information please see **open-spf.org C**.

Warning: It appears that this host does not have an SPF record. There may be an SPF record on gspartners.global: Check the **site report**.

Setting up an SPF record helps prevent the delivery of forged emails from your domain. Please note that an SPF record will only protect the domain it is added to and not any **mail-enabled subdomains** . It is recommended to add an SPF record to any subdomain with an MX record.

DMARC

DMARC (Domain-based Message Authentication, Reporting and Conformance) is a mechanism for domain owners to indicate how mail purporting to originate from their domain should be authenticated. It builds on SPF and DKIM, providing a method to set policy and to give reporting of failures. For more information please see **dmarc.org** .

This host does not have a DMARC record. There may be a DMARC record on the site report for gspartners.global: Check the **site report**.

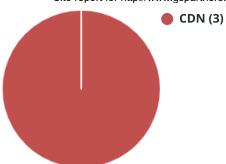

Web Trackers

Web Trackers are third-party resources loaded onto a webpage. Trackable resources include social sharing widgets, javascript files, and images. These trackers can be used to monitor individual user behaviour across the web. Data derived from these trackers are primarily used for advertising or analytics purposes.

Companies

3 known trackers were identified.

Cloudflare (1) Google (1) jsDelivr (1) Categories

Company	Primary Category	Tracker	Popular Sites with this Tracker
Cloudflare 🗹	CDN	Cloudflare	www.bitchute.com, www.ghanaweb.com, www.softwarehandel.de
Google 🗹	CDN	Googlecdn	www.of.moncompteformation.gouv.fr, www.nexusmods.com, www.taosamuebles.com
jsDelivr ☑	CDN	Jsdelivr	www.discogs.com, www.coinpayu.com, www.netacad.com

■ Site Technology (fetched today)

HTTP Accelerator

A web accelerator is a proxy server that reduces web site access times.

Technology	Description	Popular sites using this technology
Cloudflare 🗹	Content delivery network and distributed domain name server service	www.researchgate.net, www.chess.com, www.notion.so

Server-Side

Includes all the main technologies that Netcraft detects as running on the server such as PHP.

Technology	Description	Popular sites using this technology
SSL ☑	A cryptographic protocol providing communication security over the Internet	twitter.com, github.com, stackoverflow.com

Client-Side

Includes all the main technologies that run on the browser (such as JavaScript and Adobe Flash).

Technology	Description	Popular sites using this technology
JavaScript ピ	Widely-supported programming language commonly used to power client-side dynamic content on websites	www.twitch.tv, www.bing.com, www.google.com

Client-Side Scripting Frameworks

Frameworks or libraries allow for easier development of applications by providing an Application Program Interface (API) or a methodology to follow whilst developing.

Technology	Description	Popular sites using this technology
jQuery ☑	A JavaScript library used to simplify the client- side scripting of HTML	www.amazon.co.uk, www.amazon.fr, www.amazon.in
Bootstrap Javascript Library	No description	www.bleepingcomputer.com, www.zillertalerzeitung.at, www.espn.com

Content Delivery Network

A content delivery network or content distribution network (CDN) is a large distributed system of servers deployed in multiple data centers in the Internet. The goal of a CDN is to serve content to end-users with high availability and high performance.

Technology	Description	Popular sites using this technology
Cloudflare 🗹	Content delivery network and distributed domain name server service	www.ecosia.org, www.wappalyzer.com, www.inspq.qc.ca

Character Encoding

A character encoding system consists of a code that pairs each character from a given repertoire with something else such as a bit pattern, sequence of natural numbers, octets, or electrical pulses in order to facilitate the transmission of data (generally numbers or text) through telecommunication networks or for data storage.

Technology	Description	Popular sites using this technology
UTF8 🛂	UCS Transformation Format 8 bit	mail-redir.mention.com

HTTP Compression

HTTP compression is a capability that can be built into web servers and web clients to make better use of available bandwidth, and provide greater transmission speeds between both.

Technology	Description	Popular sites using this technology
Gzip Content Encoding 🗹	Gzip HTTP Compression protocol	www.seznam.cz, www.wildberries.ru, www.newsit.gr

Web Browser Targeting

Web browser targeting enables software applications to make use of specific functions of the browser as well as optimizing the application for specific browser versions.

Technology	Description	Popular sites using this technology
Javascript with SRI	No description	www.comss.ru, www.discogs.com, www.ikea.com
Stylesheet with SRI	No description	www.bitchute.com, www.nexusmods.com, www.lefigaro.fr

Doctype

A Document Type Declaration, or DOCTYPE, is an instruction that associates a particular SGML or XML document (for example, a webpage) with a Document Type Definition (DTD).

Technology	Description	Popular sites using this technology
HTML5 ☑	Latest revision of the HTML standard, the main markup language on the web	www.linkedin.com, mail.google.com, accounts.google.com

HTML 5

HTML5 is a markup language for structuring and presenting content for the World Wide Web and a core technology of the Internet. It is the fifth revision of the HTML standard.

Technology	Description	Popular sites using this technology
Viewport meta tag	HTML5 tag usually used for mobile optimization	www.arco.co.uk, teams.microsoft.com, discord.com

CSS Usage

Cascading Style Sheets (CSS) is a style sheet language used for describing the presentation semantics (the look and formatting) of a document written in a markup language (such as XHTML).

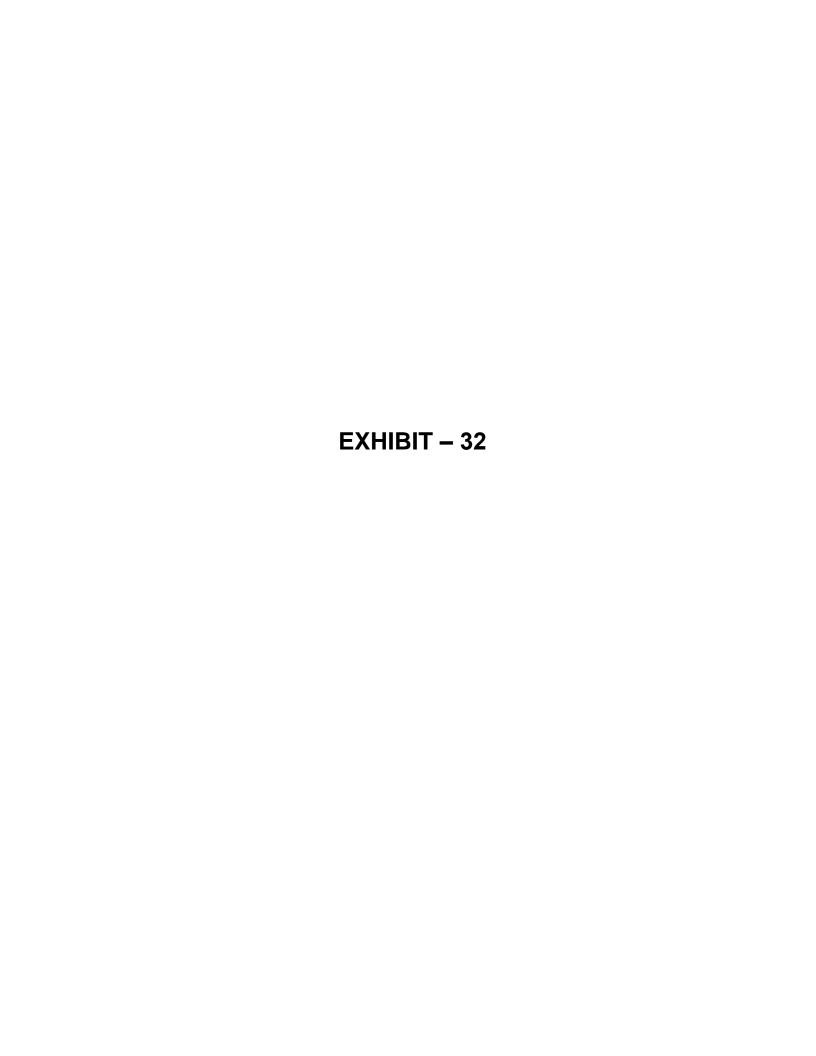

Technology	Description	Popular sites using this technology
External 🗹	Styles defined within an external CSS file	www.amazon.com, www.instagram.com, www.netflix.com

Terms of Use: Access to WHOIS information is provided to assist persons in determining the contents of a domain name registration record in the registry database. The data in this record is provided by Identity Digital or the Registry Operator for informational purposes only, and accuracy is not guaranteed. This service is intended only for query-based access. You agree that you will use this data only for lawful purposes and that, under no circumstances will you use this data to (a) allow, enable, or otherwise support the transmission by e-mail, telephone, or facsimile of mass unsolicited, commercial advertising or solicitations to entities other than the data recipient's own existing customers; or (b) enable high volume, automated, electronic processes that send queries or data to the systems of Registry Operator, a Registrar, or Identity Digital except as reasonably necessary to register domain names or modify existing registrations. When using the Whois service, please consider the following: The Whois service is not a replacement for standard EPP commands to the SRS service. Whois is not considered authoritative for registered domain objects. The Whois service may be scheduled for downtime during production or OT&E maintenance periods. Queries to the Whois services are throttled. If too many queries are received from a single IP address within a specified time, the service will begin to reject further queries for a period of time to prevent disruption of Whois service access. Abuse of the Whois system through data mining is mitigated by detecting and limiting bulk query access from single sources. Where applicable, the presence of a [Non-Public Data] tag indicates that such data is not made publicly available due to applicable data privacy laws or requirements. Should you wish to contact the registrant, please refer to the Whois records available through the registrar URL listed above. Access to non-public data may be provided, upon request, where it can be reasonably confirmed that the requester holds a specific legitimate interest and a proper legal basis for accessing the withheld data. Access to this data provided by Identity Digital can be requested by submitting a request via the form found at https://www.identity.digital/about/policies/whois-layered-access/. The Registrar of Record identified in this output may have an RDDS service that can be queried for additional information on how to contact the Registrant, Admin, or Tech contact of the queried domain name. Identity Digital Inc. and Registry Operator reserve the right to modify these terms at any time. By submitting this query, you agree to abide by this policy.

Sender Policy Framework

A host's Sender Policy Framework (SPF) describes who can send mail on its behalf. This is done by publishing an SPF record containing a series of **rules C**. Each rule consists of a qualifier followed by a specification of which domains to apply this qualifier to. For more information please see **open-spf.org C**.

Warning: It appears that this host does not have an SPF record. There may be an SPF record on gsb.gold: Check the **site report**.

DMARC

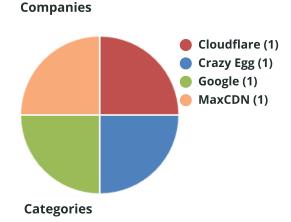

DMARC (Domain-based Message Authentication, Reporting and Conformance) is a mechanism for domain owners to indicate how mail purporting to originate from their domain should be authenticated. It builds on SPF and DKIM, providing a method to set policy and to give reporting of failures. For more information please see **dmarc.org** ...

This host does not have a DMARC record. There may be a DMARC record on the site report for gsb.gold: Check the **site report**.

Web Trackers

Web Trackers are third-party resources loaded onto a webpage. Trackable resources include social sharing widgets, javascript files, and images. These trackers can be used to monitor individual user behaviour across the web. Data derived from these trackers are primarily used for advertising or analytics purposes.

4 known trackers were identified.

Company	Primary Category	Tracker	Popular Sites with this Tracker
Cloudflare 🗹	CDN	Cloudflare	www.bitchute.com, www.ghanaweb.com, www.techtarget.com
Crazy Egg 🖸	Analytics	Crazy Egg	www.gamestop.com, www.ncbi.nlm.nih.gov, www.avira.com
Google 🗹	CDN	Googlecdn	www.nexusmods.com, www.taosamuebles.com, www.inspq.qc.ca
MaxCDN 🗹	CDN	Bootstrapcdn	www.kaldata.com, www.arco.co.uk, www.pdfdrive.com

■ Site Technology (fetched today)

HTTP Accelerator

A web accelerator is a proxy server that reduces web site access times.

Technology	Description	Popular sites using this technology
Cloudflare 🗹	Content delivery network and distributed domain name server service	www.inspq.qc.ca, www.wappalyzer.com, www.notion.so

Server-Side

Includes all the main technologies that Netcraft detects as running on the server such as PHP.

Technology	Description	Popular sites using this technology
SSL ௴	A cryptographic protocol providing communication security over the Internet	stackoverflow.com, accounts.google.com, github.com

Client-Side

Includes all the main technologies that run on the browser (such as JavaScript and Adobe Flash).

Technology	Description	Popular sites using this technology
Asynchronous Javascript	No description	www.linkedin.com, www.microsoft.com, www.tiktok.com
JavaScript 년	Widely-supported programming language commonly used to power client-side dynamic content on websites	www.netflix.com, www.google.com, www.amazon.com

Client-Side Scripting Frameworks

Frameworks or libraries allow for easier development of applications by providing an Application Program Interface (API) or a methodology to follow whilst developing.

Technology	Description	Popular sites using this technology
jQuery ☑	A JavaScript library used to simplify the client- side scripting of HTML	www.amazon.in, www.amazon.co.uk, www.amazon.fr
Font Awesome Web Fonts 🖸	No description	www1.sedecatastro.gob.es, www.nk.ca, www.zillertalerzeitung.at
Bootstrap Javascript Library	No description	www.bleepingcomputer.com, www.freecodecamp.org, www.espn.com

Content Delivery Network

A content delivery network or content distribution network (CDN) is a large distributed system of servers deployed in multiple data centers in the Internet. The goal of a CDN is to serve content to end-users with high availability and high performance.

Technology	Description	Popular sites using this technology
Cloudflare 🗹	Content delivery network and distributed domain name server service	www.ecosia.org, www.researchgate.net, www.chess.com
Google Hosted Libraries ☑	Google API to retrieve JavaScript libraries	www.newsnow.com, www.softwarehandel.de, www.espritvillas.com

Mobile Technologies

Mobile technology is the technology used for hand held mobile devices.

Technology	Description	Popular sites using this technology		
Click to call ☑	Markup language syntax intended for devices that can place calls (e.g. phones, VoIP, etc.)	aspen.eccouncil.org, base- contacts.aftral.com, app.salutem.cl		

Character Encoding

A character encoding system consists of a code that pairs each character from a given repertoire with something else such as a bit pattern, sequence of natural numbers, octets, or electrical pulses in order to facilitate the transmission of data (generally numbers or text) through telecommunication networks or for data storage.

Technology	Description	Popular sites using this technology		
UTF8 🗹	UCS Transformation Format 8 bit	discord.com, mail-redir.mention.com		

HTTP Compression

HTTP compression is a capability that can be built into web servers and web clients to make better use of available bandwidth, and provide greater transmission speeds between both.

Technology	Description	Popular sites using this technology		
Gzip Content Encoding 🗹	Gzip HTTP Compression protocol	www.novinky.cz, www1.secure.hsbcnet.com,		

Technology	Description	Popular sites using this technology
		www.newsit.gr

Web Browser Targeting

Web browser targeting enables software applications to make use of specific functions of the browser as well as optimizing the application for specific browser versions.

Technology	Description	Popular sites using this technology	
Document Compatibility Mode 🗹	A meta-tag used in Internet Explorer 8 to enable compatibility mode	www.startpage.com, www.bilibili.com, www.bing.com	
Javascript with SRI	No description	www.flightradar24.com, www.comss.ru, www.discogs.com	
Stylesheet with SRI	No description	www.lefigaro.fr, www.bitchute.com, www.nexusmods.com	

HTML 5

HTML5 is a markup language for structuring and presenting content for the World Wide Web and a core technology of the Internet. It is the fifth revision of the HTML standard.

Technology	Description	Popular sites using this technology	
Video Tag	Native browser video playback	www.howtogeek.com, www.makeuseof.com, www.freepik.com	
Viewport meta tag	HTML5 tag usually used for mobile optimization	www.arco.co.uk, teams.microsoft.com, twitter.com	

CSS Usage

Cascading Style Sheets (CSS) is a style sheet language used for describing the presentation semantics (the look and formatting) of a document written in a markup language (such as XHTML).

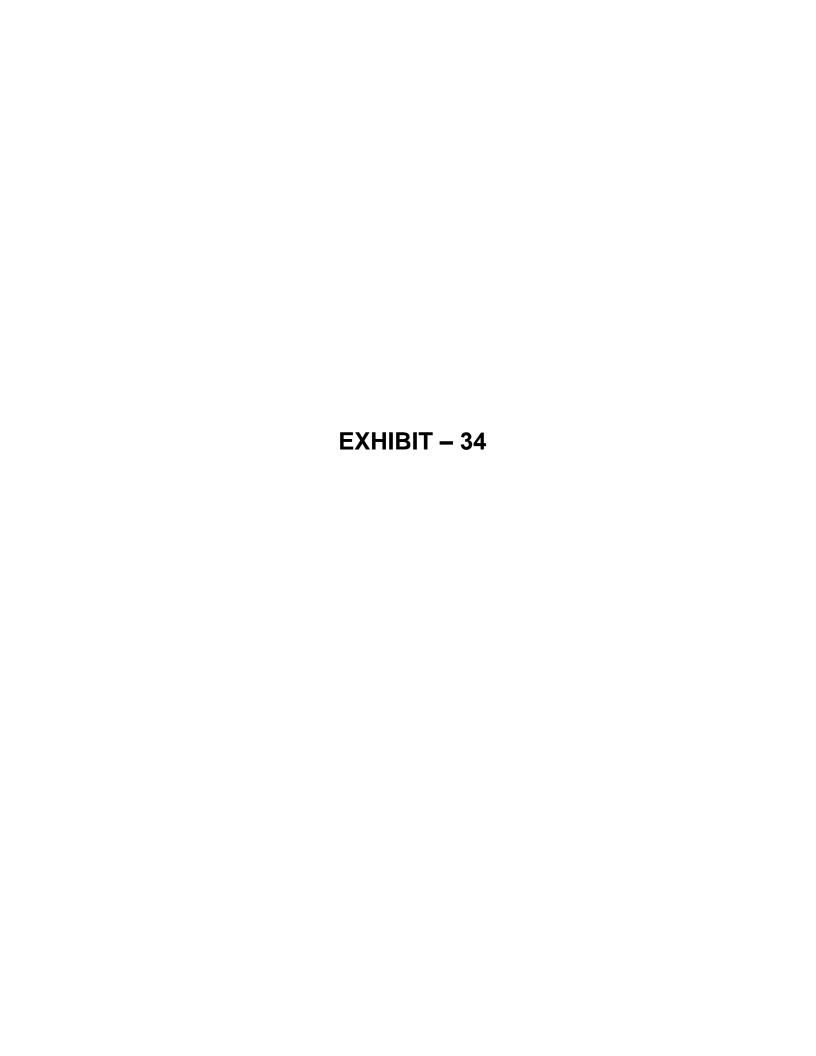

Technology	Description	Popular sites using this technology
External 🗹	Styles defined within an external CSS file	www.instagram.com, www.twitch.tv, www.deepl.com

For more information on Whois status codes, please visit https://icann.org/epp

Terms of Use: Access to WHOIS information is provided to assist persons in determining the contents of a domain name registration record in the registry database. The data in this record is provided by Identity Digital or the Registry Operator for informational purposes only, and accuracy is not guaranteed. This service is intended only for query-based access. You agree that you will use this data only for lawful purposes and that, under no circumstances will you use this data to (a) allow, enable, or otherwise support the transmission by e-mail, telephone, or facsimile of mass unsolicited,

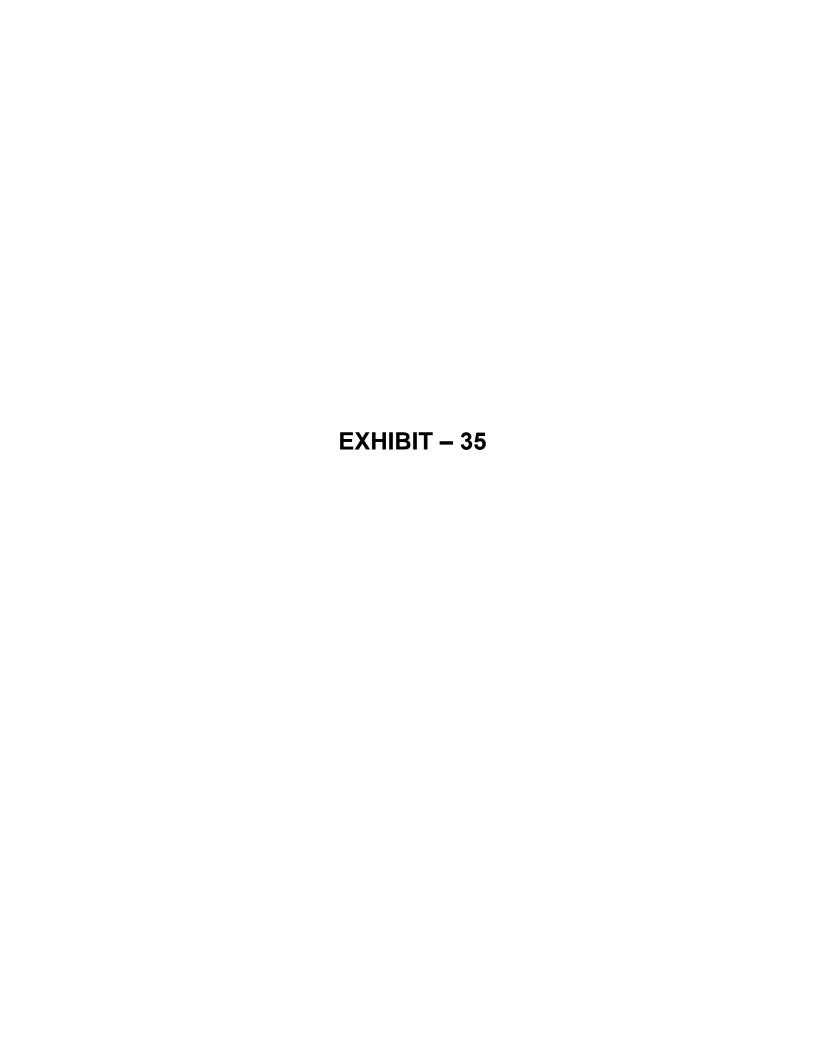

commercial advertising or solicitations to entities other than the data recipient's own existing customers; or (b) enable high volume, automated, electronic processes that send queries or data to the systems of Registry Operator, a Registrar, or Identity Digital except as reasonably necessary to register domain names or modify existing registrations. When using the Whois service, please consider the following: The Whois service is not a replacement for standard EPP commands to the SRS service. Whois is not considered authoritative for registered domain objects. The Whois service may be scheduled for downtime during production or OT&E maintenance periods. Queries to the Whois services are throttled. If too many queries are received from a single IP address within a specified time, the service will begin to reject further queries for a period of time to prevent disruption of Whois service access. Abuse of the Whois system through data mining is mitigated by detecting and limiting bulk query access from single sources. Where applicable, the presence of a [Non-Public Data] tag indicates that such data is not made publicly available due to applicable data privacy laws or requirements. Should you wish to contact the registrant, please refer to the Whois records available through the registrar URL listed above. Access to non-public data may be provided, upon request, where it can be reasonably confirmed that the requester holds a specific legitimate interest and a proper legal basis for accessing the withheld data. Access to this data provided by Identity Digital can be requested by submitting a request via the form found at https://www.identity.digital/about/policies/whois-layered-access/. The Registrar of Record identified in this output may have an RDDS service that can be queried for additional information on how to contact the Registrant, Admin, or Tech contact of the queried domain name. Identity Digital Inc. and Registry Operator reserve the right to modify these terms at any time. By submitting this query, you agree to abide by this policy.

Sender Policy Framework

A host's Sender Policy Framework (SPF) describes who can send mail on its behalf. This is done by publishing an SPF record containing a series of **rules** . Each rule consists of a qualifier followed by a specification of which domains to apply this qualifier to. For more information please see **open-spf.org** .

Warning: It appears that this host does not have an SPF record. There may be an SPF record on gstrade.exchange: Check the **site report**.

Setting up an SPF record helps prevent the delivery of forged emails from your domain. Please note that an SPF record will only protect the domain it is added to and not any **mail-enabled subdomains \vec{\vec{\vec{\vec{\vec{v}}}}}**. It is recommended to add an SPF record to any subdomain with an MX record.

DMARC

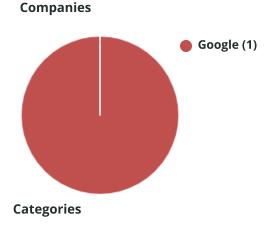

DMARC (Domain-based Message Authentication, Reporting and Conformance) is a mechanism for domain owners to indicate how mail purporting to originate from their domain should be authenticated. It builds on SPF and DKIM, providing a method to set policy and to give reporting of failures. For more information please see **dmarc.org \(\mathbb{L}\)**.

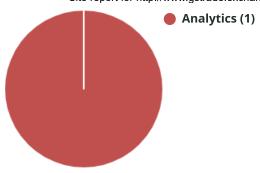

This host does not have a DMARC record. There may be a DMARC record on the site report for gstrade.exchange: Check the **site report**.

It is recommended to add an SPF record to any subdomain with an MX record.

DMARC

DMARC (Domain-based Message Authentication, Reporting and Conformance) is a mechanism for domain owners to indicate how mail purporting to originate from their domain should be authenticated. It builds on SPF and DKIM, providing a method to set policy and to give reporting of failures. For more information please see **dmarc.org** .

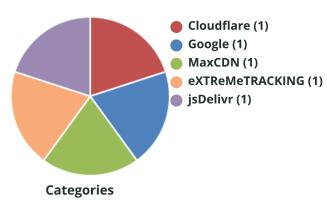

This host does not have a DMARC record. There may be a DMARC record on the site report for g999main.net: Check the **site report**.

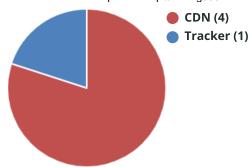

Web Trackers

Web Trackers are third-party resources loaded onto a webpage. Trackable resources include social sharing widgets, javascript files, and images. These trackers can be used to monitor individual user behaviour across the web. Data derived from these trackers are primarily used for advertising or analytics purposes.

5 known trackers were identified.

Companies

Company	Primary Category	Tracker	Popular Sites with this Tracker
Cloudflare 🗹	CDN	Cloudflare	www.nexusmods.com, www.softwarehandel.de, www.ghanaweb.com
Google 🗹	CDN	Googlecdn	www.inspq.qc.ca, www.taosamuebles.com, www.of.moncompteformation.gouv.fr
MaxCDN ☑	CDN	Bootstrapcdn	www.arco.co.uk, www.rapidtables.com, www.kaldata.com
eXTReMeTRACKING ☑	Tracker	Extreme DM	www.scj.ro
jsDelivr 	CDN	Jsdelivr	www.bitchute.com, www.discogs.com, www.techtarget.com

Site Technology (fetched 24 days ago)

HTTP Accelerator

A web accelerator is a proxy server that reduces web site access times.

Technology	Description	Popular sites using this technology
Cloudflare ☑	Content delivery network and distributed domain name server service	www.notion.so, www.chess.com, www.ecosia.org

Server-Side

Includes all the main technologies that Netcraft detects as running on the server such as PHP.

Technology	Description	Popular sites using this technology
SSL ☑	A cryptographic protocol providing communication security over the Internet	accounts.google.com, mail.google.com, twitter.com

Client-Side

Includes all the main technologies that run on the browser (such as JavaScript and Adobe Flash).

Technology	Description	Popular sites using this technology
Asynchronous Javascript	No description	www.ebay.com, www.linkedin.com, www.microsoft.com
JavaScript ☑	Widely-supported programming language commonly used to power client-side dynamic content on websites	www.google.com, www.twitch.tv, www.instagram.com

Client-Side Scripting Frameworks

Frameworks or libraries allow for easier development of applications by providing an Application Program Interface (API) or a methodology to follow whilst developing.

Technology	Description	Popular sites using this technology
jQuery ☑	A JavaScript library used to simplify the client- side scripting of HTML	www.amazon.co.uk, www.amazon.fr, www.amazon.in
Font Awesome Web Fonts 🗹	No description	www.nk.ca, www.zillertalerzeitung.at, www1.sedecatastro.gob.es
Bootstrap Javascript Library	No description	www.freecodecamp.org, www.portail- emploi.fr, www.bleepingcomputer.com

Content Delivery Network

A content delivery network or content distribution network (CDN) is a large distributed system of servers deployed in multiple data centers in the Internet. The goal of a CDN is to serve content to end-users with high availability and high performance.

Technology	Description	Popular sites using this technology
Cloudflare 🗹	Content delivery network and distributed domain name server service	www.inspq.qc.ca, www.wappalyzer.com, www.researchgate.net
Google Hosted Libraries 🗹	Google API to retrieve JavaScript libraries	www.pdfdrive.com, www3.animeflv.net, www.softwarehandel.de

Character Encoding

A character encoding system consists of a code that pairs each character from a given repertoire with something else such as a bit pattern, sequence of natural numbers, octets, or electrical pulses in order to facilitate the transmission of data (generally numbers or text) through telecommunication networks or for data storage.

Technology	Description	Popular sites using this technology
UTF8 🗹	UCS Transformation Format 8 bit	mail-redir.mention.com, discord.com

HTTP Compression

HTTP compression is a capability that can be built into web servers and web clients to make better use of available bandwidth, and provide greater transmission speeds between both.

Technology	Description	Popular sites using this technology
Gzip Content Encoding 🗹	Gzip HTTP Compression protocol	www.novinky.cz, www.sigmalive.com, www.seznam.cz

Web Browser Targeting

Web browser targeting enables software applications to make use of specific functions of the browser as well as optimizing the application for specific browser versions.

Technology	Description	Popular sites using this technology
Document Compatibility Mode 🗹	A meta-tag used in Internet Explorer 8 to enable compatibility mode	www.deepl.com, www.bing.com, www.startpage.com
Javascript with SRI	No description	www.flightradar24.com, www.comss.ru, www.ikea.com
Stylesheet with SRI	No description	www.bitchute.com, www.discogs.com, www.nexusmods.com

HTML 5

HTML5 is a markup language for structuring and presenting content for the World Wide Web and a core technology of the Internet. It is the fifth revision of the HTML standard.

Technology	Description	Popular sites using this technology
Viewport meta tag	HTML5 tag usually used for mobile optimization	teams.microsoft.com, github.com, stackoverflow.com

CSS Usage

Cascading Style Sheets (CSS) is a style sheet language used for describing the presentation semantics (the look and formatting) of a document written in a markup language (such as XHTML).

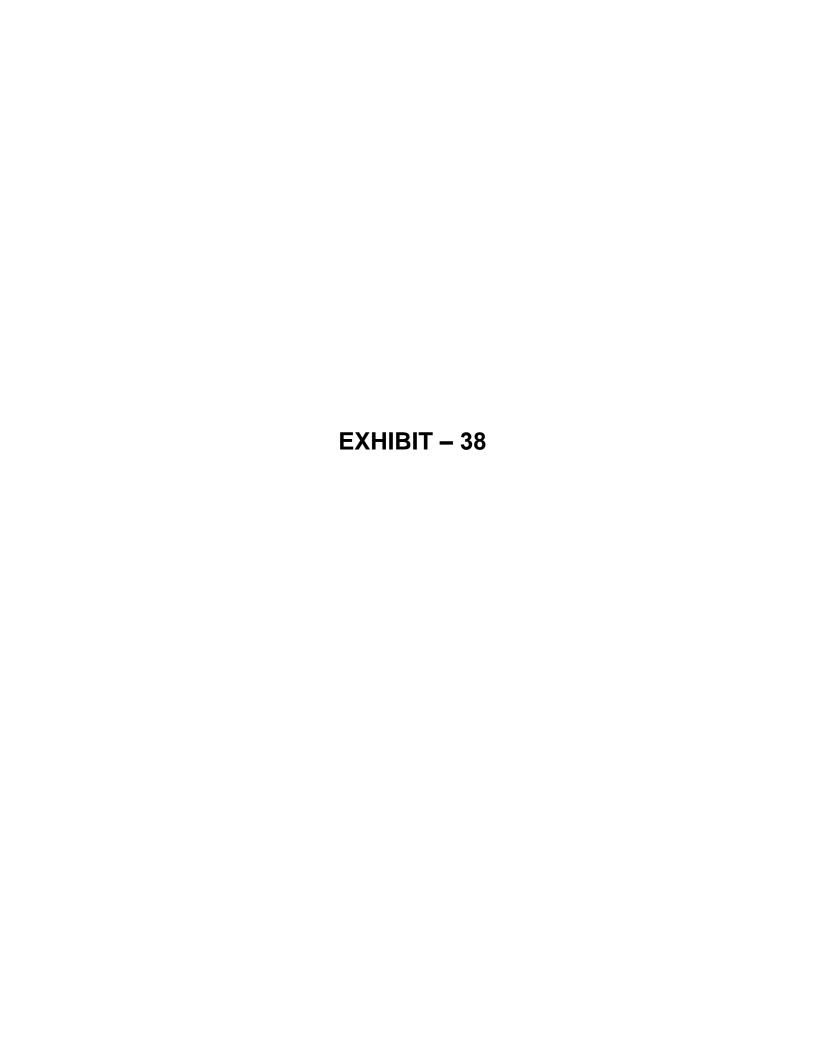

Technology	Description	Popular sites using this technology
External 🗹	Styles defined within an external CSS file	www.amazon.com, www.arco.co.uk, www.netflix.com

Sender Policy Framework

A host's Sender Policy Framework (SPF) describes who can send mail on its behalf. This is done by publishing an SPF record containing a series of **rules C**. Each rule consists of a qualifier followed by a specification of which domains to apply this qualifier to. For more information please see **open-spf.org C**.

Qualifier	Mechanism	Argument
- (Fail)	all	

DMARC

DMARC (Domain-based Message Authentication, Reporting and Conformance) is a mechanism for domain owners to indicate how mail purporting to originate from their domain should be authenticated. It builds on SPF and DKIM, providing a method to set policy and to give reporting of failures. For more information please see **dmarc.org \(\mathbb{L}\)**.

This host does not have a DMARC record. There may be a DMARC record on the site report for wealthbuilders.com: Check the **site report**.

■ Web Trackers

About

Blessed Beyond Measure.. Love My Family, 6 beautiful kids, Taylor, Kaila , Lauren,

Shane, & Kaila Jade!!!

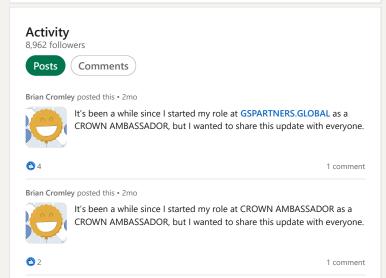

Brian Cromley posted this • 6mo

I am from Akron, Ohio! I live in Sarasota. Florida . I am Very sports minded, very MOTV8ED and enthusiastic about life. I live for FUN & FREEDOM!! I love the industry of Newtwork Marketing! I have been an Insurance Advisor since 2004! I am also a former Marine!

I am introducing the amazing concept of 24 Karat Gold & The first Crypto Currency backed by PHYSICAL GOLD to the WORLD! Come and join me and help make a HUGE difference in the world!

What I like most about Karatbars!! Is the M.O.R.E. People we help around the World get out of the debt system, we can BLESS them and make the World a better place and give more families their TIME & FREEDOM back! & Helping all the homeless kids & families of the WORLDI. I am BLESSED to be a part of this.

I am Totally MOTV8ED to be in Nitsa Nakos & The Synergy Gold Group / The Golden Rockstars Teams!!! Gold Standard Partners

Here is my new business card!!!! @everyone

Cookie Settings Accept X

Steve Coates is a multifaceted entrepreneur that is the owner of S. Coates Enterprises.

Mr. Coates has had the desire to be a business owner since his early youth, and leaped into the entrepreneurial lifestyle in the early 1980's.

Steve Coates is a worldwide entrepreneur that owns a plethora of businesses in the fields of CryptoCurrency, Motivational Speaking, Life Coaching, Construction, Educational Driving Instructions, and Fashion Retail.

Mr. Coates has created a strong brand with a variance of services, which allows him to help all people nationally and globally.

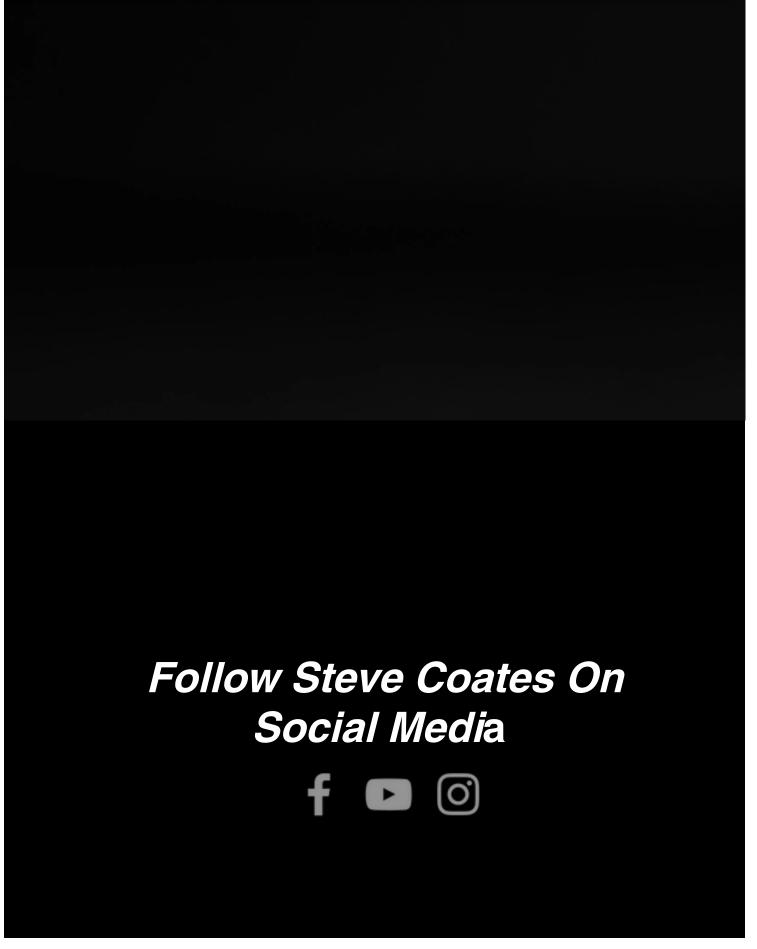

Through Mr. Coates' profound resume, extensive background, and impeccable timemanagement; he has found the balance of his brand through his businesses to reach the keys of success for each entrepreneurial avenue.

Some of Mr. Coates titles and achievements are as follows:

- GSPartners 2021 Dream Incentive Winners
- 3 Time Awarded "Successful Journey of Black Entrepreneurship" Award
- 30+ years of experience of Profit Producing
- Senior Marketing Director & Buyer for "First Thangs First" Fashion Retail Store
- Operations Manager of East Bay Construction
- Solutions Advisor for 1st Solutions,LLC.
- Investor & Business Advisor for D&D Capital Inc.
- YouTuber with over 300K+ Views
- International Motivational Speaker & Life Coach
- Senior Investment Strategies

Steve Coates was born, raised, and currently resides in the DMV area. Being a husband, father, and a man of faith, he finds it important to not only help his local community but also to reach the world through training on financial literacy and freedom.
