

GIRLS IN SCIENCE: FUTURE FOCUS

WEEKLY MEETINGS FROM JANUARY 21 – MARCH 25, 2021

Girls in Science: *Future Focus* is an afterschool program focused on engaging middle school girls in exploring careers in science with like-minded peers. Each week, girls will meet a woman in science or other STEM profession, hear her story, and engage in fun, hands-on activities related to her career.

Running virtually January–March, 2021, *Future Focus* is an intensive, ten-week program for 6th- and 7th-grade girls and nonbinary students who have shown ability and strong interest in the sciences, especially the natural sciences. The Girls in Science mission is to engage students in hands-on science experiences, connect participants to inspiring women in science and to create a safe atmosphere where diversity can be celebrated and natural curiosities can flourish.

For: Girls and non-binary students grades 6 and 7

When: Thursdays
from 4-5:30 p.m.
January 21 – March 25,
2021

Where: Program
meets at virtually

Cost: \$150 per child;
full and partial need-
based scholarships
available

Apply Online: Visit
[naturalsciences.org/
learn/teens](https://naturalsciences.org/learn/teens)

Applications Due:
11:59 p.m.
Monday, January 11,
2021
