

A Proposal to Change New York's Trout Pond Fishing Regulations (1/10/22)

Background

New York currently manages 159 individual ponds and lakes with 22 different special trout regulations. In addition, 33 counties have county-wide special trout regulations for ponded waters. Upon evaluation and discussion between biologists, it was revealed that the current agglomeration of varying management strategies on whole does little to improve upon the management of these individual resources. Many of the current special regulations are based on limited survey information and are inconsiderate of the variabilities that exert fluctuations in the fishery. In many instances we are most likely managing at a level much more granular than necessary to garner realistic benefits.

Given this current state, the Bureau of Fisheries embarked on a process to determine if New York's trout fishing regulations for ponded waters could be streamlined to reduce complexity but also provide the measures needed for sustainable management and optimal enjoyment. Every special and county trout pond/lake fishing regulation was examined and questioned regarding need and outcome. Our evaluation revealed that many waters currently managed with special regulations could be converted to statewide regulations fashioned to provide a broad balance between resource protection and opportunity. It was also determined that given our management platforms for the three different trout species categorized as "trout," brook trout should be managed differently than rainbow and brown trout and splake.

The narrative below documents the current state of regulations associated with the management of New York's lake and ponds and provides a structure for a potential new regulatory strategy.

Current trout management regulations for ponded water

The comprehensive review of the State's Inland ponded trout (brown trout, rainbow trout and brook trout and splake) management and regulations (excluding the Finger Lakes) reveals the following:

Trout regulation summary

The current statewide trout regulation is *Trout, April 1-October 15, Minimum Length-any size, Daily Limit-5*. Although it is a statewide regulation, it is not universally used across the state and has been preempted with regional, county, and individual waterbody specific regulations. Currently, the statewide regulation is only being used on waters in Region 3, 4, and 5. It is also used to manage ponded trout waters in in Region 6, but only where the use of baitfish is prohibited. Exceptions to the use of the statewide regulation for trout in ponds and lakes are as follows:

- Region 1 counties are managed with a *Trout, all year, Minimum Length-any size, Daily Limit-3* special regulation in lakes and ponds.
- Regions 6, 7, 8 and 9 ponded waters are currently managed with a *Trout, April 1-October 15, Daily Limit-5 trout with no more than 2 longer than 12"* special regulation.
- 159 lakes and ponds across the state are currently managed with one of 22 special regulation variations that differ from the special regulations stated above (see Table 1).

Existing lake and pond trout special regulation variations

The following is a list of the lake and pond trout/brook trout special regulations and the number of lakes and ponds they apply to:

Table 1: Trout/brook trout regulation variations on Inland ponds and lakes (except Finger Lakes)

| Trout/Brook Trout regulation variation | # of lakes and ponds variation applies to |
|---|---|
| Brook Trout, April 1–Oct 15, Minimum Length-12", Daily Limit-3, Artificial lures only | 1 |
| Brook Trout, Catch and Release only | 1 |
| Trout, All year, Daily Limit-5 with no more than 2 longer than 12" | 19 |
| Trout, All year, Minimum Length-12", Daily Limit-3 | 37 |
| Trout, All year, Minimum Length-18", Daily Limit-1 | 1 |
| Trout, All year, Minimum Length-9", Daily Limit-3 | 1 |
| Trout, All year, Minimum Length-9", Daily Limit-5 | 6 |
| Trout, All year, Minimum Length-None, Daily Limit-3 | 1 |
| Trout, All year, Minimum Length-None, Daily Limit-5 | 55 |
| Trout, April 1–Nov 30, Catch and Release only, Artificial lures only | 1 |
| Trout, April 1–Nov 30, Daily Limit-5 with no more than 2 longer than 12" | 2 |
| Trout, April 1–Nov 30, Minimum Length-10", Daily Limit-3 | 1 |
| Trout, April 1–Nov 30, Minimum Length-12", Daily Limit-3 | 3 |
| Trout, April 1–Nov 30, Minimum Length-None, Daily Limit-5 | 3 |
| Trout, April 1–Oct 15, Catch and Release only, Artificial lures only | 2 |
| Trout, April 1–Oct 15, Minimum Length-10", Daily Limit-3 | 1 |
| Trout, April 1–Oct 15, Minimum Length-12", Daily Limit-2, Artificial lures only | 2 |
| Trout, April 1–Oct 15, Minimum Length-12", Daily Limit-3 | 11 |
| Trout, April 1–Oct 15, Minimum Length-12", Daily Limit-3, Artificial lures only | 4 |
| Trout, April 1–Oct 15, Minimum Length-None, Daily Limit-3, Artificial lures only | 4 |
| Trout, April 1–Sept 30, Minimum Length-10", Daily Limit-3 | 4 |
| Trout, April 1–Sept 30, Minimum Length-15", Daily Limit-2 fish to include only 1 over 21" | 1 |
| Trout, April 1–Oct 15, Daily Limit-5 with no more than 2 longer than 12" | 31 county-wide regulations |

- Of the 22 trout regulation variations, 18 variations apply to 6 or fewer lakes or ponds. Many of the variations are slight changes in either season, minimum length, daily limit, or artificial lures only that likely result in no measurable difference in the fishery.
- Many of the special regulations are aged have not been evaluated since their implementation.
- The most used variation (55 lakes and ponds); *Trout, all year, minimum length-none, daily limit-* 5; simply extends the statewide regulation to all year and allows ice fishing.
- The second most used variation (37 lakes and ponds); *Trout, all year, minimum length-12", daily limit-3*; is the most used Put-Grow-and-Take regulation where ice fishing is allowed.
- The third most used variation (19 lakes and ponds); *Trout, all year, daily limit-5 with no more than 2 longer than 12"*; extends the most common county-wide regulation to all year to allow for ice fishing. This regulation also spreads out the catch of stocked 2-year-old stocked trout among anglers.
- Most of the other remaining variations are generally used to extend the fishing opportunity provided by stocked trout.

Brook trout

- Brook trout fisheries are a combination of stocked and wild self-sustaining fisheries. There are
 approximately 50 lakes and ponds with wild self-sustaining populations, 47 lakes and ponds that
 have the potential for self-sustaining populations, and 321 stocked lakes and ponds managed
 for put-grow-and-take. The number of ponds that have the potential for self-sustaining
 populations is based on the best available data, but that number would most likely increase with
 more surveying.
- Brook trout in ponds are primarily managed under the existing statewide trout regulation (390 out of 418 brook trout ponds statewide).
- 28 individual brook trout lakes and ponds are managed under special regulation.
- Over 400 brook trout ponds also have both 'ice fishing prohibited' and 'baitfish prohibited' regulations to protect brook trout.

Brown and rainbow trout

- Brown and rainbow trout are managed as put-and-take and put-grow-and-take fisheries. They are not managed for self-sustaining populations in lakes and ponds.
- 248 lakes and ponds are stocked with catchable-sized brown and/or rainbow trout in the spring, including 45 where 12" or longer trout are stocked.
- 128 individual brown and rainbow trout lakes and ponds are managed under special regulation.
- Brown and rainbow trout are stocked fisheries that are often managed with all year regulations that allow for ice fishing.

Brook trout and brown/rainbow trout are managed and regulated differently. Combining brook, brown, and rainbow trout into a single "trout" statewide regulation complicates regulations because more special regulations are needed to account for the difference in management between the trout species.

Proposal to amend trout regulations for Inland lakes and ponds

- Create distinct regulations for Brook Trout versus and Brown and Rainbow Trout.
- Establish a statewide 'Brook Trout in lakes and ponds' regulation from April 1 to October 15 with a daily limit of 5 fish any size but with no more than 2 trout longer than 12".
- Establish a statewide 'Rainbow and Brown Trout in lakes and ponds' regulation all year with a daily limit of 5 fish any size with no more than 2 longer than 12".
- Eliminate 142 waterbody special regulations (see table 4) for trout and manage those waters under the proposed statewide regulations.
- Eliminate all 33 county-wide lake and pond trout regulations in DEC Regions 1, 6, 7, 8 and 9 and manage those waters under the proposed statewide regulations.
- Modify 10 existing lake and pond trout special regulations (see table 2).

Rationales

Distinct regulations for ponded waters

Brook trout and brown/rainbow trout are managed and regulated differently. Splitting the "trout" statewide regulation into separate brook trout and brown/rainbow trout statewide regulations allows for the creation of statewide regulations that align with the management of a greater number of fisheries, reducing the need for special regulations.

Brook trout are managed to achieve self-sustaining populations where possible and put-grow-and-take fisheries if not possible. They are highly vulnerable to being caught through the ice. To protect wild brook trout during their spawning season and protect them during the vulnerable ice fishing season, a closed season from October 16 through March 31 is appropriate. The closed season is also consistent with 'ice fishing prohibited' regulations on most brook trout waters.

Brown and rainbow trout are managed as stocked fisheries where there is no biological reason to close the season. Most of the "trout" special regulations are brown and rainbow stocked waters where the season has already been extended to all year. Creation of a statewide all-year season where ice fishing is permitted for brown and rainbow trout aligns the statewide regulation with how the species are generally already being managed in lakes and ponds.

The existing difference between how brook trout and brown/rainbow trout are managed seasonally creates a logical split of the existing statewide "trout" regulation into a 'brook trout statewide' regulation and a 'brown/rainbow trout statewide' regulation based on open season.

Approximately 34 ponded waters are inhabited by brook trout and another trout or salmon that is proposed to have a year-round open season. Ice fishing is prohibited on these waters. While fishing is permitted on these waters from October 16 to ice in, targeting of brook trout would be prohibited. DEC will also be examining the stocking policies for these multi species waters to determine if a single species can satisfy desired management outcomes.

Proposed statewide harvest regulation

The proposed statewide harvest regulation for both brook trout and brown/rainbow trout in lakes and ponds is a daily limit of 5 with no more than 2 longer than 12". This proposed harvest regulation is a hybrid approach that serves both put-and-take and put-grow-and-take management purposes. It is primarily a cross between the existing statewide daily limit of 5 trout at any size and the minimum length-12", daily limit of 3 trout special regulations. Multiple other slight special regulation variations are also included in this cross. The proposed regulation allows anglers to harvest freshly stocked trout for put-and-take fisheries as the current statewide regulation does. By limiting harvest of trout greater than 12" in put-grow-and-take waters, the proposed regulation:

- Allows some immediate harvest of catchable sized stocked trout.
- Spreads out the catch of stocked trout that have grown to 12" or longer.
- Spreads out the immediate harvest of stocked 2-year-old trout (45 lakes and ponds).
- Spreads out the catch of larger, more prized brook trout.

For both self-sustaining and stocked brook trout ponds, the proposed '5 fish with no more than 2 longer than 12" harvest' regulation is more restrictive for most ponds with the exception of a handful of brook trout ponds managed under special harvest regulations. For ponds where few if any brook trout grow larger than 12", the opportunity to harvest brook trout is essentially the same as it currently is. For the few ponds where brook trout growth is exceptional and anglers may catch more than 2 brook trout longer than 12", the harvest of these larger, more prized brook trout will be spread out among more anglers.

The proposed '5 fish with no more than 2 longer than 12" harvest' regulation provides most of the benefits of both the existing statewide regulation and the special regulations it is proposed to replace. This hybrid approach allows 143 waterbody and 33 county-wide special regulations to be consolidated into consistent simple to understand statewide regulations.

Proposed changes to existing lake and pond trout special regulations

Ten waters with existing trout regulations, including 2 previously managed under a county-wide trout regulation, are proposed to be modified.

Table 2: Trout waters where the trout regulation is proposed to be modified

| Region | Water Name | Current regulation | Proposed regulation |
|--------|--------------------------|--|--|
| 1 | HARDS LAKE | Trout, all year, Minimum Length-none, Daily Limit-3 | Rainbow and Brown Trout, April 1 through October 15, Daily limit-3 with no more than 1 longer than 12" |
| · | | (note: this is the existing County-wide trout regulation) | Brook Trout, April 1 through October 15, Catch and Release only |
| 3 | ALDER LAKE | Trout, April 1–Sept 30, Minimum Length-10", Daily Limit-3 | Trout, April 1 through September 30, Minimum Length-12", Daily Limit-2, Artificial lures only |
| 3 | CRYSTAL LAKE | Trout, April 1–Sept 30, Minimum Length-10", Daily Limit-3 | Trout, April 1 through September 30, Minimum Length-12", Daily Limit-2, Artificial lures only |
| 3 | ECHO LAKE | Trout, April 1–Sept 30, Minimum Length-10", Daily Limit-3 | Trout, April 1 through September 30, Minimum Length-12", Daily Limit-2, Artificial lures only |
| 3 | HODGE POND | Trout, April 1–Sept 30, Minimum Length-10", Daily Limit-3 | Trout, April 1 through September 30, Minimum Length-12", Daily Limit-2, Artificial lures only |
| 4 | HUGGINS LAKE | Trout, April 1–Oct 15, Minimum Length-12", Daily Limit-2, Artificial lures only | Trout, April 1 through September 30, Minimum Length-12", Daily Limit-2, Artificial lures only |
| 4 | PEPACTON RESERVOIR | Trout, April 1–Sept 30, Minimum Length-15", Daily Limit-2 fish to include only 1 over 21" | Trout, April 1 through October 15, Minimum Length-15", Daily Limit-2 fish to include only 1 over 21" |
| 4 | TROUT POND (CABLES LAKE) | Trout, April 1–Oct 15, Minimum Length-12", Daily Limit-2, Artificial lures only | Trout, April 1 through September 30, Minimum Length-12", Daily Limit-2, Artificial lures only |
| 6 | Crystal Pond | Trout, April 1–Oct 15, Daily Limit-5 with no more than 2 longer than 12" | Trout, April 1–Oct 15, Daily Limit-3 with no more than 1 longer than 12" |
| | | (note: this is the existing County-wide trout regulation) | Trout, Oct 16-March 31, Catch and release only |

| Region | Water Name | Current regulation | Proposed regulation |
|--------|-------------------|--|---|
| 8 | PARK STATION POND | Trout, All year, Minimum Length-None, Daily Limit-5 | Trout, All year, Minimum Length-none, Daily Limit-5 with no more than 2 longer than 12" |

The rational for the changes to existing trout special regulations in lakes and ponds are:

- Hards Lake: The Carmans River, a Stocked-Extended trout stream, flows into Hards Lake. Both
 Hards Lake and the Stocked-Extended portion of the Carmans River lie within Southaven
 County Park. To simplify regulations, the trout regulations for Hards Lake were aligned with both
 the same harvest regulation as the Carmans River (Rainbow and Brown Trout, April 1 through
 October 15, Daily limit-3 with no more than 1 longer than 12") and the brook trout catch-andrelease regulation.
- <u>Catskill Brook Trout Ponds</u>: Brook trout ponds in the Catskill Mountains are a scarce resource
 with only the following 6 ponds: Alder Lake, Crystal Lake, Echo Lake, Hodge Pond, Huggins
 Lake and Trout Pond (Cables Lake). Special regulations will remain in place to provide
 additional protections to these regionally scarce resources; however, the regulations were
 slightly modified to align the special regulations in Region 3 and 4 brook trout ponds.
- <u>Pepacton Reservoir</u>: The season for Pepacton Reservoir was extended to October 15 to align the harvest season with its tributary harvest season. The rest of the special regulation was retained to provide a trophy fishery.
- <u>Crystal Pond</u>: Crystal Pond is a small pond with ample Public Fishing Rights that bisects the Wild-Quality reach of the Crystal Creek. Because the trout in Crystal Pond are a result of the wild trout population in Crystal Creek, Crystal Pond is proposed to be regulated with the same regulations as a Stocked-Extended trout stream.
- Park Station Pond: Park Station Pond occasionally receives surplus brook trout brood stock that have no reproduction potential in the pond. Therefore, all species of trout, including brook trout, are permitted to be harvested all year at the proposed '5 trout with no more than 2 longer than 12" regulation.

Retained ponded trout water regulations

Thirteen individual lake and pond trout regulations are proposed to be retained (not changed). Regulations that were retained and the rational for retaining those special regulations are as follows:

Table 3: Retained Ponded trout water regulations

| Region | Water Name | Retained regulation | Rationale for retention |
|--------|---|---|---|
| 1 | LAUREL LAKE | Trout, All year, Minimum Length-12", Daily Limit-3 | Laurel Lake and Deep Pond are the only ponds on Long Island |
| 1 | Deep Pond | Trout, All year, Minimum Length-12", Daily Limit-3 | that produces trout up to 20". Regulation retained to maintain this scare resource. |
| 3 | CROTON FALLS RESERVOIR | Trout, All year, Minimum Length-18", Daily Limit-1 | This regulation maintains a trophy fishery. |
| 5 | LAKE CHAMPLAIN AND TRIBUTARIES TO THE 1ST BARRIER | Trout, All year, Minimum Length-12", Daily Limit-3 | Regulation retained for consistency with Vermont on this border water. |

| Region | Water Name | Retained regulation | Rationale for retention |
|--------|--|---|---|
| 5 | LITTLE TUPPER LAKE | Trout, April 1–Oct 15, Catch and Release only, Artificial lures only | Regulation retained because Little Tupper Lake and Rock Pond are original source ponds |
| 5 | ROCK POND (HAMILTON COUNTY) | Trout, April 1–Oct 15, Catch and Release only, Artificial lures only | for the propagated Little Tupper strain of brook trout. These populations are currently imperiled due to the introduction of largemouth bass. |
| 6 | HORN LAKE | Trout, April 1–Oct 15, Minimum Length-None, Daily Limit-3, Artificial lures only | Regulation retained to provide additional protections to the source population of the propagated Horn Lake strain of brook trout. |
| 6 | MASSAWEPIE CONSERVATION EASEMENT - ALL WATERS EXCEPT INLAND TROUT STREAMS (applies to 6 ponds) | Trout, April 1–Oct 15, Minimum Length-12", Daily Limit-3 | Regulation retained to protect easily accessible waters that include hatchery brood stock waters and water with heritage brook trout populations. |

Waters where trout special regulations are proposed to be deleted

Table 4: Ponded waters where trout special regulations in are proposed to be deleted

| Region | Water Name | Regulation proposed to be deleted |
|--------|----------------------------|---|
| 1 | EAST (SWAN) LAKE | Trout, April 1–Nov 30, Minimum Length-10", Daily Limit-3 |
| 3 | AMAWALK RESERVOIR | Trout, All year, Minimum Length-12", Daily Limit-3 |
| 3 | ASHOKAN RESERVOIR | Trout, April 1–Nov 30, Minimum Length-12", Daily Limit-3 |
| 3 | ASKOTI LAKE | Trout, All year, Minimum Length-None, Daily Limit-5 |
| 3 | BLUE LAKE | Trout, All year, Minimum Length-None, Daily Limit-5 |
| 3 | BOG BROOK RESERVOIR | Trout, All year, Minimum Length-12", Daily Limit-3 |
| 3 | BOYD CORNERS RESERVOIR | Trout, All year, Minimum Length-12", Daily Limit-3 |
| 3 | CROSS RIVER RESERVOIR | Trout, All year, Minimum Length-12", Daily Limit-3 |
| 3 | DIVERTING RESERVOIR | Trout, All year, Minimum Length-12", Daily Limit-3 |
| 3 | EAST BRANCH RESERVOIR | Trout, All year, Minimum Length-12", Daily Limit-3 |
| 3 | HESSIAN LAKE | Trout, All year, Minimum Length-None, Daily Limit-5 |
| 3 | HONK LAKE | Trout, April 1–Nov 30, Minimum Length-None, Daily Limit-5 |
| 3 | KENSICO RESERVOIR | Trout, All year, Minimum Length-12", Daily Limit-3 |
| 3 | LAKE GILEAD | Trout, All year, Minimum Length-None, Daily Limit-5 |
| 3 | LAKE GLENEIDA | Trout, All year, Minimum Length-None, Daily Limit-5 |
| 3 | LAKE HUNTINGTON | Trout, All year, Minimum Length-None, Daily Limit-5 |
| 3 | LOCH SHELDRAKE | Trout, All year, Minimum Length-None, Daily Limit-5 |
| 3 | MIDDLE BRANCH RESERVOIR | Trout, All year, Minimum Length-12", Daily Limit-3 |
| 3 | MONGAUP POND | Trout, All year, Minimum Length-None, Daily Limit-5 |

| Region | Water Name | Regulation proposed to be deleted |
|--------|------------------------------------|--|
| 3 | MORGAN LAKE | Trout, All year, Minimum Length-None, Daily Limit-3 |
| 3 | MUSCOOT RESERVOIR | Trout, All year, Minimum Length-12", Daily Limit-3 |
| 3 | NEVERSINK RESERVOIR | Trout, April 1–Oct 15, Minimum Length-12", Daily Limit-3 |
| 3 | NEW CROTON RESERVOIR | Trout, All year, Minimum Length-12", Daily Limit-3 |
| 3 | ROUND LAKE (ORANGE COUNTY) | Trout, All year, Minimum Length-None, Daily Limit-5 |
| 3 | ROUNDOUT RESERVOIR | Trout, April 1–Nov 30, Minimum Length-12", Daily Limit-3 |
| 3 | SKANNATATI LAKE | Trout, All year, Minimum Length-None, Daily Limit-5 |
| 3 | SYLVAN LAKE | Trout, All year, Minimum Length-None, Daily Limit-5 |
| 3 | TITICUS RESERVOIR | Trout, All year, Minimum Length-12", Daily Limit-3 |
| 3 | UPTON LAKE | Trout, All year, Minimum Length-None, Daily Limit-5 |
| 3 | WALTON LAKE | Trout, All year, Minimum Length-None, Daily Limit-5 |
| 3 | WEST BRANCH RESERVOIR | Trout, All year, Minimum Length-12", Daily Limit-3 |
| 3 | WHITE LAKE | Trout, All year, Minimum Length-None, Daily Limit-5 |
| 4 | ARNOLD LAKE | Trout, All year, Minimum Length-12", Daily Limit-3 |
| 4, 6 | BEARDSLEY LAKE | Trout, All year, Minimum Length-12", Daily Limit-3 |
| 4 | BIG POND | Trout, All year, Minimum Length-12", Daily Limit-3 |
| 4 | CANNONSVILLE RESERVOIR | Trout, April 1–Oct 15, Minimum Length-12", Daily Limit-3 |
| 4 | COLGATE LAKE | Trout, All year, Minimum Length-9", Daily Limit-3 |
| 4 | GILBERT LAKE | Trout, April 1–Nov 30, Minimum Length-12", Daily Limit-3 |
| 4 | GLASS LAKE | Trout, All year, Minimum Length-12", Daily Limit-3 |
| 4 | GREENS LAKE | Trout, All year, Minimum Length-12", Daily Limit-3 |
| 4 | HOLDING POND | Trout, April 1–Oct 15, Minimum Length-10", Daily Limit-3 |
| 4 | LITTLE POND | Trout, All year, Minimum Length-12", Daily Limit-3 |
| 4 | LONG POND (RENSSELAER COUNTY) | Trout, All year, Minimum Length-12", Daily Limit-3 |
| 4 | MALLET POND | Trout, All year, Minimum Length-12", Daily Limit-3 |
| 4 | MUD POND (TOWN OF COLCHESTER) | Trout, April 1–Oct 15, Minimum Length-12", Daily Limit-3 |
| 4 | QUEECHY LAKE | Trout, All year, Minimum Length-12", Daily Limit-3 |
| 4 | SCHOHARIE RESERVOIR | Trout, All year, Minimum Length-12", Daily Limit-3 |
| 4 | SECOND POND (RENSSELAER COUNTY) | Trout, All year, Minimum Length-12", Daily Limit-3 |
| 4 | THOMPSONS LAKE | Trout, All year, Minimum Length-12", Daily Limit-3 |
| 5 | BLUE MOUNTAIN LAKE | Trout, All year, Minimum Length-None, Daily Limit-5 |
| 5 | BRANT LAKE | Trout, All year, Minimum Length-None, Daily Limit-5 |
| 5 | BRANT LAKE MILL POND | Trout, All year, Minimum Length-None, Daily Limit-5 |
| 5 | BRANT LAKE OUTLET | Trout, All year, Minimum Length-None, Daily Limit-5 |
