

Given recent school closures and the cancellation of spring testing, the Indiana Department of Education (IDOE) partnered with MetaMetrics to estimate students' projected Lexile® and Quantile® measures to help schools anticipate students' potential achievement and any curricular demands that may be placed on students once schools reopen. The scheduled informational sessions will provide guidance related to the frameworks, available resources, and the estimated measures for Indiana students.

No registration is required, but space is limited to 300 participants per session on a first-come, first-served basis the day of the session (links in table). Please contact the Office of Student Assessment at INassessments@doe.in.gov with any questions.
