COVID Frequently Asked Questions

When can I get vaccinated?

Do I need insurance?

Which form do I fill out?

Will there be a "super site" for vaccinations?

Can I volunteer to help?

Can I get vaccinated with my spouse?

What phase are we in?

Is there transportation to get to a vaccination site?

Which vaccine are you using?

QUESTIONS?

Ask us!

AskMayorMartin@stamfordct.gov

Q&A: AskMayorMartin@stamfordct.gov

Lynn asks:

"Is it possible to schedule an appointment based on the brand of vaccine offered (Pfizer vs. Moderna vs. Johnson & Johnson)?"

Answer:

You cannot choose your vaccine.

All approved vaccines have proven extremely effective at preventing serious disease, hospital admissions, and death. Pfizer and Moderna require two vaccinations 3 to 4 weeks apart . . . J&J is "one and done". None have serious side effects. And all are free.

Health experts recommend getting the first vaccine that you can.

Q&A: AskMayorMartin@stamfordct.gov

Tony asks:

"I am 45 years old and attempted to book an appointment once I became eligible but there are no appointments for over a week. Why are there no appointments?"

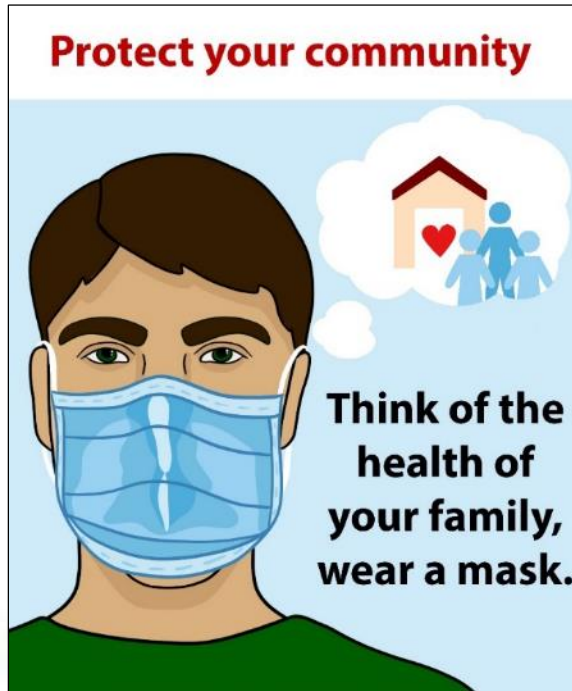

Answer:

Vaccination appointments are based on anticipated vaccine supply.

The federal government has announced they've ordered enough supply to vaccinate every person in the country and that supply will be available to CT in the coming weeks. Vaccines are disseminated through the State Department of Health — who we continue to receive vaccines from every week. We appreciate the public's patience as we continue this rollout.

Vaccines are rolling out...

...but COVID-19 is still a concern!

Wear Mask Over Nose & Mouth

Social Distancing

Frequent Handwashing
