The Office of Los Angeles County Supervisor Holly J. Mitchell is looking for a small team of talented students that are interested in working with our policy teams this summer to serve over two million constituents of the Second Supervisorial District. Equity is at the center of our public service. Our interns must be committed to building on the progress LA County has made to address injustices that impact our communities.

Each intern will work directly with a Senior Policy Deputy and will have the opportunity to work closely on a focus project over the summer. The intern will also have the opportunity to work with other members of the Second District team who focus in other areas of policy, legal affairs, operations, communications, and constituent engagement. Interns will be invited to participate in internal team meetings to learn about Board office operations and in meeting with County department officials to learn more about County services.

The focus areas for our Summer Internships in 2023 are:

- Environmental Justice
- Economic Development
- Participatory Budgeting
- Transportation Policy

All applicants will be considered for employment without regard to their race, religion, sexual orientation, gender identity, national original, or disability status.
