

INDIANA SUPREME COURT

Office of Court Services Education Division

The IOCS Education Division ensures that Indiana is served by well-trained judges and judicial branch staff. A combination of in-person training programs in Indianapolis, regional or county workshops, and distance education courses provide a blended learning environment.

A NEW WAY TO TAKE ONLINE COURSES

Indiana Judicial Branch Education Network

The Indiana Office of Court Services will soon begin a phased roll out of the **Indiana Judicial Branch Education Network**, replacing the Indiana Courts Education Network for hosting online learning. The new system will allow IOCS to better meet the on-demand educational needs of all audiences.

During the roll out, there will be a period in which ICEN courses will be inaccessible to specific user groups while transferring data to the new system. Notifications will be sent when accounts are deactivated in ICEN and once the new system is available. Following completion of the roll out, IOCS on-demand education content will be available on the Network.
