

Out Teach Professional Learning

Virtual PD Opportunity “Science and Literacy in the REAL World”

- 1 Learn how take students outdoors and explicitly use literacy strategies to support content understanding.
- 2 Provide experiences which increase students’ ability to improve their scientific literacy and to read, understand, and interpret science.
- 3 Promote science skill-building such as arguing from evidence, communicating and evaluation information, and constructing explanations.

Connecting Science & Literacy to Real World Learning

In Part 1, you’ll use engaging blended learning and incorporate fictional text into the study of Earth’s cycles and systems.

In Part 2, you’ll create challenging phenomena-based learning experiences utilizing the Claim-Evidence-Reasoning Model for your students.

Select from 3 Options:

- October – 19th & 21st bit.ly/OutTeachLit-Oct
- November – 2nd & 4th bit.ly/OutTeachLit-Nov
- December – 7th & 9th bit.ly/OutTeachLit-Dec

Each virtual training runs two afternoons, from 3:30-5:30 PM ET. Monthly trainings cover the same content. Registration is limited- Sign up now!

Participation in this workshop qualifies for

- 4 hours of NC CE credit
- 4 hours toward your NC EE Certification!
