

on developing a non-technical document and structure for public information workshops, focusing on the approach used for the Council's example Fishery Ecosystem Plan for Georges Bank. Finally, the Council will receive an overview of NMFS's Modernizing Recreational Fisheries Management Act of 2018 Report to Congress and approve Council comment. Following these actions, the Council will adjourn for the day.

Wednesday, December 4, 2019

The Council will begin the day with a NEFSC presentation on the peer-reviewed results of the 2019 operational assessments for 14 Northeast multispecies (groundfish) stocks. Next, the Scientific and Statistical Committee (SSC) will provide the Council with overfishing limit (OFL) and ABC recommendations for those 14 groundfish stocks for fishing years 2020–22, as well as OFL and ABC recommendations for Atlantic sea scallops for fishing year 2020 with default specifications for 2021. The Groundfish Committee report will be next with three items. First, the Council will take final action on Framework Adjustment 59 to the Northeast Multispecies FMP. The framework includes: (1) 2020 total allowable catches for U.S./Canada stocks of Eastern Georges Bank (GB) cod, Eastern GB haddock, and GB yellowtail flounder; (2) 2020–22 specifications for 15 stocks, addressing commercial/recreational allocation if raised by data from the Marine Recreational Information Program (MRIP); and (3) removal of the allocation to the Closed Area I Haddock Special Access Program. This discussion will be followed by a progress report on Groundfish Monitoring Amendment 23, and then the Council will receive a summary of the input gathered during a series of public listening sessions that were conducted to gauge whether the Council should pursue developing a limited access program for the groundfish party/charter fishery.

Following the lunch break, the Council will continue its groundfish deliberations until all business is concluded. Then, the Council will receive a report on GARFO's October 2019 New England Recreational Fishing Workshops. After that, the Council will adjourn for the day.

Thursday, December 5, 2019

The third day of the meeting will begin with a discussion of Council priorities. The Council will take final action on 2020 priorities covering tasks and actions for all committees and

Council responsibilities. Next, the Council will take up the Scallop Committee Report, which will cover two items. First, the Council will take final action on Framework Adjustment 32 to the Atlantic Sea Scallop FMP. This framework includes fishing year 2020 specifications, 2021 default specifications, and measures to mitigate impacts on Georges Bank yellowtail flounder. The Council also is working on Amendment 21 to the FMP, which is being developed to address: (1) Northern Gulf of Maine (NGOM) Management Area issues, (2) the Limited Access General Category (LAGC) possession limit, and (3) the one-way transfer of individual fishing quota (IFQ) from Limited Access vessels with LAGC IFQ to vessels that only hold LAGC IFQ permits. As part of this action, the Council will discuss whether or not to ask NMFS to publish a control date to restrict movement between LAGC permit categories. The Council may take action on this item.

Following the lunch break, the Council will receive a habitat report with updates on: (1) Ongoing offshore energy activities in the Northeast Region; and (2) habitat-related work. Next, the Council will receive a presentation from Cornell Cooperative Extension on its technology transfer program for small-mesh fishermen to utilize large-mesh belly panels to reduce bycatch of Georges Bank yellowtail flounder. This will be followed by the Council's small-mesh multispecies (whiting) report, which will focus on action being taken to rebuild southern red hake. Finally, the Council will close out the meeting with "other business."

Although non-emergency issues not contained on this agenda may come before the Council for discussion, those issues may not be the subject of formal action during this meeting. Council action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the Council's intent to take final action to address the emergency. The public also should be aware that the meeting will be recorded. Consistent with 16 U.S.C. 1852, a copy of the recording is available upon request.

To address the needs of these consumers, OCA has developed two initiatives that target intermediary organizations and provide tools, training, technical assistance, and other services to help them reach low-income and economically vulnerable consumers to provide them the financial empowerment tools and information that they need, when they need it, where they are. These initiatives: (1) Your Money, Your Goals, and (2) Tax Time Savings both require the Bureau to engage organizations to participate in our financial empowerment initiatives.
