

Your primary care clinic is invited to participate in an ORPRN project to address substance use disorders.

ANTECEDENT

PARTNERSHIPS TO ENHANCE
ALCOHOL SCREENING,
TREATMENT AND INTERVENTION

ANTECEDENT addresses unhealthy alcohol use in primary care. ANTECEDENT is aligned with the Oregon Health Authority (OHA) Coordinated Care Organization (CCO) **incentive metric** for Screening, Brief Intervention, and Referral to Treatment (**SBIRT**) for unhealthy alcohol and drug use. Our team will work with over 80 primary care clinics for 15 months to support **data reporting, clinical workflows, and integrating SBIRT into routine care.**

ORPRN

*Oregon Rural Practice-Based
Research Network*

This project offers a menu of evidence-based activities that will be tailored to meet your clinic's needs.

All ANTECEDENT clinics receive:

- Baseline assessment of SBIRT reporting, workflows, clinic capacity and needs
- Access to SBIRT Oregon intervention toolkit and electronic screening tools
- Exit assessment to report SBIRT performance data

ANTECEDENT clinics may customize supplemental support:

- Monthly quality improvement coaching for up to 12 months (MOC Part IV credit available)
- Access to webinars, motivational interview training, and academic detailing
- Health IT support for SBIRT tracking and reporting

CLINICS CAN INITIATE ANTECEDENT
ACTIVITIES THROUGH NOVEMBER 2021

PINPOINT

IMPROVING PAIN AND OPIOID
MANAGEMENT IN PRIMARY CARE

Nearly 5 Oregonians die **each week** from an opioid overdose and Oregon has one of the **highest rates of prescription opioid misuse** in the United States. **PINPOINT** addresses the opioid overdose epidemic and highlights the need for an interdisciplinary public health approach. Our team will support 60 clinics for 15 months to **address chronic pain management** and **opioid prescribing practices**.

ORPRN

*Oregon Rural Practice-Based
Research Network*

This project offers a menu of evidence-based activities that will be tailored to meet your clinic's needs.

All PINPOINT clinics receive:

- Regional training
- Baseline assessment to understand clinic culture, capacity, and needs
- Implementation toolkit
- Final assessment to evaluate program impacts

PINPOINT clinics may customize supplemental support:

- Monthly quality improvement coaching for up to 12 months (MOC Part IV credit available)
- Interaction with other PINPOINT clinics in a learning collaborative
- Oregon ECHO Network opioid prescribing tele-mentoring program
- Academic detailing (e.g. expert consultation, HIT support, etc.)

CLINICS CAN INITIATE **PINPOINT** ACTIVITIES
THROUGH NOVEMBER 2021
