

Coronavirus: summary of persons being monitored, persons under investigation, and cases

Data through Jun 29, 2020 verified as of Jun 30, 2020 at 09:25 AM

Data in this report are provisional and subject to change.

Monitored persons: people the Florida Department of Health was notified of for possible monitoring because they are a contact of a case, traveled from China, or were identified by the Centers for Disease Control and Prevention (CDC) as a part of a airline/ship contact investigation

| | |
|--|---------------|
| Total reports | 67,060 |
| Total persons of high, medium, or unknown risk | 63,369 |
| High/medium/unknown risk still being monitored | 16,966 |

Persons tested: includes test results received by the Department of Health from the state public health laboratory (BPHL), as well as commercial and hospital laboratories

| | |
|---------------------|------------------|
| Total tested | 1,946,510 |
| Positive | 152,434 |
| Negative | 1,792,561 |
| Inconclusive | 1,515 |
| Awaiting testing | 1,904 |

Confirmed cases

| | |
|-----------------------|----------------|
| Total cases | 152,434 |
| Florida residents | 149,781 |
| Non-Florida residents | 2,653 |

Type of testing

| | |
|-------------------------------------|---------|
| Florida residents | |
| Confirmed by BPHL/CDC | 6,983 |
| Positive by commercial/hospital lab | 142,798 |
| Non-Florida residents | |
| Confirmed by BPHL/CDC | 152 |
| Positive by commercial/hospital lab | 2,501 |

Characteristics

| | |
|--------------------------------|--------|
| Florida residents hospitalized | 14,580 |
| Florida resident deaths | 3,505 |
| Non-Florida resident deaths | 99 |

Hospitalized counts include anyone who was hospitalized at some point during their illness. It does not reflect the number of people currently hospitalized.

Risk factors for Florida residents

| | |
|--|--------|
| Traveled | 2,504 |
| Contact with confirmed case | 52,063 |
| Traveled and contact with confirmed case | 2,459 |
| Neither | 92,755 |
| No travel and no contact | 18,419 |
| Travel is unknown | 56,896 |
| Contact is unknown | 23,464 |
| Contact is pending | 49,273 |

Travel can be unknown and contact can be unknown or pending for the same case, these numbers will sum to more than the "neither" total.

Coronavirus: cases and laboratory testing over time

Data through Jun 29, 2020 verified as of Jun 30, 2020 at 09:25 AM

Data in this report are provisional and subject to change.

Cases confirmed in Florida residents per day for the past 2 weeks

Number of cases per day

Median age of cases by day

Laboratory testing for Florida residents and non-Florida residents over the past 2 weeks

Number of people tested per day

These counts include the number of people for whom the department received laboratory results by day. People tested on multiple days will be included for each day a new result was received. A person is only counted once for each day they are tested, regardless of whether multiple specimens are tested or multiple results are received.

Number and percent of positive labs

The percent of positive results ranged from 8.97% to 18.40% over the past 2 weeks and was 16.82% yesterday.

These counts include the number of people for whom the department received laboratory results by day. People tested on multiple days will be included for each day a new result was received. A person is only counted once for each day they are tested, regardless of whether multiple specimens are tested or multiple results are received. If a person has a positive specimen and a negative specimen in the same day, only the positive result is counted.

Percent positivity for new cases

The percent of positive results ranged from 7.73% to 15.85% over the past 2 weeks and was 14.57% yesterday.

This percent is the number of people who test positive for the first time divided by all the people tested that day, excluding people who have previously tested positive.

Coronavirus: characteristics of 149,781 Florida resident cases

Data through Jun 29, 2020 verified as of Jun 30, 2020 at 09:25 AM

Data in this report are provisional and subject to change.

Coronavirus: characteristics of 149,781 Florida resident cases

Data through Jun 29, 2020 verified as of Jun 30, 2020 at 09:25 AM

Data in this report are provisional and subject to change.

The table below includes the cities and counties of residence for cases in Florida residents based on the patient's ZIP Code.

Note that city is not always received as part of the initial notification and may be missing while the case is being investigated.

| City and county | Cases |
|------------------------------------|----------------|
| Dowling Park, Suwannee | 1 |
| Eaton Park, Polk | 1 |
| Cypress Gardens, Polk | 1 |
| Buena Ventura Lakes, Osceola | 1 |
| South Palm Beach, Palm Beach | 1 |
| Union Park, Orange | 1 |
| Virginia Gardens, Dade | 1 |
| Wakulla Springs, Wakulla | 1 |
| Thanonassass, Hillsborough | 1 |
| Westchase, Hillsborough | 1 |
| Unknown Out Of Area, Palm Beach | 1 |
| West Delray Beach, Palm Beach | 1 |
| West Palm Beach, Unknown | 1 |
| Perrine, Dade | 1 |
| Point Washington, Walton | 1 |
| Mount Dora, Orange | 1 |
| New Church, Palm Beach | 1 |
| Pasadena, Pinellas | 1 |
| Pensacola Naval Hospital, Escambia | 1 |
| Litchfield Park, Unknown | 1 |
| Altamonte Springs, Orange | 1 |
| Apo, Collier | 1 |
| Celebration, Orange | 1 |
| Franklin, Orange | 1 |
| Lake Butler, Bradford | 1 |
| Total | 149,781 |

Coronavirus: additional surveillance information

Data through Jun 29, 2020 verified as of Jun 30, 2020 at 09:25 AM

Data in this report are provisional and subject to change.

Statewide emergency department (ED) chief complaint and admission data

Daily percent of ED visits statewide that mention cough by age group

The Electronic Surveillance System for the Early Notification of Community-Based Epidemics (ESSENCE-FL) includes chief complaint data from 211 of 212 Florida EDs. Data are transmitted electronically to ESSENCE-FL daily or hourly.

Coronavirus: All persons with tests reported

Data through Jun 29, 2020 verified as of Jun 30, 2020 at 09:25 AM

Data in this report are provisional and subject to change.

The table below includes persons with laboratory results that the Department of Health has received electronically or by mail/fax for Florida residents and non-Florida residents.

| County | Awaiting testing | Inconclusive | Negative | Positive | Percent positive | Total tested |

Coronavirus: testing by laboratory

Data through Jun 29, 2020 verified as of Jun 30, 2020 at 09:25 AM

Data in this report are provisional and subject to change.

The numbers in the table below represent the number for whom test results were received by the Department of Health. A person can be tested by more than one laboratory and can have both positive and negative results. **Therefore, the sum of the numbers in each column will be larger than the total number of people tested.**

Coronavirus: testing by laboratory

Data through Jun 29, 2020 verified as of Jun 30, 2020 at 09:25 AM

Data in this report are provisional and subject to change.

The numbers in the table below represent the number for whom test results were received by the Department of Health. A person can be tested by more than one laboratory and can have both positive and negative results. **Therefore, the sum of the numbers in each column will be larger than the total number of people tested.**

Coronavirus: testing by laboratory

Data through Jun 29, 2020 verified as of Jun 30, 2020 at 09:25 AM

Data in this report are provisional and subject to change.

The numbers in the table below represent the number for whom test results were received by the Department of Health. A person can be tested by more than one laboratory and can have both positive and negative results. **Therefore, the sum of the numbers in each column will be larger than the total number of people tested.**

| Reporting lab | Inconclusive | Negative | Positive | Percent positive | Total |
