Categorization of New York State Trout Stream Reaches

MARCH 2023

Kathy Hochul, Governor | Basil Seggos, Commissioner

A. Purpose

This document supports the New York State Trout Stream Management Plan (TSMP) (NYSDEC 2020) by providing DEC Fisheries staff and anglers with a current list of the management categories assigned to New York trout stream reaches.

B. Revision/Update Schedule

Revision 3 (March 28, 2023)

Management categories assignments may change as new information (biological, use and access) becomes available. This document will be updated annually in mid-February. This revision contains 59 changes. See section G for details.

C. About Management Categories

The TSMP established five independent categories of trout stream management. The categories make a sharp distinction between wild trout management (three categories) and stocked trout management (two categories). See the TSMP (NYSDEC 2020) for a discussion of each category and the objectives and strategies associated with those categories. These categories apply to inland trout streams. They do not apply to tidal stream reaches and tributary streams to the Great Lakes, Finger Lakes, and Lake Champlain from their mouths to the first impassible barriers.

D. Management Category Criteria

The criteria for assigning management categories to stream reaches are listed in Table 1 for wild trout management categories and Table 2 for stocked trout management categories (NYSDEC 2020).

Table 1. Criteria for Wild Trout Management Categories			
	Wild	Wild Quality	Wild Premier
Access	Public access	Public access	Significant access – at least 3 cumulative miles of reach length in one or more of the following: <ul style="list-style-type: none"> • Public fishing rights • Public land • Public fishing permitted by landowner • Adequate angler parking
Size	Not applicable	Mean width >10 feet	Mean width >20 feet
Stream Reach Quality (Trout Carrying Capacity)	Meets C(T) ¹ or higher water quality standard or data exists to support C(T) classification	<ul style="list-style-type: none"> • wild trout biomass >40 lbs/acre or • ≥ 300 yearling or older trout/mile 	<ul style="list-style-type: none"> • wild trout biomass >60 lbs/acre or ≥ 500 yearling or older trout/mile • abundance of wild trout ≥9 in • potential to catch memorable fish (12" ST, 15" RT or BT)²
Angler Use	Not applicable	Not applicable	Reach can physically and biologically accommodate moderate to high angler use (>150 hr/acre)

Table 2. Criteria for Stocked Trout Management Categories		
	Stocked	Stocked Extended
Access	Access by one or more of the following: <ul style="list-style-type: none"> • Public fishing rights easements • Public land • Public fishing permitted by landowner 	Significant access – at least 3 cumulative miles of reach length in one or more of the following: <ul style="list-style-type: none"> • Public fishing rights • Public land • Public fishing permitted by landowner • Adequate angler parking
Size	Mean width >10 feet	Mean width >20 feet
Stream Reach Quality (Trout Carrying Capacity)	<ul style="list-style-type: none"> • Survival to end of May • Does not already support adequate fisheries for black bass or walleye, even though technically a trout stream • Must meet Bp³ standard 	<ul style="list-style-type: none"> • Reach conditions offer potential for spring-stocked trout to survive into summer • Temperatures generally suitable for regular stocking through mid-June or for two consecutive months • Must meet Bs⁴ standard
Angler Use	>75 hours/acre	>150 hours/acre

¹ The C(T) classification applies to waters that support trout and requires evidence of trout presence.

² ST=brook trout, RT= rainbow trout, and BT=brown trout

³ Marginal put and take trout streams with relatively little potential for wild or holdover contribution (Engstrom-Heg 1990).

⁴ Trout streams capable of supporting a spring fishery and some holdover trout, but with habitat deficiencies limiting wild trout (Engstrom-Heg 1990).

E. Verification of public access

The extent of unverified access (informal or assumed access) to trout stream reaches on privately held lands was identified as a problem in the TSMP (NYSDEC 2020). In 2022, DEC Fisheries staff began a systematic statewide effort to verify public fishing access on portions of stocked trout streams traversing lands held in private ownership where access agreements were lacking. The goal of this project is to ensure that “trout raised with state funds will only be stocked into stream reaches where public access is available, and anglers can be directed to accessible locations on those reaches by DEC” (NYSDEC 2023).

Access verification began in 2022 with the following counties: Putnam, Montgomery, Schenectady, Franklin, Saint Lawrence, Tioga, Steuben, Erie. Modifications to reach categories and reach dimensions resulting from this effort are listed in Table 4. Access verification for stocked trout streams in all counties is scheduled for completion in 2025. Project details are available in the Stocked Trout Stream Access Verification Plan – Years 2-4 (NYSDEC 2023).

Road Access Stocking (RAS)

“Road Access Stocking” (RAS) policies were created as part of the Stocked Trout Stream Access Verification Plan – Years 2-4 (NYSDEC 2023). RAS policies are point stockings on a stream that allow for the stocking of a limited number of trout at both bridge crossings and areas where roadways are immediately adjacent to a stream reach (hereafter termed “roadside parcel”). The intent of this new stocking practice is to provide for short-term, put-and-take fisheries within short sections of pool habitat with access posted as “Fishing Permitted.” Instead of eliminating stockings in Stocked reaches with limited public access, RAS policies will provide the public some opportunities to fish on short, sections of private lands deemed publicly accessible. RAS policies can only be established on pre-existing Stocked reaches. Rules for establishing a RAS can be found in the Stocked Trout Stream Access Verification Plan – Years 2-4 (NYSDEC 2023).

F. Management Categories Assigned to Trout Stream Reaches

What is in Table 3

Table 3 contains trout stream reaches that have at least a portion that is publicly accessible and have been assigned one of the following categories: Stocked, Stocked-Extended, Wild-Quality and Wild-Premier. Reaches categorized as Wild with a catch-and-release regulation are also included. Each reach can have a mix of verified public access and private lands. Anglers should respect private property and any posting of private property.

Wild and Un-categorized trout stream reaches

Many trout streams are categorized either as Wild (publicly accessible) or un-categorized (trout streams not in Table 3 that are on private land). Wild trout stream reaches are not listed in Table 3 due to the number of Wild streams, many of which are unnamed headwater streams. If a trout stream reach is not listed, it is likely categorized Wild, uncategorized, or is not defined as an inland trout stream. The stream reach may also be listed in Section F: Table of Management Category Changes as the management category may have changed based on new information.

DEC Regions

Table 3 is organized by NYSDEC Region. The counties contained within DEC Regions is as follows:

Region 1: Nassau and Suffolk counties

Region 2: Brooklyn, Bronx, Manhattan, Queens and Staten Island

Region 3: Dutchess, Orange, Putnam, Rockland, Sullivan, Ulster and Westchester counties

Region 4: Albany, Columbia, Delaware, Greene, Montgomery, Otsego, Rensselaer, Schenectady and Schoharie counties

Region 5: Clinton, Essex, Franklin, Fulton, Hamilton, Saratoga, Warren and Washington counties

Region 6: Herkimer, Jefferson, Lewis, Oneida and St. Lawrence counties

Region 7: Broome, Cayuga, Chenango, Cortland, Madison, Onondaga, Oswego, Tioga and Tompkins counties

Region 8: Chemung, Genesee, Livingston, Monroe, Ontario, Orleans, Schuyler, Seneca, Steuben, Wayne and Yates counties

Region 9: Allegany, Chautauqua, Cattaraugus, Erie, Niagara and Wyoming county

Guide to Table 3

Reach: A stream reach is a segment of stream that shares, at a basic level, a common set of physical and biological characteristics that influence its ability to support trout and trout angling opportunity for the public.

Miles: The miles of the trout stream reach.

Total # of Trout: The total number of trout is the total number of yearlings and 12+ inch trout planned to be stocked.

CR : Management categories marked with a ^{CR} (for Catch and Release) denote trout stream reaches that have a grandfathered year round catch-and-release regulation.

RAS: Management categories marked with a ^{RAS} are Road Access Stocking locations as explained in Section E.

Table 3. Management Categories Assigned to Trout Stream Reaches

Stream	County	Reach Description	Management Category	Miles	Total # of Trout
Region 1					
Carlls River	Suffolk	From Argyle Lake upstream to Southards Pond	Stocked	0.8	541
Carlls River	Suffolk	From Southards Pond upstream to Belmont Lake	Stocked	1.7	370
Carmans River	Suffolk	From cement dam upstream to Yaphank Avenue	Stocked-Extended	1.0	1,536
Region 3					
Amawalk Outlet (Muscoot River)	Westchester	From Muscoot Reservoir upstream to Amawalk Reservoir	Wild-Quality	3.0	-
Amawalk Inlet (Muscoot River)	Westchester	From Amawalk Reservoir upstream to Putnam/Westchester County Line	Stocked	3.1	509
Beaver Brook	Sullivan	From confluence with Delaware River upstream to 1.0 miles upstream of NY Route 97	Stocked	1.2	359
Beaver Kill	Delaware/Sullivan	From the Delaware/Sullivan County line downstream of Roscoe upstream to the Route 206 Bridge	Stocked-Extended	3.6	5,848
Beaver Kill	Sullivan	From the downstream end of the Beaver Kill Campground upstream to 0.5 mile upstream of the Beaver Kill covered bridge at the Beaver Kill Campground	Stocked-Extended	1.7	1,920
Beer Kill	Ulster	From confluence with Sandburg Creek upstream to confluence with West Branch Beer Kill	Stocked	1.8	630
Black Creek	Ulster	From confluence with Hudson River upstream to Valli Road Bridge	Stocked	2.6	350

Stream	County	Reach Description	Management Category	Miles	Total # of Trout
Region 3					
Callicoon Creek	Sullivan	From confluence with Delaware River upstream to confluence with North and East Branch Callicoon Creek	Stocked	1.8	692
Cedar Pond Brook	Rockland	From the Pyngyp Road/Route 210 intersection upstream to the Cedar Flats Road/Route 210 intersection	Wild-Quality	0.8	-
Chestnut Creek	Sullivan	From Reynolds Road upstream to Hilltop Road	Stocked	1.9	509
Cross River	Westchester	From Route 22 upstream to Cross River Reservoir Dam	Stocked	0.8	459
Croton River	Westchester	From New Croton Reservoir Dam downstream 1.0 miles	Stocked	1.0	1,095
Crum Elbow Creek	Dutchess	From 350 yards upstream of Albany Post Road Bridge (Route 9) upstream to 0.5 miles upstream of East Market Street Bridge	Stocked	1.7	433
Crum Elbow Creek	Dutchess	From Greentree Road S Bridge upstream to 0.5 miles upstream of Schultz Hill Road Bridge	Stocked	7.5	1,250
East Branch Callicoon Creek	Sullivan	From confluence with North Branch Callicoon Creek upstream to confluence with Joe Brook	Stocked	0.4	126
East Branch Callicoon Creek	Sullivan	From 0.5 miles downstream of NY Route 17B upstream to confluence with Jones Brook.	Stocked	2.1	783
East Branch Callicoon Creek	Sullivan	From Welsh Road upstream to Mill Street	Stocked	3.8	1,342
East Branch Callicoon Creek	Sullivan	From 350 yards downstream of Briscoe Road upstream to Dewitt Flatts Road	Stocked	1.9	409
East Branch Croton River	Putnam	From confluence with West Branch Croton River upstream to Diverting Reservoir Dam	Stocked-Extended	2.7	5,536
East Branch Croton River	Putnam	From Diverting Reservoir upstream to East Branch Reservoir Dam	Stocked-Extended	2.3	1,536
Esopus Creek	Ulster	From Ashokan Reservoir upstream to confluence with Lost Clove Creek	Wild-Quality	18.5	-
Fishkill Creek	Dutchess	From the downstream end of Madam Brett Park upstream to Washington Ave Bridge	Stocked	3.1	1,114
Fishkill Creek	Dutchess	From confluence with Clove Creek upstream to 0.5 miles upstream of Route 52 Bridge	Stocked	3.2	2,549
Fishkill Creek	Dutchess	From confluence with Whortlekill upstream to Route 55 bridge	Stocked	12.9	3,166
Halfway Brook	Sullivan	From confluence with Delaware River upstream to 420 yards upstream of Proctor Road	Stocked	4.5	1,000
Little Beaverkill	Sullivan	From confluence with Willowemoc Creek upstream to 450 yards downstream of Main Street in Parksville	Stocked	5.4	1,509
Mahwah River	Rockland	From Montebello Road upstream to 0.8 miles upstream of Route 202 crossing	Stocked	3.6	733

Stream	County	Reach Description	Management Category	Miles	Total # of Trout
Region 3					
Mongaup Creek	Sullivan	From confluence with Willowemoc Creek upstream to confluence with the tributary immediately south of the Catskill Fish Hatchery	Wild-Quality	2.1	-
Mongaup River	Sullivan	From 0.6 miles downstream of Route 17B upstream to 600 yards upstream of Route 17B	Stocked	0.9	833
Mongaup River	Sullivan	From confluence with Middle Mongaup River upstream to upstream end of Thompson Park	Stocked	2.6	817
Middle Mongaup River	Sullivan	From confluence with Mongaup River upstream to Stanton Corners Road	Stocked	3.2	680
Mongaup River West Branch	Sullivan	From confluence with Mongaup River upstream 0.5 miles	Stocked	0.5	592
Moodna Creek	Orange	From the Route 32 crossing upstream to 580 yards upstream of I-87 crossing	Stocked	2.8	4,152
Neversink River	Orange	From the Guymard Tpke crossing upstream to the Sullivan/Orange County Line	Stocked-Extended	5.5	6,668
Neversink River	Sullivan	Neversink River and tributaries within the Neversink River Unique Area and owned by the people of the State of New York situated in the Towns of Thompson and Forestburgh and abutting that reach of the Neversink River from the Sullivan/Orange County line upstream to its confluence with Mercer Brook, except any portion thereof where the right to fish is privately owned	Wild ^{CR}	8.9	-
Neversink River	Sullivan	From 1.0 miles downstream of Bridgeville Road upstream to Wynkoop Brook	Stocked-Extended	14.8	8,272
North Branch Callicoon Creek	Sullivan	From the confluence with Callicoon Creek upstream to Gossweyler Pond	Stocked-Extended	5.8	1,912
North Branch Callicoon Creek	Sullivan	From Gossweyler Pond upstream to the first Lower Weissman Road bridge crossing	Wild-Quality	3.6	-
Pascack Brook	Rockland	From W Washington Ave upstream to 500 yards upstream of Pascack Road	Stocked	0.9	411
Peekskill Hollow Brook	Westchester	From dam in Van Cortlandtville upstream to 375 yards downstream of Oscawana Lake Road (Route 20)	Stocked	2.2	609
Peekskill Hollow Brook	Putnam	Brooks Falls Road bridge	Stocked ^{RAS}	0.5	165
Peekskill Hollow Brook	Putnam	Peekskill Hollow Road bridge	Stocked ^{RAS}	0.1	165
Plattekill Creek	Ulster	From 400 yards downstream of Town Road bridge in Mt. Marion upstream to Saugerties Reservoir Dam (Blue Mountain Reservoir)	Stocked	6.9	1,886
Plattekill Creek	Ulster	From Saugerties Reservoir (Blue Mountain Reservoir) upstream 0.5 miles	Stocked	0.5	240

^{CR} Catch and Release regulations apply all year

^{RAS} Road access stocking location only

Stream	County	Reach Description	Management Category	Miles	Total # of Trout
Region 3					
Pocantico River	Westchester	From Old Croton Aqueduct upstream to Old Sleepy Hollow Road Extension	Stocked	1.8	376
Ramapo River	Orange/ Rockland	From the downstream end of H. Pierson Mapes Flat Rock County Park upstream to Arden Valley Road	Stocked-Extended	11.3	7,672
Rochester Creek	Ulster	From the confluence with Rondout Creek upstream to confluence with Mettakahonts Creek	Wild-Quality	6.8	-
Roeliff Jansen Kill	Dutchess	From Turkey Hill Road bridge upstream to 290 yards upstream of Jackson Corners/Mt Ross Road bridge	Stocked	2.4	417
Rondout Creek	Ulster	From 250 yards downstream of Route 44/55 bridge upstream to confluence with Sandburg Creek	Stocked	5.5	3,516
Rondout Creek	Ulster	From Route 55 bridge (near intersection with Sportsman Road) upstream to Route 55 bridge (near intersection with Route 55A)	Stocked	3.8	1,637
Rondout Creek	Ulster	From confluence with Sundown Creek upstream to upstream most crossing of County Route 42	Wild-Quality	6.2	-
Rutgers Creek	Orange	From 800 yards upstream of County Route 22 upstream to 430 yards upstream of Logtown Road	Stocked	10.3	1,725
Sandburg Creek	Ulster	From confluence with Rondout Creek upstream to Arrowhead Road bridge	Stocked	3.3	1,275
Sawkill Creek	Ulster	From Kingston Reservoir Number 1 (Zena Reservoir) upstream to 0.5 miles upstream of Tannery Brook Road bridge	Stocked	4.7	933
Shawangunk Kill	Orange	From 0.6 miles downstream of Ulsterville Road upstream to 660 yards upstream of Carboy Road	Stocked	19.8	3,133
Shingle Kill	Orange	From confluence with Delaware River upstream to Peenpack Trail	Stocked	3.9	480
Sparkill Creek	Rockland	From Route 9W upstream to Spruce Street	Stocked	5.7	400
Sprout Creek	Dutchess	From 440 yards upstream of Broadway Bridge upstream to the Route 82 bridge in Union Vale	Stocked	19.6	3,722
Stone Hill River	Westchester	From confluence with Katonah Brook upstream to 350 yards upstream of Beaver Dam Road	Stocked	1.0	600
Stony Brook	Rockland	From confluence with Ramapo River upstream to 0.5 miles upstream of confluence with Spring Brook	Stocked	2.2	428
Swamp River	Dutchess	From confluence with Ten Mile River upstream to 400 yards upstream of Route 22 bridge	Stocked	2.1	533
Ten Mile River	Dutchess	From 475 yards downstream of Dog Tail Corners Road (Route 22) bridge upstream to 1.0 miles upstream of Reagans Mill Road bridge	Stocked	2.7	2,292

Stream	County	Reach Description	Management Category	Miles	Total # of Trout

Wrights Creek	Cattaraugus	From 0.5 miles downstream of Howe Hill Road upstream to confluence with Unnnamed Tributary near the junction of Bozard Hill Road and Golden Hill Road	Stocked	3.4	426

G. Table of Management Category Changes

Table 4 documents assigned management category changes to trout stream reaches based on the new TSMP. Subsequent changes will be associated with the previous revisions.

Guide to Table 4

Formerly stocked: Represents waters that were stocked with trout in 2020.

UnCat: This abbreviation is for an uncategorized stream reach.

RAS: Road Access Stocking – One or more specific stocking locations retained within a reach lacking sufficient public access for continued management as a *Stocked* reach. See Table 3 for descriptions.

Management priority given to wild trout: Reach does not meet wild trout abundance criterion for the *Wild-Quality* category. However, based on ecological and recreational potential of the reach, DEC judges the benefit of wild trout management to outweigh the benefit of stocking.

Minimum stocking criteria: Trout stream reaches will not be stocked if habitat does not meet minimum criteria or if the calculated stocking number is less than 300 yearling-equivalents (where one 12" trout = 4 yearlings), TSMP (NYSDEC 2020) page 12. Calculated stocking is based on accessible acreage and angler use.

Table 4. Management Categories Assigned to Trout Stream Reaches

Stream	County	Reach Description	Category Change		Change justification	Change Date
			From	To		
Region 1						
Carlls River	Suffolk	P949 Upstream 0.5 Mi	Formerly stocked	Wild	Fails to meet minimum stocking criteria	11/23/20
Carmans River	Suffolk	P855 - P856	Formerly stocked	Wild/UnCat	Insufficient public access	11/23/20
Carmans River	Suffolk	From LIPA transmission lines at Gate G upstream to Yaphank Avenue	WildCR	Stocked-Extended	Match adjacent reach category	3/9/22
Region 3						
Amawalk Outlet (Muscoot River)	Westchester	From Muscoot Reservoir upstream to Amawalk Reservoir	Stocked	Wild-Quality	Trout abundance criterion met	3/24/21

Stream	County	Reach Description	Category Change		Change justification	Change Date
			From	To		
Cedar Pond Brook	Rockland	From the Pyngyp Road/Route 210 intersection upstream to the Cedar Flats Road/Route 210 intersection	Stocked	Wild-Quality	Trout abundance criterion met	3/24/21
East Branch Croton River	Putnam	from Milltown Road upstream to 1.0 miles upstream of Route 311 in Patterson	Stocked	Wild/UnCat	Insufficient public access	3/16/23
East Br Ten Mile River	Sullivan	Mouth - 0.6 Mi Blw P211 (Neweiden Pond)	Formerly stocked	Wild/UnCat	Fails to meet minimum stocking criteria	11/23/20
