**What can I do
today?**

This week it is ...shoes

Monday

Footprints

- Look at the different footprints on the soles of your shoes – what shapes, patterns or pictures can you see?
- Dip your shoe in a shallow puddle or bowl of water and make footprints. How many footprints can you make before the water dries?
- Put on a pair of wellies and dip your foot into some paint in a tray or on a plastic plate. Go for a walk on some rolled out paper or wallpaper. Wellies should be easy to wash clean (take care some paint may stain)
- Why not find some doll or figure shoes and use them to make some printing with different colour paints by stamping them on paper.
