**What can I do
today?**

This week it is.... Teddies

Friday

Teddy Bear sorting

- Gather all your teddies together.
- Can you line up your teddies and sort them all by size, from the biggest to the smallest and then smallest to biggest?
- Can you sort your teddies by colour, put all the teddies that are the same colour into groups?
- You could sort by which ones are wearing clothes.
- Why not try putting them in order from old to new. Can you remember which teddy you were given first?
- You could try to make a rainbow from all the different coloured teddies that you have.
- After sorting them into groups, you could talk to your child about which group has more or less.
- For older children maybe they could make a chart and record the teddies weight. You could use kitchen scales to do this.
- What other ideas for sorting into categories can your child come up with?
