

As we lead this effort across Oregon, the **Distance Learning for All Guiding Principles** will anchor our state in common values and help generate collective action during this time:

- **Ensure safety and wellness.** Students need food, clothing, a safe place to learn and shelter, as well as a sense of care and connection, in order to engage in challenging intellectual work.
- Cultivate connection and relationship. Student connections and relationships with trusted
  adults promote belonging, which is especially important as learning takes place outside of the
  school setting.
- Center in equity and efficacy. Prioritize equity in every decision; build on cultural and linguistic
  assets to inspire learning and promote student efficacy. Consider how decisions and actions
  attend to racial equity and social justice (<u>Oregon Educator Equity Lens</u>). Consider the assets of
  students who experience disability.
- Innovate. Iterate through complex change with a spirit of possibility, centering in deep learning, student agency, and culturally sustaining practices.
