

Local 1-2-1 support for young-onset dementia in North Staffordshire and Stoke on Trent

Over 42,000 people in the UK are living with young-onset dementia

Often the diagnosis comes at a time in your life that you would least expect it but it is possible to live well with dementia as a young person.

You might be concerned about the effects this will have on your family, work, relationships, finances and daily life. You are not alone. We are here to support you and the people who are important to you.

For expert support, help and advice you can call our National Dementia Helpline on 0333 150 3456 or contact Stephanie Fox, your local dementia advisor dedicated to supporting people living with young-onset dementia.
