

a determination of nonregulated status for enhanced grain yield and glufosinate-ammonium resistant DP202216 Maize.

The draft EA was prepared in accordance with (1) NEPA, as amended (42 U.S.C. 4321 *et seq.*), (2) regulations of the Council on Environmental Quality for implementing the procedural provisions of NEPA (40 CFR parts 1500–1508), (3) USDA regulations implementing NEPA (7 CFR part 1b), and (4) APHIS' NEPA Implementing Procedures (7 CFR part 372).

Based on APHIS' analysis of field and laboratory data submitted by Pioneer, references provided in the petition, peer-reviewed publications, information analyzed in the draft EA, the preliminary PPRA, comments provided by the public on the petition, and discussion of issues in the draft EA, APHIS has determined that corn designated as event DP202216 Maize is unlikely to pose a plant pest risk.

We are making available for a 30-day review period our preliminary PPRA and draft EA. The draft EA and preliminary PPRA are available as indicated under **ADDRESSES** and **FOR FURTHER INFORMATION CONTACT** above. Copies of these documents may also be obtained from the person listed under **FOR FURTHER INFORMATION CONTACT**.

After the 30-day review period closes, APHIS will review and evaluate any information received during the 30-day review period. APHIS will revise the preliminary PPRA as necessary and prepare a final EA and, based on the final EA, a NEPA decision document (either a FONSI or a notice of intent to prepare an environmental impact statement).

Authority: 7 U.S.C. 7701–7772 and 7781–7786; 31 U.S.C. 9701; 7 CFR 2.22, 2.80, and 371.3.

Done in Washington, DC, this 15th day of July 2020.

Mark Davidson,

Acting Administrator, Animal and Plant Health Inspection Service.

[Docket No. APHIS–2020–0056]

Notice of Request for Extension of Approval of an Information Collection; South American Cactus Moth; Quarantine and Regulations

ACTION: Extension of approval of an information collection; comment request.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, this notice announces the Animal and Plant Health Inspection Service's intention to request an extension of approval of an information collection associated with the regulations for the interstate movement of regulated articles to prevent the spread of South American cactus moth.

DATES: We will consider all comments that we receive on or before September 14, 2020.

ADDRESSES: You may submit comments by either of the following methods:

- *Federal eRulemaking Portal:* Go to <http://www.regulations.gov/#!docketDetail;D=APHIS-2020-0056>.
- *Postal Mail/Commercial Delivery:* Send your comment to Docket No. APHIS–2020–0056, Regulatory Analysis and Development, PPD, APHIS, Station 3A–03.8, 4700 River Road, Unit 118, Riverdale, MD 20737–1238.

Supporting documents and any comments we receive on this docket may be viewed at <http://www.regulations.gov/#!docketDetail;D=APHIS-2020-0056> or in our reading room, which is located in Room 1141 of the USDA South Building, 14th Street and Independence Avenue SW, Washington, DC. Normal reading room hours are 8 a.m. to 4:30 p.m., Monday through Friday, except holidays. To be sure someone is there to help you, please call (202) 799–7039 before coming.

FOR FURTHER INFORMATION CONTACT: For information on the regulations for the interstate movement of regulated articles to prevent the spread of South American cactus moth, contact Dr. Herb Bolton, National Policy Manager, PPQ, APHIS, 4700 River Road, Unit 26, Riverdale, MD 20737; (301) 851–3594; herbert.bolton@usda.gov. For information on the information collection process, contact Mr. Joseph Moxey, APHIS Information Collection Coordinator, at (301) 851–2483; joseph.moxey@usda.gov.

SUPPLEMENTARY INFORMATION:

Title: South American Cactus Moth; Quarantine and Regulations.

OMB Control Number: 0579–0337.

Type of Request: Extension of approval of an information collection.

Abstract: As authorized by the Plant Protection Act (PPA, 7 U.S.C. 7701 *et seq.*), the Secretary of Agriculture, either independently or in cooperation with States, may carry out operations or measures to detect, eradicate, suppress, control, prevent, or retard the spread of plant pests that are new to or not widely distributed within the United States. This authority has been delegated to the Animal and Plant Health Inspection Service (APHIS) of the U.S. Department of Agriculture, which administers regulations to implement the PPA.

In accordance with the regulations in “Subpart K—South American Cactus Moth” (7 CFR 301.55 through 301.55–9), APHIS restricts the interstate movement of cactus moth host material, including nursery stock and plant parts for consumption, from infested areas of the United States to help prevent the spread of South American cactus moth into noninfested areas of the United States. The regulations contain requirements for the interstate movement of regulated articles and involve information collection activities, including completion of Federal certificates, compliance agreements, and limited permits.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; *e.g.*, permitting electronic submission of responses.

Estimate of burden: The public burden for this collection of information is estimated to average 0.41 hours per response.

Respondents: State plant health officials and businesses.

Estimated annual number of respondents: 6.

Estimated annual number of responses per respondent: 7.

Estimated annual number of responses: 39.

Estimated total annual burden on respondents: 16 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 15th day of July 2020.

Mark Davidson,

Acting Administrator, Animal and Plant Health Inspection Service.

Animal and Plant Health Inspection Service

[Docket No. APHIS-2020-0057]

Notice of Request for Extension of Approval of an Information Collection; Export Certification: Accreditation of Nongovernment Facilities

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Extension of approval of an information collection; comment request.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, this notice announces the Animal and Plant Health Inspection Service's intention to request an extension of approval of an information collection associated with accrediting nongovernment facilities to perform services related to the export of plants or plant products.

DATES: We will consider all comments that we receive on or before September 18, 2020.

ADDRESSES: You may submit comments by either of the following methods:

- *Federal eRulemaking Portal:* Go to <http://www.regulations.gov/#!docketDetail;D=APHIS-2020-0057>.
- *Postal Mail/Commercial Delivery:* Send your comment to Docket No. APHIS-2020-0057, Regulatory Analysis and Development, PPD, APHIS, Station 3A-03.8, 4700 River Road Unit 118, Riverdale, MD 20737-1238.

Supporting documents and any comments we receive on this docket

may be viewed at <http://www.regulations.gov/#!docketDetail;D=APHIS-2020-0057> or

in our reading room, which is located in Room 1141 of the USDA South Building, 14th Street and Independence Avenue SW, Washington, DC. Normal reading room hours are 8 a.m. to 4:30 p.m., Monday through Friday, except holidays. To be sure someone is there to help you, please call (202) 799-7039 before coming.

FOR FURTHER INFORMATION CONTACT: For information on accrediting nongovernment facilities to perform plant related export services, contact Ms. Sarika Negi, Accreditation and Certification Policy Manager, Phytosanitary Issues Management, PPQ, APHIS, 4700 River Road, Unit 140, Riverdale, MD 20737; (301) 851-2349. For information on the information collection process, contact Mr. Joseph Moxey, APHIS Information Collection Coordinator, at (301) 851-2483; joseph.moxey@usda.gov.

SUPPLEMENTARY INFORMATION:

Title: Export Certification: Accreditation of Nongovernment Facilities.

OMB Control Number: 0579-0130.

Type of Request: Extension of approval of an information collection.

Abstract: The Animal and Plant Health Inspection Service (APHIS), among other things, provides export certification services to assure other countries that the plants and plant products they are receiving from the United States are free of plant pests specified by the receiving country. This activity is authorized by the Plant Protection Act (7 U.S.C. 7701 *et seq.*).

The export certification regulations, which are contained in 7 CFR part 353, describe the procedures for obtaining certification for plants and plant products offered for export or reexport. Our regulations do not require that we engage in export certification activities; however, we perform this work as a service to exporters who are shipping plants or plant products to countries that require phytosanitary certification as a condition of entry.

After assessing the condition of the plants or plant products intended for export (*i.e.*, after conducting a phytosanitary inspection), an inspector will issue an internationally recognized phytosanitary certificate, a phytosanitary certificate for reexport, or an export certificate for processed plant products. An important component of the certification process, when required, is laboratory testing of plant or plant product samples.

The regulations allow nongovernment facilities (such as commercial

laboratories and private inspection services) to be accredited by APHIS to perform specific laboratory testing or phytosanitary inspections that could serve as the basis for issuing Federal phytosanitary certificates, phytosanitary certificates for reexport, or export certificates for processed plant products. The accreditation process requires the use of several information collection activities to ensure that nongovernment facilities applying for accreditation possess the necessary qualifications.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; *e.g.*, permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 3.9 hours per response.

Respondents: U.S. growers, shippers, exporters, and State and local plant health regulatory authorities.

Estimated annual number of respondents: 9.

Estimated annual number of responses per respondent: 6.

Estimated annual number of responses: 54.

Estimated total annual burden on respondents: 209 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.
