**What can I do
today?**

This week it is ...shoes

Thursday

Going to the shoe shop

- Set up a role play shoe shop for your child.
- This is great if your child is a little reluctant to have their feet measured.
- Use a tape measure or even a piece of ribbon or string as your measure.
- Set out a selection of shoes and if you have them, shoe boxes.
- Take turns to be the customer and find the shoes that are just right for you!
- Don't forget to feel where your toes end and go for a walk to check they aren't slipping!
