The Phase I submission, approved November 2016, included recruitment and sampling process data collection activities. The Phase II submission, approved July 2017, included baseline and 18-month follow-up data collection activities.

The proposed new data collection activities will provide national representative data on the characteristics and activities of the workforce in child welfare agencies participating in NSCAW III. Surveys will collect information on workforce characteristics and competencies, training and professional development opportunities, and organizational and agency factors. The surveys will also collect information about the potential impacts of the COVID–19 pandemic on child welfare agency staff and practice.
