SUPPLEMENTARY INFORMATION:

I. Abstract

The Monthly Wholesale Trade Survey (MWTS) provides a continuous measure of monthly sales, end-of-month inventories, and inventories/sales ratios in the United States by selected kinds of business for merchant wholesalers, excluding manufacturers' sales branches and offices. Estimates from the MWTS are released in three different reports each month. High level aggregate estimates for end-of-month inventories are first released as part of the Advance Economic Indicators Report approximately 25 to 29 calendar days after the close of the reference month. The full Monthly Wholesale Trade Report containing both sales and inventories estimates is released approximately 6 weeks after the close of the reference month. Sales and inventories estimates from the MWTS are also released as part of the Manufacturing and Trade Inventories and Sales (MTIS) report issued approximately 6 weeks after the close of the reference month. The Bureau of Economic Analysis uses this information to improve the inventory valuation adjustments applied to estimates of the Gross Domestic Product. The Bureau of Labor Statistics uses the data as input to develop Producer Price Indexes and productivity measurements.

Estimates produced from the MWTS are based on a probability sample and are published on the North American Industry Classification System (NAICS) basis. The sample of 4,200 small, medium, and large wholesale businesses reports monthly on sales and inventories. The sample is drawn from the Business Register, which contains all Employer Identification Numbers (EINs) and listed establishment locations. The sample is updated quarterly to reflect employer business "births" and "deaths." New employer businesses identified in the Business and Professional Classification Survey are added and employer businesses determined to be no longer active are removed.

II. Method of Collection

We contact respondents initially by mailing them the MWTS form. Respondents have the option of reporting their data online, returning the paper form by fax or mail, or giving data

by telephone. After initial contact, respondents have a choice to receive future correspondence by mailed form, faxed notice, or email. The email and faxed notices inform respondents that the online system is open for reporting for the specified reference month.
