

Cumbria County Council  
*Early Years Team*

**What can I do  
today?**

**This week it is...  
...homemade instruments**

## **Thursday**

### **Tambourine**

- Use a paper plate to make a tambourine.
- Use split pins to attach objects that will make a sound. The adult may need to make a hole first in the paper plate for the split pin to go through. Attach the objects loosely as they need to move to make a sound.
- Bottle tops, bells and strings of paperclips all make jingly sounds.
- You could decorate it with ribbons and bows.
- Use your tambourine in your family band!
