**What can I do  
today?**

**This week it is... bubbles**

## **Saturday**

### **Bubble snake**

- Cut the end of a drinks bottle with a sharp pair of scissors (this is an adult job). Once happy the ends are smooth enough, place an old sock or a flannel over the end and secure in place with an elastic band.
- Dip the sock/ flannel end in a shallow bowl of bubble mixture and blow through the mouth of the bottle.
- You have made a bubble snake! How long can you make your snake? You could quickly measure it using duplo blocks or counting how many hands long. Whose is the longest? Shortest? Thinnest? Fattest?
- Can you make different coloured snakes by adding food colouring to the bubble mixture?
