Purpose: WAC 246-335-510, 246-335-545, 246-335-610, 246-335-645 In-Home Services Agencies. This emergency rule continues amendments originally filed August 3, 2021 under WSR 21-16-096 and extended on December 1, 2021 under WSR 21-24-099 and March 31, 2022 under WSR 22-08-044. The Department of Health (department) has also commenced permanent rulemaking on this topic under WSR 21-20-084.

Amendments to WAC 246-335-545 and WAC 246-335-645 remove the requirement that supervision of aide services must be "during an on-site visit" and add language that the supervisory visit "may be conducted on-site or via telemedicine." This will allow home health and hospice agencies to perform supervision either on-site or via telemedicine.

Amendments to the definition of "telemedicine" in WAC 246-335-510 and WAC 246-335-610 clarify that telemedicine applies to both delivery of health care services and supervision of direct care providers. Amendments also clarify how telemedicine may be used.

Federal and state coronavirus disease 2019 (COVID-19) pandemic-related guidelines and department waivers, filed under WSR 20-10-061, currently allow home health and hospice agencies to implement social distancing practices and to limit in-person contact to reduce the spread of the virus. Emergency rules adopted under WSR 21-24-099 align department rule with federal and state guidelines, allowing flexibility in how supervision is performed. Continuing the emergency rule amendments while permanent rulemaking is in progress will extend some aspects of current waivers past the eventual end of the COVID-19 declared emergency as Washington begins recovery.

EMERGENCY RULE

Under RCW 34.05.350 the agency for good cause finds:

- ☒ That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.
☐ That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.

Reasons for this finding: This emergency rule will allow home health and hospice agencies to perform supervision either on-site or via telemedicine.

As Washington continues to combat and recover from the COVID-19 pandemic, home health and hospice agencies need the option to continue conducting supervision via telemedicine when circumstances warrant it.

Supervision via telemedicine is a needed option in rural communities where health services are less available, vaccination rates are lower, and the necessity to limit in-person contact is greater. Home health and hospice agencies need the option to limit unnecessary in-person contact to keep patients and staff as safe as possible. Consistent with the federal "Patients over

"Paperwork" initiative, telemedicine supervisory visits allow hospice and home health nurse supervisors to dedicate more time performing clinical care by focusing on admitting new patients transitioning from institutional level care to a home and community-based setting.
