

APPLY BY JUNE 30

Application open for Fall 2022 KU Tobacco Treatment Specialist Training

SELF-PACED, EIGHT-WEEK COURSE SEPTEMBER 6 - NOVEMBER 4

The University of Kansas School of Medicine is pleased to announce our 2022 Fall Virtual TTS Course

The application is now available on our website. Some scholarships are available for the training with priority given to those who serve behavioral health populations in the state of Kansas. Slots are filling quickly, so apply as soon as possible.

What TTS Graduates Enjoyed Most:

- "I liked that it was self-paced. I enjoyed the recorded lectures. I liked the final [skills building] training."
- "Skills day was awesome. Love info about nicotine replacement therapy - needed this the most personally LOVE the self-paced idea."
- "Well laid out information based on evidence-based approach, resources, short quizzes. I loved the part instructor actually played and went over some websites and links she talked about."
- "Listening to what the other TTS trainees took from the course. Learning at your own pace."
