

COVID-19 AND FLU VACCINE CLINICS WITH THE AUTISM SOCIETY OF MINNESOTA AND MULTICULTURAL AUTISM ACTION NETWORK

Get your child vaccinated and help protect them from COVID-19 and the flu.

The Kid Experts™ at Children's Minnesota are partnering with the Autism Society of Minnesota (AuSM) and Multicultural Autism Action Network (MAAN) to vaccinate children with autism spectrum disorder against COVID-19 and the flu.

Trained specialists from AuSM and MAAN will be onsite at Children's Minnesota's primary care clinics in St. Paul, Maple Grove and Brooklyn Park to provide support and sensory-friendly tools for children during the vaccination process.

Appointments are strongly encouraged. Contact Children's Minnesota to schedule your child's vaccination appointment at our St. Paul, Maple Grove or Brooklyn Park clinics.
