

Cumbria County Council

What can I do this week?

This week it is...Christmas

Thursday – shiny

- Ask your child to collect some shiny and bright objects from around the house and outside. You could hide them to make a treasure hunt.
- Take time to play with these. Chat to your child about the colours and the light shining on the objects.
- Talk about how they feel to touch.
- Younger children may enjoy feeling them. Older children may decide to make them into a pattern or picture.
- Just watch your child and see what they are interested in and chat about it. They are learning with their senses.
- Your child may like to use some of the shiny objects to make a Christmas decoration. The one in the picture was made by sticking tinsel and paper in the lid of a jar and attaching a ribbon.
