

Mandell/IC 9000–0196, Payments to Small Business Subcontractors.

Instructions: All items submitted must cite Information Collection 9000–0196, Payments to Small Business Subcontractors. Comments received generally will be posted without change to <http://www.regulations.gov>, including any personal and/or business confidential information provided. To confirm receipt of your comment(s), please check www.regulations.gov, approximately two-to-three days after submission to verify posting (except allow 30 days for posting of comments submitted by mail).

FOR FURTHER INFORMATION CONTACT:

Zenaida Delgado, Procurement Analyst, at telephone 202–969–7207, or zenaida.delgado@gsa.gov.

SUPPLEMENTARY INFORMATION:

A. OMB Control Number, Title, and Any Associated Form(s)

9000–0196, Payments to Small Business Subcontractors.

B. Need and Uses

This clearance covers the information that contractors must submit to comply with the Federal Acquisition Regulation (FAR) clause at 52.242–5, Payments to Small Business Subcontractors. This clause requires the prime contractor to self-report to the contracting officer when the prime contractor makes late or reduced payments to small business subcontractors. The notice shall include the reason(s) for making the reduced or untimely payment. The contracting officer uses the information to record the identity of contractors with a history of late or reduced payments to small business subcontractors in the Federal Awardee Performance and Integrity Information System (FAPIS). The contracting officer considers and evaluates the contractor's written explanation for a reduced or an untimely payment to determine whether the reduced or untimely payment is justified.

C. Annual Burden

Respondents: 473.

Total Annual Responses: 473.

Total Burden Hours: 946.

Obtaining Copies: Requesters may obtain a copy of the information collection documents from the General Services Administration, Regulatory Secretariat Division (MVCB), 1800 F Street NW, Washington, DC 20405, telephone 202–501–4755. Please cite OMB Control No. 9000–0196, Payments to Small Business Subcontractors, in all correspondence.

Dated: January 28, 2020.

Janet Fry,

*Director, Federal Acquisition Policy Division,
Office of Governmentwide Acquisition Policy,
Office of Acquisition Policy, Office of
Governmentwide Policy.*

**Agency Forms Undergoing Paperwork
Reduction Act Review**

In accordance with the Paperwork Reduction Act of 1995, the Centers for Disease Control and Prevention (CDC) has submitted the information collection request titled Performance Measurement for STD Prevention to the Office of Management and Budget (OMB) for review and approval. CDC previously published a “Proposed Data Collection Submitted for Public Comment and Recommendations” notice on August 13, 2019 to obtain comments from the public and affected agencies. CDC received one comment related to the previous notice. This notice serves to allow an additional 30 days for public and affected agency comments.

CDC will accept all comments for this proposed information collection project. The Office of Management and Budget is particularly interested in comments that:

(a) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(b) Evaluate the accuracy of the agencies estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(c) Enhance the quality, utility, and clarity of the information to be collected;

(d) Minimize the burden of the collection of information on those who are to respond, including, through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses; and

(e) Assess information collection costs.

To request additional information on the proposed project or to obtain a copy of the information collection plan and instruments, call (404) 639–7570 or send an email to omb@cdc.gov. Direct written comments and/or suggestions regarding the items contained in this notice to the Attention: CDC Desk Officer, Office of Management and Budget, 725 17th Street NW, Washington, DC 20503 or by fax to (202) 395–5806. Provide written comments within 30 days of notice publication.

Proposed Project

Performance Measurement for STD Prevention—New—National Center for HIV, Viral Hepatitis, STD, and TB Prevention (NCHHSTP), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

Health departments play a critical role in addressing STD prevention and control and are well-positioned to monitor and understand local trends in STDs through case-based surveillance, and to respond to emerging threats and outbreaks. Health department STD programs also have the authority and skills to conduct disease investigation activities including partner services, an effective intervention to prevent STD transmission in some populations. Given that most STDs are diagnosed outside of public STD clinics, health departments must also work with primary care and other health care providers and organizations to promote the delivery of recommended, evidence-based STD screening, timely treatment, and other prevention services.

Federal support for state, local, and territorial health departments to carry out these functions has been in place for decades and remains a critical source of funding to monitor and fight increasing STDs across the US. CDC's cooperative agreement PS19–1901 STD PCHD (Sexually Transmitted Diseases Prevention and Control for Health Departments) is the latest iteration of this support, covering the five-year period 2019–2024. The cooperative agreement represents a focused scope of work that reflects the core public health functions of assessment, assurance, and policy and aligns with today's STD epidemiology and best practices. In 2019, approximately \$92.5 million dollars were awarded by CDC to 59 state, local, and territorial health departments to carry out these functions.

The goal of this data collection is to guide performance measurement efforts among the 59 health departments that receive funding from CDC to conduct STD surveillance, prevention and

control through cooperative agreement PS19–1901. The purpose is to assess recipients' individual and collective progress towards the larger aims of the cooperative agreement, direct technical assistance to recipients, and obtain information needed to help assess the cooperative agreement's public health impact. The resulting data will be used

to identify areas for improvement both within individual sites and as it pertains to the funded community as a whole, and to document outcomes associated with STD surveillance, prevention, and control efforts.

Data will be collected in aggregate using a Microsoft Excel-based data collection tool. All health department

recipients will be required to submit the data tool annually. The population from which data will be collected is the 59 state, local, and territorial health departments that are funded through the cooperative agreement PS19–1901 STD PCHD. The total annual burden hours are 1,770. There are no other costs to respondents other than their time.

ESTIMATED ANNUALIZED BURDEN HOURS

Type of respondents	Form name	Number of respondents	Number of responses per respondent	Average burden per response (in hours)
State health departments	Data Collection Tool	50	1	30
Local health departments	Data Collection Tool	7	1	30
Territorial health departments	Data Collection Tool	2	1	30

Jeffrey M. Zirger,

Lead, Information Collection Review Office, Office of Scientific Integrity, Office of Science, Centers for Disease Control and Prevention.

Agency Forms Undergoing Paperwork Reduction Act Review

In accordance with the Paperwork Reduction Act of 1995, the Centers for Disease Control and Prevention (CDC) has submitted the information collection request titled Templates for Extramural Data Management Plans to the Office of Management and Budget (OMB) for review and approval. CDC previously published a “Proposed Data Collection Submitted for Public Comment and Recommendations” notice on [insert August 8, 2019] to obtain comments from the public and affected agencies. CDC did not receive comments related to the previous notice. This notice serves to allow an additional 30 days for public and affected agency comments.

CDC will accept all comments for this proposed information collection project. The Office of Management and Budget is particularly interested in comments that:

(a) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(b) Evaluate the accuracy of the agencies estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(c) Enhance the quality, utility, and clarity of the information to be collected;

(d) Minimize the burden of the collection of information on those who are to respond, including, through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses; and

(e) Assess information collection costs.

To request additional information on the proposed project or to obtain a copy of the information collection plan and instruments, call (404) 639–7570 or send an email to omb@cdc.gov. Direct written comments and/or suggestions regarding the items contained in this notice to the Attention: CDC Desk Officer, Office of Management and Budget, 725 17th Street NW, Washington, DC 20503 or by fax to (202) 395–5806. Provide written comments within 30 days of notice publication.

Proposed Project

Templates for Extramural Data Management Plans—New—National

Center for Chronic Disease Prevention and Health Promotion (NCCDPHP), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

Data management plans (DMPs) are required of entities using CDC funds to collect or generate public health data. DMPs will be submitted to CDC by grant and cooperative agreement awardees for assessment to verify that they are concordant with CDC's data sharing policy. Currently, CDC does not have a standard template for a DMP. DMPs can be a checklist, paragraph, or any other format. Due to this fact, CDC has had to refer extramural applicants and recipients to external websites for examples on how to construct a DMP. This new ICR is being developed by CDC's National Center for Chronic Disease Prevention and Health Promotion (NCCDPHP) to create standardized templates for DMPs so that they will be easier to create, easier to review, better ensure compliance with CDC's requirements, and increase the likelihood of first-time approval by project officers. DMPs will be submitted as standalone sections of the NOFO and annual continuation applications; revisions can also be submitted by the awardees whenever needed.

CDC requests approval for 1033 burden hours annually. There are no costs to respondents other than their time.
