

Cumbria County Council

What can I do today?

This week it is... cardboard boxes

Sunday

Be an Artist

- An artist often uses an easel to paint at.
- Make your own easel by folding and taping together a cardboard box.
- The great thing about cardboard easels is that they are light and can be taken anywhere!
- What will you paint? Will you try out your easel in different locations?
- Tape or clip on some paper and get painting/drawing!
- Painting or drawing at the easel will work children's shoulder muscles as they are working at a vertical surface – excellent for developing those early mark making skills!
