Endangered Species Act

No incidental take of ESA-listed species is proposed for authorization or expected to result from this activity. Therefore, NMFS has determined that formal consultation under section 7 of the ESA is not required for this action.

Proposed Renewal IHA and Request for Public Comment

As a result of these preliminary determinations, NMFS proposes to issue a Renewal IHA to Chevron for conducting vibratory and impact pile driving for removal and installation of piles at the Long Wharf in San Francisco Bay, California during the in-water construction window of June 1 through November 30, 2020, provided the previously described mitigation, monitoring, and reporting requirements are incorporated. A draft of the proposed and final 2019 IHA can be found at https://

www.fisheries.noaa.gov/permit/ incidental-take-authorizations-undermarine-mammal-protection-act. We request comment on our analyses, the proposed Renewal IHA, and any other aspect of this Notice. Please include with your comments any supporting data or literature citations to help inform our final decision on the request for MMPA authorization.

Dated: April 30, 2020.

Donna S. Wieting,

Director, Office of Protected Resources, National Marine Fisheries Service. [FR Doc. 2020–09630 Filed 5–5–20; 8:45 am] BILLING CODE 3510–22–P

DEPARTMENT OF ENERGY

Agency Information Collection Extension

AGENCY: Office of Energy Efficiency and Renewable Energy, U.S. Department of Energy (DOE).

ACTION: Submission for Office of Management and Budget (OMB) review; comment request.

SUMMARY: The Department of Energy has submitted an information collection request to the OMB for extension under the provisions of the Paperwork Reduction Act of 1995. The information collection requests a three-year extension of its Clean Cities Vehicle Programs Information Collection, OMB Control Number 1910–5171.

DATES: Comments regarding this proposed information collection must be received on or before June 5, 2020. If you anticipate difficulty in submitting comments within that period, contact

the person(s) listed below as soon as possible.

ADDRESSES: Written comments should be sent to the following: DOE Desk Officer, Office of Information and Regulatory Affairs, Office of Management and Budget, New Executive Office Building, Room 10102, 735 17th Street NW, Washington, DC 20503.

And to: Mr. Dennis Smith, Office of Energy Efficiency and Renewable Energy (EE–3V), U.S. Department of Energy, 1000 Independence Avenue SW, Washington, DC 20585–0121, or by fax at 202–586–1600, or by email at Dennis.Smith@ee.doe.gov.

FOR FURTHER INFORMATION CONTACT: Mr. Dennis Smith at *Dennis.Smith*@ *ee.doe.gov* or via 202–586–1791. Please put "2020 DOE Agency Information Collection Renewal-Clean Cities Vehicle Programs" in the subject line when sending an email.

SUPPLEMENTARY INFORMATION: Comments are invited on: (a) Whether the extended collection of information is necessary for the proper performance of the functions of DOE, including whether the information shall have practical utility; (b) the accuracy of DOE's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

The Department of Energy is proposing to extend an information collection pursuant to the Paperwork Reduction Act of 1995. The approved collection is being used for three Clean Cities programmatic efforts. The first initiative is the collection of information for a voluntary plug-in electric vehicle (PEV) questionnaire that assists communities and DOE Clean Cities coalitions in assessing the level of readiness of their communities for PEVs. The second effort is intended to develop information that enables DOE to review the progress of DOE's National Clean Fleets Partnership (Partnership). The third effort is referred to as "Ride and Drive Surveys". DOE is not proposing to expand the scope of these information collection efforts.

This information collection request contains: (1) OMB No.: 1910–5171; (2) Information Collection Request Title: Clean Cities Vehicle Programs; (3) Type of Review: Renewal; (4) Purpose: DOE's Clean Cities initiative has developed

three voluntary mechanisms by which communities, certain fleets, and the purchasing public can get a better understanding of their readiness for plug-in electric vehicles (PEVs), and to help DOE's Clean Cities coalitions prepare for the adoption of these vehicles review their progress in doing so. The voluntary PEV Scorecard is intended to assist communities and the coalitions in assessing the level of readiness of their communities for PEVs. The principal objectives of the questionnaire are to provide respondents with an objective assessment and estimate of their respective community's readiness for PEVs as well as understand the respective community's goals related to integrating these vehicles, and allow communities to assess the magnitude of gaps in their readiness to achieve their goals. DOE intends the questionnaire to be completed by a city/county/regional sustainability or energy coordinator. As the intended respondent may not be aware of every aspect of local or regional PEV readiness, coordination among local stakeholders to gather appropriate information may be necessary.

DOE expects a total respondent population of approximately 1,250 respondents. Selecting the multiplechoice answers in completing a questionnaire is expected to take under 30 minutes, although additional time of no more than 20 hours may be needed to assemble information necessary to be able to answer the questions, leading to a total burden of approximately 25,625 hours. Assembling information to update questionnaire answers in the future on a voluntary basis would be expected to take less time, on the order of 10 hours, as much of any necessary time and effort needed to research information would have been completed previously.

For the Clean Fleets Partnership information collection, the Partnership is targeted at large, private-sector fleets that own or have contractual control over at least 50 percent of their vehicles and have vehicles operating in multiple States. DOE expects approximately 50 fleets to participate in the Partnership and, as a result, DOE expects a total respondent population of approximately 50 respondents. Providing initial baseline information for each participating fleet, which occurs only once, is expected to take 60 minutes. Follow-up questions and clarifications for the purpose of ensuring accurate analyses are expected to take up to 90 minutes. The total burden is expected to be 125 hours.

For the DOE Clean Cities initiative that involves the ride-and-drive surveys, DOE has developed a three-part voluntary survey to assist its coalitions and stakeholders in assessing the level of interest, understanding, and acceptance of PEVs and alternative fuel vehicles (AFV) by the purchasing public. DOE intends the surveys to be completed by individuals who are participating in one of many ride-anddrive events. There are three phases to the Survey: (1) Pre Ride-and-Drive; (2) post Ride-and-Drive; and (3) a few months/some time later to discern if the respondent followed through with acquisition of a PEV or another AFV. Respondents provide answers in the first two phases through a user-friendly paper survey and on-line survey, and in the third phase they answer questions via an electronic interface, although a paper survey may be used for those lacking access to an electronic device or computer.

The Surveys' effort relies on responses to questions the respondent chooses to answer. The multiple-choice questions address the following topic areas: (1) Demographics; (2) Current vehicle background; (3) How they learned about ride and drive event; (3) Perceptions of PEVs before and after driving; (4) Post-drive vehicle experience; (5) Purchase expectations; (6) Follow-up survey regarding subsequent behaviors; (7) Purchase information; (8) Barriers; and (9) Future intentions. The survey is expected to take 30 minutes, leading to a total burden of approximately 28,250 hours (an increase 2,500 hours above the total burden in hours for the two currently approved collections).

(5) Type of Respondents: Public; (6) Annual Estimated Number of Respondents for all three information collections: 16,300; (7) Annual Estimated Number of Total Responses: 16,300; (7) Annual Estimated Number of Burden Hours: 28,250 (25,625 for PEV Scorecard, 125 for Clean Fleets Partnership, and 2,500 for the Ride and Drive Surveys); and (8) Annual Estimated Reporting and Recordkeeping Cost Burden: There is no cost associated with reporting and recordkeeping.

Statutory Authority: 42 U.S.C. 13233; 42 U.S.C. 13252 (a)–(b); 42 U.S.C. 13255.

Signing Authority

This document of the Department of Energy was signed on April 30, 2020, by David Howell, Program Director, Vehicle Technologies, Office Energy Efficiency and Renewable Energy, pursuant to delegated authority from the Secretary of Energy. That document with the original signature and date is maintained by DOE. For administrative purposes only, and in compliance with requirements of the Office of the Federal Register, the undersigned DOE Federal Register Liaison Officer has been authorized to sign and submit the document in electronic format for publication, as an official document of the Department of Energy. This administrative process in no way alters the legal effect of this document upon publication in the **Federal Register**.

Signed in Washington, DC, on May 1, 2020. Treena V. Garrett,

Federal Register Liaison Officer, U.S. Department of Energy. [FR Doc. 2020–09696 Filed 5–5–20; 8:45 am] BILLING CODE 6450–01–P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. AC20-103-000]

Locke Lord LLP; Notice of Filing

Take notice that on April 28, 2020, Locke Lord LLP submitted a request for confirmation from the Federal Energy Regulatory Commission (Commission) that the cost of specific electric wind and solar generating equipment is properly booked to Uniform System of Accounts Nos. 343, 344 and 345, which pertain to Production Plant.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 or 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or protests must be filed on or before the comment date. On or before the comment date, it is not necessary to serve motions to intervene or protests on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at *http://www.ferc.gov.* Persons unable to file electronically may mail similar pleadings to the Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426. Hand delivered submissions in docketed proceedings should be delivered to Health and Human Services, 12225 Wilkins Avenue, Rockville, Maryland 20852.

In addition to publishing the full text of this document in the Federal **Register**, the Commission provides all interested persons an opportunity to view and/or print the contents of this document via the internet through the Commission's Home Page (http:// ferc.gov) using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. At this time, the Commission has suspended access to the Commission's Public Reference Room, due to the proclamation declaring a National Emergency concerning the Novel Coronavirus Disease (COVID-19), issued by the President on March 13, 2020. For assistance, contact the Federal Energy **Regulatory Commission at** FERCOnlineSupport@ferc.gov or call toll-free, (886) 208-3676 or TYY, (202) 502 - 8659

Comment Date: 5 p.m. Eastern Time on May 28, 2020.

Dated: April 30, 2020.

Kimberly D. Bose,

Secretary.

Combined Notice of Filings #2

Take notice that the Commission received the following electric rate filings:

Docket Numbers: ER20–1607–001. Applicants: PacifiCorp. Description: Tariff Amendment:

Colstrip Trans System LGIA—

Concurrence Broadview Solar—Errata

Filing to be effective 4/9/2020. Filed Date: 4/30/20. Accession Number: 20200430–5287. Comments Due: 5 p.m. ET 5/21/20. Docket Numbers: ER20–1710–000.

Applicants: Rochelle Municipal Utilities, PIM Interconnection, L.L.C.

Description: § 205(d) Rate Filing: City of Rochelle submits Revisions to CTOA to be Removed as a TO to be effective 5/28/2020.

Filed Date: 4/30/20. Accession Number: 20200430–5222. Comments Due: 5 p.m. ET 5/21/20. Docket Numbers: ER20–1711–000. Applicants: PJM Interconnection, L.L.C.

Description: § 205(d) Rate Filing: Amendment to ISA, Service Agreement No. 5466; Queue No. AC2–176 to be effective 8/13/2019.
