Agenda

Commissioners will hold a hearing to discuss the proposed Voluntary Voting System Guidelines (VVSG) 2.0 Requirements as submitted by the Technical Guidelines Development Committee (TGDC). The VVSG 2.0 Requirements are currently published for a 90-day public comment period. Commissioners will hear from a panel of experts who will provide an introduction to the VVSG process as well as a high-level overview of the proposed VVSG 2.0 requirements. Commissioners will also hear from members of the public who wish to offer verbal testimony on the VVSG 2.0 requirements. Public testimony during the hearing will be limited to 3–5 minutes maximum per person. If you would like to participate in public testimony, please contact Jerome Lovato (jlovato@eac.gov) with your full name and phone number no later than 9:50 a.m. Eastern Time on March 27, 2020. For dial-in users, you will be identified by your area code and the last three digits of your phone number, so please provide the phone number that you will use during the hearing.

The TGDC unanimously approved to recommend VVSG 2.0 Requirements on February 7, 2020, and sent the Requirements to the EAC Acting Executive Director via the Director of the National Institute of Standards and Technology (NIST), in the capacity of the Chair of the TGDC on February 28, 2020. Upon adoption, the VVSG 2.0 would become the fifth iteration of national level voting system standards. The Federal Election Commission published the first two sets of federal

standards in 1990 and 2002. The EAC then adopted Version 1.0 of the VVSG on December 13, 2005. In an effort to update and improve version 1.0 of the VVSG, on March 31, 2015, the EAC commissioners unanimously approved VVSG 1.1.

Status: This hearing will be open to the public.

Amanda Joiner,

Associate Counsel, U.S. Election Assistance Commission.

Federal Energy Regulatory Commission

[Docket No. CP19–502–000]

Commonwealth LNG, LLC; Notice Suspending Environmental Review Schedule

The Federal Energy Regulatory Commission (FERC or Commission) is suspending the environmental review schedule for Commonwealth LNG, LLC's (Commonwealth) proposed liquefied natural gas (LNG) export terminal in Cameron Parish, Louisiana. The notice of schedule, issued on October 15, 2019, identified a May 2020 draft Environmental Impact Statement (EIS) issuance date and an October 2,

2020 final EIS issuance date. This schedule was based upon Commonwealth providing complete and timely responses to any data requests. In its February 4, 2020 partial response to staff's January 2, 2020 data request, Commonwealth stated it would provide the remainder of the outstanding responses in stages through July 2020, including an official interpretation from the United States Department of Transportation—Pipeline and Hazardous Material Safety Administration (PHMSA) in June 2020 pertaining to Commonwealth's proposed LNG storage tank design.

Because the outstanding data responses to staff's data request and the issuance of the PHMSA interpretation are expected after the previously announced draft EIS date, the Commission will suspend the environmental review schedule for the project. Once staff has reviewed both the responses and the PHMSA interpretation, the Commission will issue a revised schedule for the draft and final EIS. This is not a suspension of the Commission staff's review of Commonwealth's project. Staff will continue to process Commonwealth's proposal to the extent possible based upon the information Commonwealth has filed to date while awaiting the responses and the PHMSA interpretation.

Additional Information

In order to receive notification of the issuance of the EIS and to keep track of all formal issuances and submittals in specific dockets, the Commission offers a free service called eSubscription. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries, and direct links to the documents. Go to www.ferc.gov/docs-filing/esubscription.asp.
