

million and the overall total value will increase to \$1.81 billion.

(iv) *Significance*: This proposed sale will allow Australia to effectively maintain its current force projection capability that enhances interoperability with U.S. forces well into the future.

(v) *Justification*: This proposed sale supports the foreign policy and national security of the United States by improving the security of an important major non-NATO ally and partner who contributes significantly to peacekeeping, humanitarian, and combat operations around the world.

(vi) *Sensitivity of Technology*: The Infrared Search and Track (IRST) system is a long-wave infrared sensor, integrated on a modified centerline fuel tank, that provides a passive, out-of-band, Alternative Fire Control System (AFCS) capable of detecting, tracking and engaging airborne targets at long range in a heavy Electronic Attack (EA) or radar-denied environment. The IRST Block II is a modified version of the IRST Block I, providing longer range detection over a wider field and enhanced warfighting capability. IRST provides critical capabilities in meeting future threats.

Distributed Targeting Processor—Networked (DTP-N) is an upgrade to the Distributed Targeting System (DTS) providing internet protocol (IP) to the F/A-18E/F and EA-18G, enabling connectivity to advanced tactical networks. The DTP-N upgrade provides the foundation for a majority of the future flight plan strike capabilities, which are related to improved targeting and networking.

DTP-N is networking hardware required for tactical use of IP based waveforms. This upgrade also provides Multi-Level Security (MLS) features, offering new capabilities to the platform through increased security assurances on data separation and data transfer.

Multifunctional Information Distribution System Joint Tactical Radio System (MIDS/JTRS) (6) provides a high capacity, low latency Internet Protocol (IP) based waveform that can quickly transmit large amounts of data. Advanced algorithms allow cooperative detection and engagement of a wider array of targets, improving fused track accuracy and increasing lethality/survivability through Situational Awareness.

(vii) *Date Report Delivered to Congress*: September 12, 2019

Title of Collection: Fiscal Operations Report for 2019–2020 and Application to Participate 2021–2022 (FISAP) and Reallocation Form.

OMB Control Number: 1845–0030.

Type of Review: A revision of an existing information collection.

Respondents/Affected Public: State, Local, and Tribal Governments; Private Sector.

Total Estimated Number of Annual Responses: 3,893.

Abstract: The Higher Education Opportunity Act (HEOA) (Pub. L. 110–315) was enacted on August 14, 2008 and reauthorized the Higher Education Act of 1965, as amended, (HEA). It requires participating Title IV institutions to apply for funds and report expenditures for the Federal Perkins Loan (Perkins), the Federal Supplemental Educational Opportunity Grant (FSEOG) and the Federal Work-Study (FWS) Programs on an annual basis.

The data submitted electronically in the Fiscal Operations Report and Application to Participate (FISAP) is

used by the Department of Education to determine the institution's funding need for the award year and monitor program effectiveness and accountability of fund expenditures. The data is used in conjunction with institutional program reviews to assess the administrative capability and compliance of the applicant. There are no other resources for collecting this data.

The HEA requires that if an institution anticipates not using all of its allocated funds for the FWS, and FSEOG programs by the end of an award year, it must specify the anticipated remaining unused amount to the Secretary, who reduces the institution's allocation accordingly.

The changes to the version of the FISAP update the deadline and award year references, incorporate new data fields added to capture cumulative service cancellation reimbursement activity beginning in the 19–20 award year under the Perkins Loan Program.

Dated: December 13, 2019.

Kate Mullan,

PRA Coordinator, Strategic Collections and Clearance, Governance and Strategy Division, Office of Chief Data Officer.
