- Evaluate whether and if so how the quality, utility, and clarity of the information to be collected can be enhanced; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Overview of this information collection:

(1) *Type of Information Collection:* Extension without change of a currently approved collection.

(2) *The Title of the Form/Collection:* Inventories: Licensed Explosives Importers, Manufacturers, Dealers, and Permittees.

(3) *The agency form number, if any, and the applicable component of the Department sponsoring the collection:* Form number: None.

Component: Bureau of Alcohol, Tobacco, Firearms and Explosives, U.S. Department of Justice.

(4) *Affected public who will be asked or required to respond, as well as a brief abstract:*

Primary: Business or other for-profit.

Other: None.

Abstract: The information collection entitled Inventories: Licensed Explosives Importers, Manufacturers, Dealers, and Permittees, requires that persons engaged in the explosives industry maintain explosive material inventories. The collected information is used by the government to develop audit trails during the course of a compliance inspection or criminal investigation.

(5) *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* An estimated 9,433 respondents will respond to this collection annually, and it will take each respondent approximately 2 hours to provide their responses.

(6) *An estimate of the total public burden (in hours) associated with the collection:* The estimated annual public burden associated with this collection is 18, 866 hours, which is equal to 9,433 (# of responses) * 1 (# of responses per respondent) * 2 (total time in hours to respond to this IC).

(7) *An Explanation of the Change in Estimates:* The adjustment associated with this collection is a decrease in the number of respondents by 483 and a decrease in the total burden hours by 8,950, since the last renewal in 2017. The recalculated burden hours for this collection corresponds with the fact that each respondent responds only once, and now take 2 hours, instead of 1 hour to complete their responses.

SUPPLEMENTARY INFORMATION: DOL, as part of continuing efforts to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies an opportunity to comment on proposed and/or continuing collections of information before submitting them to the Office of Management and Budget (OMB) for final approval. This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements can be properly assessed.

Job Corps is the nation's largest residential, educational, and career technical training program for young Americans. The Economic Opportunity Act established Job Corps in 1964 and it currently operates under the authority of the Workforce Innovation and Opportunity Act (WIOA) of 2014. For over 55 years, Job Corps has helped prepare over three million at-risk young people between the ages of 16 and 24 for success in our nation's workforce. With 121 centers in 50 states, Puerto Rico, and the District of Columbia, Job Corps assists students across the nation in attaining academic credentials, including High School Diplomas (HSD) and/or High School Equivalency (HSE), and career technical training credentials, including industry-recognized certifications, state licensures, and pre-apprenticeship credentials.

Job Corps is a national program administered by DOL through the Office of Job Corps and six regional offices. DOL awards and administers contracts for the recruiting and screening of new students, center operations, and the placement and transitional support of graduates and former enrollees. Large and small corporations manage and

operate 95 Job Corps centers under contractual agreements with DOL. These contract center operators are selected through a competitive procurement process that evaluates potential operators' technical expertise, proposed costs, past performance, and other factors, in accordance with the Competition in Contracting Act and the Federal Acquisition Regulations. Two centers are operated under demonstration grant arrangements. The U.S. Department of Agriculture Forest Service via an interagency agreement operates the remaining 24 Job Corps centers, called Civilian Conservation Centers. DOL has a direct role in the operation of Job Corps, and does not serve as a pass-through agency for this program.
