SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this action apply to me?

You may be potentially affected by this action if you are an agricultural producer, food manufacturer, or pesticide manufacturer. The following list of North American Industrial Classification System (NAICS) codes is not intended to be exhaustive, but rather provides a guide to help readers determine whether this document applies to them. Potentially affected entities may include:

- Crop production (NAICS code 111).
- Animal production (NAICS code 112).
- Food manufacturing (NAICS code 311).
- Pesticide manufacturing (NAICS code 32532).

B. What should I consider as I prepare my comments for EPA?

1. *Submitting CBI.* Do not submit this information to EPA through www.regulations.gov or email. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD-ROM that you mail to EPA, mark the outside of the disk or CD-ROM as CBI and then identify electronically within the disk or CD-ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. *Tips for preparing your comments.* When preparing and submitting your comments, see the commenting tips at <http://www.epa.gov/dockets/comments.html>.

3. *Environmental justice.* EPA seeks to achieve environmental justice, the fair treatment and meaningful involvement of any group, including minority and/or low-income populations, in the development, implementation, and enforcement of environmental laws, regulations, and policies. To help address potential environmental justice issues, the Agency seeks information on any groups or segments of the population who, as a result of their location, cultural practices, or other factors, may have atypical or disproportionately high and adverse human health impacts or environmental effects from exposure to the pesticide discussed in this document, compared to the general population.

II. What action is the Agency taking?

Under section 18 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) (7 U.S.C. 136p), at the discretion of the EPA Administrator, a Federal or State agency may be exempted from any provision of FIFRA if the EPA Administrator determines that emergency conditions exist which require the exemption. The California Department of Pesticide Regulation (CDPR) has requested the EPA Administrator to issue a specific exemption for the use of lambda-cyhalothrin on asparagus to control the European asparagus aphid (EAA). Information in accordance with 40 CFR part 166 was submitted as part of this request.

As part of this request, the applicant asserts that growers are reporting increased pressure from EAA, and with chlorpyrifos banned for use in California, there is no efficacious product to control this pest. CDPR states that uncontrolled EAA infestations will cause significant plant stand reduction and lower asparagus yields, which could threaten the viability of the California asparagus industry if the emergency pest situation is not addressed.

The Applicant proposes to make no more than 2 applications at a maximum rate of 0.03 fluid ounces per acre of lambda-cyhalothrin, on up to 3,000 acres of asparagus grown in the California counties of Colusa, Kern, Merced, Monterey, San Joaquin and Solano from August 1 to October 31, 2020. Treatment of the maximum acreage at the maximum rate would result in a total use of 180 fluid ounces

of lambda-cyhalothrin (90 gallons of formulated product).

This notice does not constitute a decision by EPA on the application itself. The regulations governing FIFRA section 18 require publication of a notice of receipt of an application for a specific exemption proposing a use which is supported by the Inter-Regional Project Number 4 (IR-4) program and has been requested in 5 or more previous years, and a petition for tolerance has not yet been submitted to the Agency. The notice provides an opportunity for public comment on the application. The Agency will review and consider all comments received during the comment period in determining whether to issue the specific exemption requested by the CDPR, as well as any subsequent specific exemption applications submitted by other state lead agencies.

Authority: 7 U.S.C. 136 *et seq.*

Dated: July 29, 2020.

Catherine Aubee,

Acting Director, Registration Division, Office of Pesticide Programs.
