DEPARTMENT OF DEFENSE**Department of the Air Force****[Docket ID USAF-2016-HQ-0005]****Submission for OMB Review;
Comment Request****AGENCY:** Air Force Equal Opportunity
(AF/E.O.) Program, DoD.**ACTION:** 30-Day information collection
notice.**SUMMARY:** The Department of Defense
has submitted to OMB for clearance the
following proposal for collection of
information under the provisions of the
Paperwork Reduction Act.**DATES:** Consideration will be given to all
comments received by August 3, 2020.**ADDRESSES:** Written comments and
recommendations for the proposed
information collection should be sent
within 30 days of publication of this
notice to www.reginfo.gov/public/do/PRAMain. Find this particular
information collection by selecting
“Currently under 30-day Review—Open
for Public Comments” or by using the
search function.**FOR FURTHER INFORMATION CONTACT:**Angela James, 571-372-7574, or
[whs.mc-alex.esd.mbx.dd-dod-
information-collections@mail.mil](mailto:whs.mc-alex.esd.mbx.dd-dod-information-collections@mail.mil).**SUPPLEMENTARY INFORMATION:***Title; Associated Form, and OMB
Number:* AF E.O. IT Systems—
Entellitrack and iComplaints; AF FORM
1271, Equal Opportunity Record of
Assistance/Contact; AF FORM 1587,
Military Equal Opportunity Formal
Complaint Summary; AF FORM 1587-
1, Military Equal Opportunity Informal
Complaint Summary; OMB Control
Number 0701-XXXX.*Type of Request:* New.
Number of Respondents: 530.
Responses per Respondent: 1.
Annual Responses: 530.
Average Burden per Response: 2
hours.*Annual Burden Hours:* 1,060 hours.
Needs and Uses: The information
collection requirement is necessary for
the purpose of counseling, processing,investigating and adjudicating
complaints of unlawful discrimination
brought by AF applicants, former AF
employees, contractors, retirees, and
military dependents. Particularly, the
information is used to investigate and
resolve complaints of unlawful
discrimination and sexual harassment
under the AF Equal Opportunity
Program; and to maintain records
created as a result of the filing of
allegations and appeals involving
unlawful discrimination because of
race, color, religion, sex, national origin,
age, physical/mental disability, or
genetic information.*Affected Public:* Individuals or
households.*Frequency:* On occasion.*Respondent's Obligation:* Voluntary.*OMB Desk Officer:* Ms. Jasmeet
Seehra.You may also submit comments and
recommendations, identified by Docket
ID number and title, by the following
method:

- *Federal eRulemaking Portal:* <http://www.regulations.gov>. Follow the instructions for submitting comments.

Instructions: All submissions received
must include the agency name, Docket
ID number, and title for this **Federal
Register** document. The general policy
for comments and other submissions
from members of the public is to make
these submissions available for public
viewing on the internet at <http://www.regulations.gov> as they are
received without change, including any
personal identifiers or contact
information.*DOD Clearance Officer:* Ms. Angela
James.Requests for copies of the information
collection proposal should be sent to
Ms. James at [whs.mc-alex.esd.mbx.dd-
dod-information-collections@mail.mil](mailto:whs.mc-alex.esd.mbx.dd-dod-information-collections@mail.mil).

Dated: June 26, 2020.

Aaron T. Siegel,

Alternate OSD Federal Register Liaison
Officer, Department of Defense.

BILLING CODE 5001-06-P

DEPARTMENT OF DEFENSE

Department of the Army, Corps of Engineers

Notice of Intent To Prepare an Environmental Impact Statement for the Proposed Mid-Breton Sediment Diversion, in Plaquemines Parish, Louisiana

AGENCY: U.S. Army Corps of Engineers, Defense Department (DoD).

ACTION: Notice of intent.

SUMMARY: The U.S. Army Corps of Engineers (Corps), New Orleans District (CEMVN), has received an application for a U.S. Department of Army (DA) permit pursuant to Section 10 of the Rivers and Harbors Act of 1899 (Section 10), Section 404 of the Clean Water Act (Section 404), and Section 14 of the Rivers and Harbors Act of 1899 (Section 408), from the Coastal Protection and Restoration Authority of Louisiana (CPRA) to construct, maintain, and operate the Mid-Breton Sediment Diversion Project (Breton SD or proposed Action).

ADDRESSES: U.S. Army Corps of Engineers, New Orleans District, Attn: CEMVN-ODR-E, 7400 Leake Avenue, New Orleans, Louisiana 70118.

FOR FURTHER INFORMATION CONTACT: Questions and scoping comments regarding the proposed Breton SD, EIS, and DA permit process should be directed to Mr. Brad LaBorde at U.S. Army Corps of Engineers, New Orleans District, Attn: CEMVN-ODR-E, 7400 Leake Avenue, New Orleans, Louisiana 70118, by phone (504) 862-2225, or by email at CEMVN-Midbreton@usace.army.mil. Questions and comments concerning the Section 408 permissions should be directed to Mr. Jeffrey Varisco at U.S. Army Corps of Engineers, New Orleans District, Attn: CEMVN-PPMD, 7400 Leake Avenue, New Orleans, Louisiana 70118, by phone (504) 862-2853, or by email at CEMVN-Midbreton@usace.army.mil. Commenters will be placed on a Breton SD mailing list unless requested otherwise.

SUPPLEMENTARY INFORMATION: The Breton SD is proposed to be located on the east bank of the Mississippi River, at approximately 68 miles above “Head of Passes” and south of the Towns of Braithwaite and Scarsdale, in Plaquemines Parish, Louisiana. The requested Federal action associated with the Breton SD is authorization of the discharge of dredged or fill material into the Waters of the United States (Section 404) and the construction of structures and/or work that may affect navigable waters (Section 10), and permission to use, occupy, and alter Corps’ Civil Works projects (Section 408) through the issuance of a DA Section 10/404 permit and Section 408 permission. Based on the potential impacts, both individually and cumulatively, Federal authorization for the proposed Action would constitute a “major federal action”. The Corps intends to prepare an Environmental Impact Statement (EIS) in compliance with the National Environmental Policy Act (NEPA) as part of its decision-making process before rendering a decision on CPRA’s permit application. The Corps’ decision will be to issue, issue with modification, or deny the requested DA permit/permissions for the proposed Action. The EIS will assess the potential effects of the proposed Breton SD on the human environment (including the natural and physical environment and relationship of people with that environment) and is intended to be sufficient in scope to address Federal, State, and local requirements and permit reviews, and environmental and socioeconomic issues concerning the proposed Action. The CEMVN DA permit number for the Breton SD is MVN-2018-1120-EOO.

1. *Project Details.* The proposed Breton SD Project is a large-scale, complex ecosystem restoration project intended to convey sediment, fresh water, and nutrients from the Mississippi River into the Breton Sound Basin in an effort to reduce coastal land loss and sustain surrounding wetlands. If constructed and operated as proposed, CPRA would maintain a base flow up to 5,000 cubic feet per second (cfs) through the Breton SD Structure. When the Mississippi River gage at Belle Chasse exceeds 450,000 cfs in flow, the Breton SD structure would “open” to divert varying volumes of sediment, fresh water, and nutrients into the Breton Sound Basin. Maximum discharge of the Breton SD Structure would be 75,000 cfs, reached when the Belle Chasse gage measures 1,000,000 cfs.

The proposed Breton SD gated intake would impact the Mississippi River batture on the east bank, or left

descending bank, of the Mississippi River, at approximately 68 miles above “Head of Passes” and extend eastward, with the conveyance structure and guide levees extending through the Mississippi River Levee, Louisiana Highway 39, and the non-Federal back levee south of the Towns of Braithwaite and Scarsdale, Louisiana. The Breton SD structure would terminate at the outfall channel which would initially widen to convey sediment, fresh water, and nutrients into Breton Sound Basin with a pilot channel connecting to River Aux Chenes.

If constructed as proposed, the Breton SD footprint would directly impact approximately 309 acres of jurisdictional wetlands and approximately 52 acres of waters of the U.S. The proposed Breton SD operation will result in additional impacts, to the Breton Sound Basin where the current landscape is expected to be altered via diversion-related processes such as channelization, accretion, and delta formation. According to CPRA, the area to be potentially impacted within the Breton Sound Basin encompasses 5,277 acres of existing jurisdictional wetlands and 2,225 acres of waters of the U.S.

The Corps requires compensatory mitigation to offset unavoidable impacts to jurisdictional wetlands and other aquatic resources. CPRA proposes this project as a large scale ecosystem restoration that is self-mitigating. CEMVN will assess whether compensatory mitigation is required as part of the EIS process and permit review.

The proposed Breton SD project would directly and/or indirectly impact multiple CEMVN Civil Works projects, including but not limited to projects within the Mississippi Rivers and Tributaries Program such as the Mississippi River Levee and the Mississippi River (federal navigation) Ship Channel.

CPRA submitted a complete joint permit application to CEMVN and the Louisiana Department of Natural Resources for the proposed Breton SD on March 11, 2019; it was advertised on joint public notice on March 19, 2019. Following a review of the permit application, joint public notice comments, related sediment diversion sources, and based on a preliminary assessment of the environmental impacts, CEMVN determined that an EIS is required due to the proposed Action’s potential to significantly impact the quality of the human environment on July 31, 2019. Since that decision, an independent third-party contractor was selected to draft the EIS on behalf of CEMVN, and
