Petition for Exemption

Docket No.: FAA-2020-0372.

Petitioner: Airlines for America.

Section(s) of 14 CFR Affected: §§ 121.311(g), 121.333(f), 121.391(d), and 121.573(a).

Description of Relief Sought: The petitioner, Airlines for America, Inc. (A4A), on behalf of its member airlines petitions the Federal Aviation Administration (FAA) for an extension of Exemption No. 18522 (Docket No. FAA-2020-0372) until September 30, 2020. This exemption is scheduled to expire on June 30, 2020. The relief granted by Exemption 18522 has been in effect since April 08, 2020.

Exemption 18522 provides relief, under certain conditions and limitations, from 14 CFR 121.311(g), 121.333(f), 121.391(d), and 121.573(a) to the extent necessary to allow relief for flight attendants to relocate from the seats they would normally occupy in order to comply with recommendations from the World Health Organization (WHO) and Centers for Disease Control and Prevention (CDC) concerning proximity to other people. In addition, this relief from certain requirements of the regulation concerning passenger briefings excuses crewmembers from demonstrating the use of oxygen dispensing equipment and donning and inflating a life preserver.

Petition for Exemption

Docket No.: FAA-2020-0131.

Petitioner: The Boeing Company.

Section(s) of 14 CFR Affected:
§ 91.527(a).

Description of Relief Sought: The Boeing Company (Boeing) petitioned for an exemption on the B777-9, B777-8 “777X” series aircraft from the requirement that “(n)o pilot may take off an airplane that has frost, ice, or snow adhering to any . . . wing . . .” when the Original Equipment Manufacturer (OEM) has determined contamination commensurate with possible anti-icing fluid failure from a vertical orientation of the folding wingtips during treatment and taxi would not adversely affect the performance or controllability of the aircraft. This exemption will allow deicing and anti-icing of the 777X folding wingtip in the folded or extended position, required for Boeing operations under Special Flight Permits during the winter season.

Federal Motor Carrier Safety Administration

[Docket No. FMCSA-2020-0117]

60-Day Notice of Renewal for Information Collection: Request for Renewal of Commercial Driver's License (CDL) Skills Testing Delays Annual Survey

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), DOT.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, FMCSA announces its plan to submit the Information Collection Request (ICR) described below to the Office of Management and Budget (OMB) for its renewal and invites public comment. This ICR is to collect data on the delays, by State, that applicants face when scheduling a CDL skills test. This information collection and subsequent data analysis is required by section 5506 of the Fixing America's Surface Transportation Act, 2015 (FAST Act). FMCSA reported the results of the initial ICR request in a report to congress titled “The Commercial Driver's License Skills Test Delays Report to Congress—CY 2016” available on FMCSA's web page located here: <https://www.fmcsa.dot.gov/mission/policy/commercial-drivers-license-skills-test-delays-report-congress-cy-2016>.

DATES: We must receive your comments on or before August 10, 2020.

ADDRESSES: You may submit comments identified by Federal Docket Management System (FDMS) Docket Number FMCSA- 2020-0117 using any of the following methods:

- *Federal eRulemaking Portal:* <http://www.regulations.gov>. Follow the online instructions for submitting comments.

SUPPLEMENTARY INFORMATION:

Background: Section 5506 of the FAST Act requires FMCSA to produce a study on CDL skills test delays on an annual basis. The requirements of the study are to submit an annual report describing:

“(A) the average wait time from the date an applicant requests to take a skills test to the date the applicant has the opportunity to complete such test;

(B) the average wait time from the date an applicant, upon failure of a skills test, requests a retest to the date the applicant has the opportunity to complete such retest;

(C) the actual number of qualified commercial driver's license examiners available to test applicants; and

(D) the number of testing sites available through the State department of motor vehicles and whether this number has increased or decreased from the previous year.”

The annual report is also required to describe “specific steps the Administrator is taking to address skills testing delays in States that have average skills test or retest wait times of more than 7 days.” If this information collection does not occur, FMCSA will not be able to continue to conduct the study on CDL skills test delays. This data collection aims to continue to create longitudinal data where currently there is none. If the information collection occurs on a less-than-annual basis, FMCSA will not be able to make observations on yearly trends or analyze differences between States.

For the initial 2017 survey FMCSA met with several stakeholders, including the American Association of Motor Vehicle Administrators, the Commercial Vehicle Training Association, and State Driver Licensing Agencies to ensure the information being collected was not already collected elsewhere and was not available to FMCSA. FMCSA conducted extensive background research to ensure the study was not duplicative. A previous study, done by the Government Accountability Office (GAO) in 2015, asked for similar information but did not produce specific enough data to be used in this study.

The survey will continue to be sent out via email, with the option for online completion using SurveyMonkey® or Qualtrics. Each State can continue to respond via email or the online survey tool depending on which method is more convenient for the respondent.
