

Filed Date: 4/22/20.

Accession Number: 20200422–5002.

Comments Due: 5 p.m. ET 5/4/20.

Docket Numbers: RP20–798–000.

Applicants: Midcontinent Express Pipeline LLC.

Description: § 4(d) Rate Filing:

Removal of Expiring Total Agreement to be effective 6/1/2020.

Filed Date: 4/22/20.

Accession Number: 20200422–5013.

Comments Due: 5 p.m. ET 5/4/20.

Docket Numbers: RP20–799–000.

Applicants: Texas Eastern Transmission, LP.

Description: Compliance filing TETLP OFO April 2020 Penalty Disbursement Report.

Filed Date: 4/22/20.

Accession Number: 20200422–5019.

Comments Due: 5 p.m. ET 5/4/20.

The filings are accessible in the Commission's eLibrary system by clicking on the links or querying the docket number.

Any person desiring to intervene or protest in any of the above proceedings must file in accordance with Rules 211 and 214 of the Commission's Regulations (18 CFR 385.211 and 385.214) on or before 5:00 p.m. Eastern time on the specified date(s). Protests may be considered, but intervention is necessary to become a party to the proceeding.

eFiling is encouraged. More detailed information relating to filing requirements, interventions, protests, service, and qualifying facilities filings can be found at: <http://www.ferc.gov/docs-filing/efiling/filing-req.pdf>. For other information, call (866) 208–3676 (toll free). For TTY, call (202) 502–8659.

Dated: April 23, 2020.

Nathaniel J. Davis, Sr.,

Deputy Secretary.

ENVIRONMENTAL PROTECTION AGENCY

[FRL–10008–98–OA]

Meeting of the Local Government Advisory Committee and the Small Communities Advisory Subcommittee

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Local Government Advisory Committee (LGAC) will conduct a virtual meeting on Friday, May 15, 2020, 11:00 a.m.–2:00 p.m. (EDT). The focus of the Committee

meeting will be to: Deliberate and vote on the Risk Communication Report drafted by the Revitalizing Communities Workgroup of the LGAC and reviewed by other LGAC workgroups and the Small Communities Advisory Subcommittee (SCAS); discuss workgroup charges and issues; and determine the Committee's agenda and priorities for the remainder of the year. These are open meetings, and all interested persons are invited to participate. The LGAC and SCAS will hear comments from the public between 1:10–1:25 p.m. (EDT).

Individuals or organizations wishing to address the Subcommittee, or the Committee will be allowed a maximum of five minutes to present their point of view. Also, written comments should be submitted electronically to daniels.joseph@epa.gov for the LGAC and SCAS. Please contact the Designated Federal Officers (DFO) at the numbers listed below to schedule a time on the agenda. Time will be allotted on a first-come first-serve basis, and the total period for comments may be extended if the number of requests for appearances requires it.

Meeting Logistics: The LGAC and SCAS meetings will be held virtually by conference call. Members of the public who wish to participate should register by contacting the DFO at the number below to receive the call-in number.

The agenda and other meeting materials, including the meeting summaries, will be available online at www.epa.gov/ocir/scas_lgac/lgac_index.htm and can be obtained by written request to the DFO. In the event of cancellation for unforeseen circumstances, please contact the designated federal officer or check the website above for reschedule information.

FOR FURTHER INFORMATION CONTACT: The Local Government Advisory Committee (LGAC) and Small Communities Advisory Subcommittee contact is Joseph Daniels, Acting Designated Federal Officer, at (202) 564–3115 or email at daniels.joseph@epa.gov.

Information on Services for Those With Disabilities: For information on access or services for individuals with disabilities, please contact Joseph Daniels at (202) 564–3115 or email at daniels.joseph@epa.gov. To request accommodation of a disability, please request it 10 days prior to the meeting, to give EPA as much time as possible to process your request.

Dated: April 24, 2020.

Julian E. Bowles,

Director, State and Local Government Relations, Office of Congressional and Intergovernmental Relations.

ENVIRONMENTAL PROTECTION AGENCY

[FRL–10008–79–OLEM]

Thirty-Seventh Update of the Federal Agency Hazardous Waste Compliance Docket

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: Since 1988, the Environmental Protection Agency (EPA) has maintained a Federal Agency Hazardous Waste Compliance Docket (“Docket”) under section 120(c) of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). Section 120(c) requires EPA to establish a Docket that contains certain information reported to EPA by Federal facilities that manage hazardous waste or from which a reportable quantity of hazardous substances has been released. As explained further below, the Docket is used to identify Federal facilities that should be evaluated to determine if they pose a threat to public health or welfare and the environment and to provide a mechanism to make this information available to the public. This notice identifies the Federal facilities not previously listed on the Docket and identifies Federal facilities reported to EPA since the last update on October 28, 2019. In addition to the list of additions to the Docket, this notice includes a section with revisions of the previous Docket list and a section of Federal facilities that are to be deleted from the Docket. Thus, the revisions in this update include six additions, zero deletions, and one correction to the Docket since the previous update. At the time of publication of this notice, the new total number of Federal facilities listed on the Docket is 2,378.

DATES: This list is current as of April 3, 2020.

FOR FURTHER INFORMATION CONTACT: Electronic versions of the Docket and more information on its implementation can be obtained at <http://www.epa.gov/fedfac/previous-federal-agency-hazardous-waste-compliance-docket-updates> by clicking on the link for *Cleanups at Federal Facilities* or by

contacting Benjamin Simes (Simes.Benjamin@epa.gov), Federal Agency Hazardous Waste Compliance Docket Coordinator, Federal Facilities Restoration and Reuse Office. Additional information on the Docket and a complete list of Docket sites can be obtained at: <https://www.epa.gov/fedfac/fedfacts>.

SUPPLEMENTARY INFORMATION:

Table of Contents

- 1.0 Introduction
- 2.0 Regional Docket Coordinators
- 3.0 Revisions of the Previous Docket
- 4.0 Process for Compiling the Updated Docket
- 5.0 Facilities Not Included
- 6.0 Facility NPL Status Reporting, Including NFRAP Status
- 7.0 Information Contained on Docket Listing

1.0 Introduction

Section 120(c) of CERCLA, 42 U.S.C. 9620(c), as amended by the Superfund Amendments and Reauthorization Act of 1986 (SARA), requires EPA to establish the Federal Agency Hazardous Waste Compliance Docket. The Docket contains information on Federal facilities that manage hazardous waste and such information is submitted by Federal agencies to EPA under sections 3005, 3010, and 3016 of the Resource Conservation and Recovery Act (RCRA), 42 U.S.C. 6925, 6930, and 6937. Additionally, the Docket contains information on Federal facilities with a reportable quantity of hazardous substances that has been released and such information is submitted by Federal agencies to EPA under Section 103 of CERCLA, 42 U.S.C. 9603. Specifically, RCRA section 3005 establishes a permitting system for certain hazardous waste treatment, storage, and disposal (TSD) facilities; RCRA section 3010 requires waste generators, transporters and TSD facilities to notify EPA of their hazardous waste activities; and RCRA section 3016 requires Federal agencies to submit biennially to EPA an inventory of their Federal hazardous waste facilities. CERCLA section 103(a) requires the owner or operator of a vessel or onshore or offshore facility to notify the National Response Center (NRC) of any spill or other release of a hazardous substance that equals or exceeds a reportable quantity (RQ), as defined by CERCLA section 101. Additionally, CERCLA section 103(c) requires facilities that have "stored, treated, or disposed of" hazardous wastes and where there is "known, suspected, or likely releases" of hazardous substances to report their activities to EPA.

CERCLA section 120(d) requires EPA to take steps to assure that a Preliminary Assessment (PA) be completed for those sites identified in the Docket and that the evaluation and listing of sites with a PA be completed within a reasonable time frame. The PA is designed to provide information for EPA to consider when evaluating the site for potential response action or inclusion on the National Priorities List (NPL).

The Docket serves three major purposes: (1) To identify all Federal facilities that must be evaluated to determine whether they pose a threat to human health and the environment sufficient to warrant inclusion on the National Priorities List (NPL); (2) to compile and maintain the information submitted to EPA on such facilities under the provisions listed in section 120(c) of CERCLA; and (3) to provide a mechanism to make the information available to the public. Previous Docket updates are available at <https://www.epa.gov/fedfac/previous-federal-agency-hazardous-waste-compliance-docket-updates>.

This notice provides some background information on the Docket. Additional information on the Docket requirements and implementation are found in the Docket Reference Manual, Federal Agency Hazardous Waste Compliance Docket found at <http://www.epa.gov/fedfac/docket-reference-manual-federal-agency-hazardous-waste-compliance-docket-interim-final> or obtained by calling the Regional Docket Coordinators listed below. This notice also provides changes to the list of sites included on the Docket in three areas: (1) Additions, (2) Deletions, and (3) Corrections. Specifically, additions are newly identified Federal facilities that have been reported to EPA since the last update and now are included on the Docket; the deletions section lists Federal facilities that EPA is deleting from the Docket.¹ The information submitted to EPA on each Federal facility is maintained in the Docket repository located in the EPA Regional office of the Region in which the Federal facility is located; for a description of the information required under those provisions, *see* 53 FR 4280 (February 12, 1988). Each repository contains the documents submitted to EPA under the reporting provisions and correspondence relevant to the reporting provisions for each Federal facility.

In prior updates, information was also provided regarding No Further Remedial Action Planned (NFRAP) status changes. However, information

on NFRAP and NPL status is no longer being provided separately in the Docket update as it is now available at: <http://www.epa.gov/fedfac/fedfacts> or by contacting the EPA HQ Docket Coordinator at the address provided in the **FOR FURTHER INFORMATION CONTACT** section of this notice.

2.0 Regional Docket Coordinators

Contact the following Docket Coordinators for information on Regional Docket repositories:

- *US EPA Region 1.* Martha Bosworth (HBS), 5 Post Office Square, Suite 100, Mail Code: OSRR07-2, Boston MA 02109-3912, (617) 918-1407.
- *US EPA Region 2.* Cathy Moyik (ERRD), 290 Broadway, New York, NY 10007-1866, (212) 637-4339.
- *US EPA Region 3.* Joseph Vitello (3HS12), 1650 Arch Street, Philadelphia, PA 19107, (215) 814-3354.
- *US EPA Region 4.* Leigh Lattimore (4SF-SRSEB), 61 Forsyth St., SW, Atlanta, GA 30303, (404) 562-8768.
- *US EPA Region 5.* David Brauner (SR-6J), 77 W Jackson Blvd., Chicago, IL 60604, (312) 886-1526.
- *US EPA Region 6.* Philip Ofosu (6SF-RA), 1445 Ross Avenue, Dallas, TX 75202-2733, (214) 665-3178.
- *US EPA Region 7.* Todd H. Davis (SUPRERS), 11201 Renner Blvd., Lenexa, KS 66219, (913) 551-7749.
- *US EPA Region 8.* Ryan Dunham (EPR-F), 1595 Wynkoop Street, Denver, CO 80202, (303) 312-6627.
- *US EPA Region 9.* Leslie Ramirez (SFD-6-1), 75 Hawthorne Street, San Francisco, CA 94105, (415) 972-3978.
- *US EPA Region 10.* Ken Marcy, Oregon Operations Office, 805 SW Broadway, Suite 500, Portland, OR 97205, (503) 326-3269.

3.0 Revisions of the Previous Docket

This section includes a discussion of the additions, deletions and corrections to the list of Docket facilities since the previous Docket update.

3.1 Additions

These Federal facilities are being added primarily because of new information obtained by EPA (for example, recent reporting of a facility pursuant to RCRA sections 3005, 3010, or 3016 or CERCLA section 103). CERCLA section 120, as amended by the Defense Authorization Act of 1997, specifies that EPA take steps to assure that a Preliminary Assessment (PA) be completed within a reasonable time frame for those Federal facilities that are included on the Docket. Among other things, the PA is designed to provide information for EPA to consider when

¹ See Section 3.2 for the criteria for being deleted from the Docket.

evaluating the site for potential response action or listing on the NPL. This notice includes six additions.

3.2 Deletions

There are no statutory or regulatory provisions that address deletion of a facility from the Docket. However, if a facility is incorrectly included on the Docket, it may be deleted from the Docket. The criteria EPA uses in deleting sites from the Docket include: A facility for which there was an incorrect report submitted for hazardous waste activity under RCRA (*e.g.*, 40 CFR 262.44); a facility that was not Federally-owned or operated at the time of the listing; a facility included more than once (*i.e.*, redundant listings); or when multiple facilities are combined under one listing. (*See* Docket Codes (*Reasons for Deletion of Facilities*) for a more refined list of the criteria EPA uses for deleting sites from the Docket.) Facilities being deleted no longer will be subject to the requirements of CERCLA section 120(d). This notice includes zero deletions.

3.3 Corrections

Changes necessary to correct the previous Docket are identified by both EPA and Federal agencies. The corrections section may include changes in addresses or spelling, and corrections of the recorded name and ownership of a Federal facility. In addition, changes in the names of Federal facilities may be made to establish consistency in the Docket or between the Superfund Enterprise Management System (SEMS) and the Docket. For the Federal facility for which a correction is entered, the original entry is as it appeared in previous Docket updates. The corrected update is shown directly below, for easy comparison. This notice includes one correction.

4.0 Process for Compiling the Updated Docket

In compiling the newly reported Federal facilities for the update being published in this notice, EPA extracted the names, addresses, and identification numbers of facilities from four EPA databases—the WebEOC, the Biennial Inventory of Federal Agency Hazardous Waste Activities, the Resource Conservation and Recovery Act Information System (RCRAInfo), and SEMS—that contain information about Federal facilities submitted under the four provisions listed in CERCLA section 120(c).

EPA assures the quality of the information on the Docket by conducting extensive evaluation of the current Docket list and contacts the

other Federal Agency (OFA) with the information obtained from the databases identified above to determine which Federal facilities were, in fact, newly reported and qualified for inclusion on the update. EPA is also striving to correct errors for Federal facilities that were previously reported. For example, state-owned or privately-owned facilities that are not operated by the Federal government may have been included. Such problems are sometimes caused by procedures historically used to report and track Federal facilities data. Representatives of Federal agencies are asked to contact the EPA HQ Docket Coordinator at the address provided in the **FOR FURTHER INFORMATION CONTACT** section of this notice if revisions of this update information are necessary.

5.0 Facilities Not Included

Certain categories of facilities may not be included on the Docket, such as: (1) Federal facilities formerly owned by a Federal agency that at the time of consideration was not Federally-owned or operated; (2) Federal facilities that are small quantity generators (SQGs) that have not, more than once per calendar year, generated more than 1,000 kg of hazardous waste in any single month; (3) Federal facilities that are very small quantity generators (VSQGs) that have never generated more than 100 kg of hazardous waste in any month; (4) Federal facilities that are solely hazardous waste transportation facilities, as reported under RCRA section 3010; and (5) Federal facilities that have mixed mine or mill site ownership.

An EPA policy issued in June 2003 provided guidance for a site-by-site evaluation as to whether “mixed ownership” mine or mill sites, typically created as a result of activities conducted pursuant to the General Mining Law of 1872 and never reported under section 103(a) of CERCLA, should be included on the Docket. For purposes of that policy, mixed ownership mine or mill sites are those located partially on private land and partially on public land. This policy is found at <http://www.epa.gov/fedfac/policy-listing-mixed-ownership-mine-or-mill-sites-created-result-general-mining-law-1872>. The policy of not including these facilities may change; facilities now omitted may be added at some point if EPA determines that they should be included.

6.0 Facility NPL Status Reporting, Including NFRAP Status

EPA tracks the NPL status of Federal facilities listed on the Docket. An

updated list of the NPL status of all Docket facilities, as well as their NFRAP status, is available at <http://www.epa.gov/fedfac/fedfacts> or by contacting the EPA HQ Docket Coordinator at the address provided in the **FOR FURTHER INFORMATION CONTACT** section of this notice. In prior updates, information regarding NFRAP status changes was provided separately.

7.0 Information Contained on Docket Listing

The information is provided in three tables. The first table is a list of additional Federal facilities that are being added to the Docket. The second table is a list of Federal facilities that are being deleted from the Docket. The third table is for corrections.

The Federal facilities listed in each table are organized by the date reported. Under each heading is listed the name and address of the facility, the Federal agency responsible for the facility, the statutory provision(s) under which the facility was reported to EPA, and a code.²

The statutory provisions under which a Federal facility is reported are listed in a column titled “Reporting Mechanism.” Applicable mechanisms are listed for each Federal facility: For example, Sections 3005, 3010, 3016, 103(c), or Other. “Other” has been added as a reporting mechanism to indicate those Federal facilities that otherwise have been identified to have releases or threat of releases of hazardous substances. The National Contingency Plan at 40 CFR 300.405 addresses discovery or notification, outlines what constitutes discovery of a hazardous substance release, and states that a release may be discovered in several ways, including: (1) A report submitted in accordance with section 103(a) of CERCLA, *i.e.*, reportable quantities codified at 40 CFR 302; (2) a report submitted to EPA in accordance with section 103(c) of CERCLA; (3) investigation by government authorities conducted in accordance with section 104(e) of CERCLA or other statutory authority; (4) notification of a release by a Federal or state permit holder when required by its permit; (5) inventory or survey efforts or random or incidental observation reported by government agencies or the public; (6) submission of a citizen petition to EPA or the appropriate Federal facility requesting a preliminary assessment, in accordance with section 105(d) of CERCLA; (7) a

² Each Federal facility listed in the update has been assigned a code that indicates a specific reason for the addition or deletion. The code precedes this list.

report submitted in accordance with section 311(b)(5) of the Clean Water Act; and (8) other sources. As a policy matter, EPA generally believes it is appropriate for Federal facilities identified through the CERCLA discovery and notification process to be included on the Docket.

The complete list of Federal facilities that now make up the Docket and the NPL and NFRAP status are available to interested parties and can be obtained at <http://www.epa.gov/fedfac/fedfacts> or by contacting the EPA HQ Docket Coordinator at the address provided in the **FOR FURTHER INFORMATION CONTACT** section of this notice. As of the date of this notice, the total number of Federal facilities that appear on the Docket is 2,378.

Dated: April 22, 2020.

Gregory Gervais,

Acting Director, Federal Facilities Restoration and Reuse Office, Office of Land and Emergency Management.

7.1 Docket Codes/Reasons for Deletion of Facilities

- *Code 1.* Small-Quantity Generator and Very Small Quantity Generator. Show citation box

- *Code 2.* Never Federally Owned and/or Operated.
- *Code 3.* Formerly Federally Owned and/or Operated but not at time of listing.
- *Code 4.* No Hazardous Waste Generated.
- *Code 5.* (This code is no longer used.)
- *Code 6.* Redundant Listing/Site on Facility.
- *Code 7.* Combining Sites Into One Facility/Entries Combined.
- *Code 8.* Does Not Fit Facility Definition.

7.2 Docket Codes/Reasons for Addition of Facilities

- *Code 15.* Small-Quantity Generator with either a RCRA 3016 or CERCLA 103 Reporting Mechanism.
- *Code 16.* One Entry Being Split Into Two (or more)/Federal Agency Responsibility Being Split.
- *Code 16A.* NPL site that is part of a Facility already listed on the Docket.
- *Code 17.* New Information Obtained Showing That Facility Should Be Included.

- *Code 18.* Facility Was a Site on a Facility That Was Disbanded; Now a Separate Facility.
 - *Code 19.* Sites Were Combined Into One Facility.
 - *Code 19A.* New Currently Federally Owned and/or Operated Facility Site.
- ### 7.3 Docket Codes/Types of Corrections of Information About Facilities
- *Code 20.* Reporting Provisions Change.
 - *Code 20A.* Typo Correction/Name Change/Address Change.
 - *Code 21.* Changing Responsible Federal Agency. (If applicable, new responsible Federal agency submits proof of previously performed PA, which is subject to approval by EPA.)
 - *Code 22.* Changing Responsible Federal Agency and Facility Name. (If applicable, new responsible Federal Agency submits proof of previously performed PA, which is subject to approval by EPA.)
 - *Code 24.* Reporting Mechanism Determined To Be Not Applicable After Review of Regional Files.

BILLING CODE 6560-50-P

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OAR-2003-0152; FRL-10005-68-OMS]

Information Collection Request Submitted to OMB for Review and Approval; Comment Request; Compliance Assurance Monitoring Program (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The U.S Environmental Protection Agency (EPA) has submitted an information collection request (ICR), Compliance Assurance Monitoring Program (EPA ICR Number 1663.10, OMB Control Number 2060-0376) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act (PRA). This is a proposed extension of the ICR, which is currently approved through June 30, 2020. Public comments were previously requested via the **Federal Register** on August 26, 2019, during a 60-day comment period. This document allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: Additional comments may be submitted on or before May 29, 2020.

ADDRESSES: Submit your comments to EPA, referencing Docket ID No. EPA-HQ-OAR-2003-0152, online using www.regulations.gov (our preferred method), by email to a-and-r-docket@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460. EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI), or other information whose disclosure is restricted by statute.

Submit written comments and recommendations to OMB for the proposed information collection within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information

collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

FOR FURTHER INFORMATION CONTACT: Mr. Muntasir Ali, Office of Air Quality Planning and Standards, Sector Policies and Programs Division (D243-05), U.S. Environmental Protection Agency, Research Triangle Park, North Carolina 27711; telephone number: (919) 541-0833; and email address: ali.muntasir@epa.gov.

SUPPLEMENTARY INFORMATION:

Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR (Docket ID No. EPA-HQ-OAR-2003-0152). The docket can be viewed online at <https://www.regulations.gov/> or in person at the EPA Docket Center, WJC West Building, Room 3334, 1301 Constitution Avenue NW, Washington, DC 20004. The telephone number for the EPA Docket Center is (202) 566-1744. For additional information about the EPA's public docket, visit <https://www.epa.gov/dockets>.

Abstract: The Clean Air Act (CAA) contains several provisions directing the EPA to require source owners to conduct monitoring to support certification as to their status of compliance with applicable requirements. Under CAA section 504(c), each operating permit must "set forth inspection, entry, monitoring, compliance, certification and reporting requirements to assure compliance with the permit terms and conditions." See also CAA section 504(c) (each permit shall require reporting of monitoring the EPA and such other conditions as are necessary to assure compliance). CAA section 504(b) allows the EPA to prescribe rules, methods, and procedures for determining compliance, recognizing that continuous emissions monitoring systems need not be required if other procedures or methods provide sufficiently reliable and timely information for determining compliance. Section 114(a)(1) of the CAA provides additional authority concerning monitoring, reporting, and recordkeeping requirements. This section provides the Administrator with the authority to require any owner/operator of a source to install and to operate monitoring systems and to record the resulting monitoring data. The EPA promulgated the Compliance Assurance Monitoring (CAM) Rule, 40 CFR part 64, on October 22, 1997 (62 FR 54900), pursuant to these provisions. Per 64.9(2)(a), the collection of information for monitoring will include:

(1) Summary information on the number, duration and cause (including unknown cause, if applicable) of excursions or exceedances, as applicable, and the corrective actions taken, (2) Summary information on the number, duration and cause (including unknown cause, if applicable) for monitor downtime incidents (other than downtime associated with zero and span or other daily calibration checks, if applicable); and (3) a description of the actions taken to implement a QIP during the reporting period as specified in § 64.8. Upon completion of a QIP, the owner or operator shall include in the next summary report documentation that the implementation of the plan has been completed and reduced the likelihood of similar levels of excursions or exceedances occurring. In accordance with CAA section 114(c) and CAA section 503(e), the monitoring information source owners must submit must also be available to the public except under circumstances set forth in section 114(c) of the CAA.

Form Numbers: None.

Respondents/affected entities: Entities potentially affected by this section are all facilities required to have an operating permit under title V of the CAA. See section 502(a) of the CAA, which defines the sources to obtain a title V permit. See also 40 CFR 70.2 and 71.2.

Respondent's obligation to respond: Mandatory under title V of the CAA. See section 502(a) of the CAA, which defines the sources required to obtain a title V permit. See also 40 CFR 70.2 and 71.2.

Estimated number of respondents: There are 21,448 pollutant-specific emission units (PSEUs), and 117 permitting authorities. Therefore, the estimated number of respondents is 21,565 (total).

Frequency of response: At least every 6 months per title V, 40 CFR 70.6(a)(3)(iii)(A) and (B).

Total estimated burden: 24,590 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$999,211 (per year), includes \$0 annualized capital or operation and maintenance costs.

Changes in the Estimates: There is a decrease of 26,490 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This decrease is due to an updated estimate of the number of sources and permits subject to the 40 CFR part 70 programs (a reduction of 1,768 permits), an increase in the number of permitting authorities (an addition of one), a decrease in the number of CAM plan renewal review
