POLICY JUSTIFICATION

Philippines—AH-1Z Attack Helicopters and Related Equipment and Support

The Government of the Philippines has requested to buy six (6) AH-1Z attack helicopters; fourteen (14) T-700 GE 401C engines (12 installed, 2 spares); seven (7) Honeywell Embedded Global Positioning Systems/Inertial Navigation (EGIs) w/Precise Positioning Service (PPS) (6 installed, 1 spare); six (6) AGM-114 Hellfire II missiles; and twenty six (26) Advanced Precision Kill Weapon System (APKWS) all up rounds. Also included is communications equipment; electronic warfare systems, AN/AAR-47 Missile and Laser Warning System, AN/ALE-47 Countermeasure Dispenser System, AN/APR-39 Radar Warning Receiver, seven (7) M197 20mm machine guns (6 installed, 1 spare), Target Sight System (TSS), 5,000 20mm Semi-Armor Piercing High Explosive Incendiary (SAPHEI) rounds, two (2) AIM-9M Sidewinder training missiles, MJU-32 and MJU-38 Magnesium Teflon pyrotechnic decoy flares, flight training device, LAU-68 rocket launchers, LAU-61 rocket launchers, support equipment, spare engine containers, spare and repair parts, tools and test equipment, technical data and publications, personnel training and training equipment, U.S. government and contractor engineering, technical, and logistics support services, and other related elements of logistics and

program support. The estimated cost is \$450 million.

This proposed sale will support the foreign policy and national security of the United States by helping to improve the security of a friendly country that continues to be an important force for political stability, peace, and economic progress in South-East Asia.

The Philippines is considering either the AH-1Z or the AH-64E to modernize its attack helicopter capabilities. The proposed sale will assist the Philippines in developing and maintaining strong self-defense, counterterrorism, and critical infrastructure protection capabilities. The Philippines will have no difficulty absorbing this equipment and support into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractors will be Bell Helicopter, Textron, Fort Worth, Texas; and General Electric Company, Lynn, Massachusetts. Offsets may be a requirement of doing business in the Philippines; however, offsets are negotiated directly between the Original Equipment Manufacturers or other vendors and the Government of the Philippines, and further details are not known at this time.

Implementation of this proposed sale will require multiple trips by U.S. Government and contractor representatives to participate in program and technical reviews plus training and maintenance support in country, on a temporary basis, for a period of twenty-four (24) months. It will also require one (1) contractor support representative to reside in country for a period of two (2) years to support this program.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 20-04

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act
