

# Rockville Pedestrian Bridge

📍 Rockville Metrorail Station | Rockville, MD **RD**

PROJECT FACT SHEET | Spring 2021

## 📅 Overview

The Rockville Pedestrian Bridge is an enclosed and elevated pedestrian bridge crossing over Rockville Pike, connecting Rockville Metrorail Station and downtown Rockville. The bridge closed to customers in June 2020 so Metro could perform necessary structural repairs to ensure the safety and security of Metro customers.

## 👤 Improving the Customer Experience

When construction is complete, customers will enjoy a **safer**, more **accessible** walkway which features a new non-skid coating to help prevent slipping injuries and renewed natural light from enhanced cleaning of glass panels and skylights. Metro's installation of new security gates at both ends of the customer walkway will also improve security during non-operating Metro hours. Roofing and structural repairs will ensure that the walkway is a **structurally sound, safe and reliable** pathway for Rockville station customers for years to come.

## 🔧 Metro's Capital Improvement Program

Metro is investing in system safety, reliability and the region's economy through its 10-year, \$15 billion capital improvement program.

The Rockville Pedestrian Bridge is part of a larger Metro initiative to repair and improve aerial structures like elevated customer pathways and rail bridges.

🏗️ **Project Investment Category:** Track & Structures Rehabilitation

🏗️ **Project Subcategory:** Bridge Rehabilitations

🎯 **Project Goals:** Safety and Reliability

## 📍 Related Station Projects

Rockville Metrorail Station customers will experience more station improvements over the coming year, including a new canopy on the station platform and parking lot improvements.

## 📅 Timeline\*

**Summer 2020**  
Bridge closes

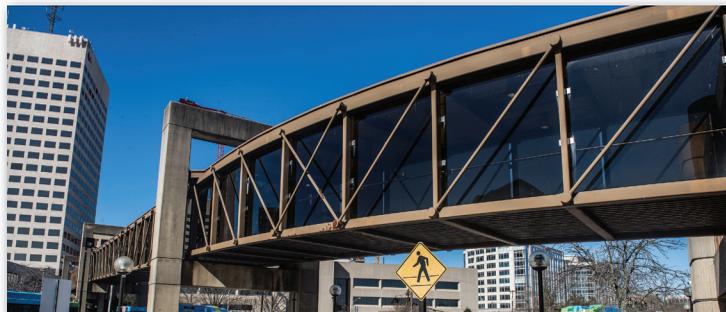

\*Estimated

**Spring 2021**  
Start of construction

**Fall 2021**  
Estimated completion of construction

The bridge, pictured before construction, will receive roofing repairs.

The bridge deck, pictured in 2020, will receive new non-skid coating.

## ⚠ Construction and Safety Information

Customers should stay clear of the construction zone and comply with all posted safety and traffic signs.

- Accessible parking in the west Kiss & Ride will be relocated to the south section of the lot.
- Traffic and pedestrian detours will be in place outside the station in the west Kiss & Ride.
- Evening work will occur for approximately two weeks as crews work on the section of the bridge over Rockville Pike.

## 🚶 Travel Alternatives

- **Walk.** Customers can cross Rockville Pike at Park Road or Church Street using marked crosswalks and by following pedestrian crossing signals.
- **Ride.** Free shuttle bus service operates between Rockville Metrorail Station Bus Bay D and Monroe Street/East Montgomery Avenue every 5-10 minutes during Metrorail hours.
