RIN 2120-AA66

Proposed Amendment and Revocation of Air Traffic Service (ATS) Routes in the Vicinity of Lebanon, NH

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This action proposes to amend VHF Omnidirectional Range (VOR) Federal airways V-141, and V-542, and revoke airways V-151 and V-496, due to the planned

decommissioning of the Lebanon, NH, VOR/DME navigation aid which provides navigation guidance for segments of the routes. The Lebanon VOR/DME is planned for decommissioned as part of the FAA's VOR Minimum Operational Network (MON) program.

DATES: Comments must be received on or before September 28, 2020.

SUPPLEMENTARY INFORMATION:

Authority for This Rulemaking

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of the airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it would modify the VOR Federal airway route

structure in the northeastern United States to maintain the efficient flow of air traffic.

Comments Invited

Interested parties are invited to participate in this proposed rulemaking by submitting such written data, views, or arguments as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy-related aspects of the proposal.

Communications should identify both docket numbers (FAA Docket No. FAA-2020-0735; Airspace Docket No. 19-ANE-8 and be submitted in triplicate to the Docket Management Facility (see **ADDRESSES** section for address and phone number). You may also submit comments through the internet at <https://www.regulations.gov>.

Commenters wishing the FAA to acknowledge receipt of their comments on this action must submit with those comments a self-addressed, stamped postcard on which the following statement is made: "Comments to FAA Docket No. FAA-2020-0735; Airspace Docket No. 19-ANE-8". The postcard will be date/time stamped and returned to the commenter.

All communications received on or before the specified comment closing date will be considered before taking action on the proposed rule. The proposal contained in this action may be changed in light of comments received. A report summarizing each substantive public contact with FAA personnel concerned with this rulemaking will be filed in the docket.

Availability and Summary of Documents for Incorporation by Reference

This document proposes to amend FAA Order 7400.11D, Airspace Designations and Reporting Points, dated August 8, 2019, and effective September 15, 2019. FAA Order 7400.11D is publicly available as listed in the **ADDRESSES** section of this proposed rule. FAA Order 7400.11D lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Proposal

The FAA is proposing an amendment to Title 14 Code of Federal Regulations (14 CFR) part 71 to amend VOR Federal airways V-141 and V-542, and to revoke airways V-151 and V-496, due to the planned decommissioning of the Lebanon, NH VOR/DME. An Area Navigation (RNAV) waypoint (WP) is being developed to be charted in the vicinity of the Lebanon VOR/DME location. The proposed changes are described below.

V-141: V-141 currently consists of two parts: first, extending between the Nantucket, MA, VOR/DME and the Boston, MA, VOR/DME; and second, extending between the Manchester, NH, VOR/DME and the Massena, NY, VORTAC. This proposal would remove the part between Manchester, NH, and Massena, NY. As amended, V-141 would extend between Nantucket, MA, and Boston, MA.

V-542: V-542 currently extends between the Elmira, NY, VOR/DME, and the Lebanon, NH, VOR/DME. The FAA proposes to remove the route segments of V-542 that extend between the Rockdale, NY, VOR/DME, and the Lebanon, NH, VOR/DME. As amended, V-542 would extend between Elmira, NY, and Rockdale, NY.

V-151: V-151 currently extends between the intersection of the Nantucket, MA, VOR/DME 334° and the Providence, RI VOR/DME 079° radials, and the Burlington, VT, VOR/DME. The FAA proposes to remove this entire route. A low altitude RNAV route is being developed to replace V-151.

V-496: V-496 currently extends between the Utica, NY, VORTAC, and the Kennebunk, ME, VOR/DME. This action proposes to remove the entire route.

Domestic VOR Federal airways are published in paragraph 6010(a) of FAA Order 7400.11D, dated August 8, 2019, and effective September 15, 2019, which is incorporated by reference in 14 CFR

71.1. The VOR Federal airways listed in this document would be subsequently published in, or removed from, the Order.

FAA Order 7400.11, Airspace Designations and Reporting Points, is published yearly and effective on September 15.

Regulatory Notices and Analyses

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under Department of Transportation (DOT) Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F, “Environmental Impacts: Policies and Procedures” prior to any FAA final regulatory action.
